PRODUCT ENGINEERING

1960 INDEX

McGRAW-HILL WEEKLY FOR DESIGN ENGINEERS

PART II — VOLUME 31

WEEKLY ISSUES — JULY 4 THROUGH DECEMBER 26, 1960

COPYRIGHT 1960 by McGRAW-HILL PUBLISHING CO., INC., 330 West 42nd Street, New York 36, N. Y.

—A—

Actuators
Air-operated actuator (SP)....Aug. 15 66
Digital actuators (A).....July 25 85
High-force thermostatic actuators. Freismuth & Gould.....July 11 74
Hydraulic-actuator study highlights unsolved problems (N).....Nov. 7 9
Pneumatic actuator provides choice of speeds with one control (D)..Dec. 26 9

Adhesives
Adhesives limit strain gages (A) Nov. 7 96
High-temperature adhesives (SP) Nov. 14 82
Micro-porous tape permits air passage (D).....Dec. 19 6
Synthetic-rubber adhesive improves panel assemblies (D).....Oct. 3 8

Administration see **Engineering Administration**

Aeronautics
B-70 bomber program (W) July 18-12, Sept. 12 12
British designing new commercial aircraft (N).....Nov. 21 20
Canada may sell CL-44's to US (N) Oct. 17 17
Cargo plane—design competition (W) July 4 12
Discoverer catch-plane retrieval capability to double (W).....Sept. 19 12
Electra troubles—CAB digs deeper (N) Aug. 29 20
Engineers ask military for higher Mach aircraft (W).....Aug. 8 12
King-size forging for jetliner (N) Oct. 31 15
Lockheed Jetstar—junior-size jetliner (N).....July 4 19
Mach 2 jet with V/STOL (N) Dec. 19 16
Manned-aircraft contracts to be let (W).....Oct. 17 12
Manned bomber gets green light (W) Nov. 14 12
Noise a problem in aircraft design (N) Sept.5 17
Photocell banishes fog in planes (PD) Nov. 21 96
Turbofans replace turboprops (N) Oct. 31 16

Aluminum
Aluminum engines slated for Soviet tractors (N).....Nov. 28 18
Aluminum wool improves molded plastics (D).....Oct. 10 6
Bonding technique (D).....Oct. 10 6
Chevy casts aluminum by low-pressure method (N).....July 4 16
Die-casting alloys (DD)....Mid-Sept. B63
High-boron steel made workable by aluminum (D).....Aug. 22 9
High-strength aluminum alloys. Holt & Nock Jr.....Aug. 8 38
Hydrofoil craft bids for world speed title (N).....Dec. 26 18
Ignorance about metals may hold back supersonic transports (D)....Dec. 26 9
Indium-clad aluminum for semiconductor use (D).....Aug. 15 6
New way to bend thin-wall aluminum (N).....Oct. 24 16
Solid aluminum bearings. D. B. Wood July 4 42

Amplifiers
Amplified muscle gives control (PD) July 4 34
Electro-pneumatic control amplifier (N).....Nov. 21 15
Mechanical-power amplifier (SP) Dec. 19 55
New speed control for DC motors. Baruch Berman .....Aug. 15 41
Rectifiers hold key to magnetic-amplifier development (D).....July 4 6
6 applications for the capstan-type power amplifier. L. A. Zahrosky (DD) .....Mid-Sept. E213

Appearance Design see **Industrial Design**

Applied Mechanics
Angular errors in gears. T. C. Nielsen Aug. 15 56
Buckling and unseating of coil springs. T. M. Lowery.....July 18 62
Corrugation stiffness—quick calculations. E. A. Phillips (DF)...Sept. 12 75
Design equations for curved springs. Palm & Thomas (DD).....Mid-Sept. F286
Design nomographs the easier way. C. R. Glanville.....Oct. 10 66
Dimension analysis of helical compression springs. Nicholas Miller Oct. 24 52
Double-deck resistance strain gage separates stresses. Felix Zandman Oct. 10 55
Drive-acceleration time. V. B. Honsinger .....Dec. 26 54
Equations for 5 tapered cantilever beams. W. R. Petri.....July 25 52
Friction coefficients — practical approach. Ernest Rabinowicz..Sept. 26 51
Gas nomograph for converting to standard cubic feet. F. Caplan (DD) Mid-Sept. J497
Gyroscopic machine yields better fatigue data. Dr. R. S. Hanson Dec. 19 42
Helical gears get you out of tight spots. Sigmund Rappaport...Oct. 17 61
How to get more from your sliderule. C. J. Lynch.....Nov. 7 73
Journal-bearing design. Dr. G. S. A. Shawki .....Aug. 1 31
K factor for impact loading. S. Warr'n Kaye (DF) .....Aug. 22 53
Moment of inertia of cylinders (DD) Mid-Sept. F285
Nomograph measures contents of elliptical tank. Cdr. S. R. Heller Jr. (DF) .....Nov. 28 50
Pressure vessels—three nomographs aid in designing. F. Kaplan (DF) Nov. 14 78
Sampling theory—an exercise in probabilities. R. M. Koff.....Dec. 12 57
Simplified equations find moments in circular plates. R. I. Isakower Oct. 3 45
Steel tubing—its weight? its annular area? F. Kaplan (DF).....Dec. 26 59
Visual strain gage does work of three. Felix Zandman .....Oct. 24 42
When expandable bushings are the answer. Eric Nord.....Sept. 5 41

Assembly
Camera-made drawings—latest technique. G. O. F. Johnson.....Sept. 5 58
Demagnetize before assembly. J. N. Engelsted .....July 4 27
Designing products for automatic assembly. R. L. Esken (DD)..Mid-Sept. F288
Pylon box—fewer parts, less work—better dimensional control (N) Nov. 21 21
Semiconductor growing process eliminates manual assembly (N)..July 11 20

Automotive
Annual car-model changes going out? Felix Giordano (N).....Aug. 1 19
Auto drain plugs going down the drain? (D) .....Aug. 1 10
"Bluebird"—turbine-powered car to attempt speed record (N)....July 25 21
British telemetry system revolutionizes vehicle road tests (RA) Aug. 22 13
Cadillac, new model (N).....Nov. 14 21
Car seat design—engineers given math of designing (N).....Nov. 14 17
Car weight and cost go down with new steels (N) .....Nov. 14 21
Ceramic core converts auto exhaust (N) .....July 11 20
Chevy readies new engines for smaller compacts. G. E. Toles (N)...Dec. 12 20
Citroens, Simcas—engine improvements highlight '61 models. Arthur Erikson (N) .....Sept. 19 17
Compact truck, the Scout, bids for slice of market (N).....Dec. 12 17
Detroit offering bigger "compacts" this year (N) .....Aug. 22 17
Die-cast engine lightens this compact car (PD) .....Oct. 10 62
Fiat wagon puts engine under floor (N) Aug. 8 19
Ford's smaller car to be produced overseas? (N) .....Sept. 12 21
How do you "style" cars at GM? (PV) Aug. 15 24
Hydraulic floor jack lengthened (T) Oct. 31 24
Japan exporting car with unitized frame (N) .....July 25 20
Japanese auto firm expands R&D programs (N) .....Sept. 5 21
Japanese automakers jockey for small-car market (N).....Nov. 14 15
Mobile homes—new designs (T) July 25 24
'61 models (N).....Sept. 26-18, Oct. 3 16
Nylon fuel systems (D).....July 18 8
Oldsmobile goes compact too (PD) Sept. 26 54
Paris auto show features new diesel injection pump. Art Erikson (N) Nov. 7 20
Pontiac's Tempest—bigger compact joins the field (PD).....Sept. 12 64
Prototype trucks float even with a full load (N).....Aug. 8 17
Rail guides car for tunnel police (PD) Dec. 12 61
Truck cab with lines like TV receiver (T) .....Dec. 12 24
Volkswagen re-engineered (N) Aug. 22 19
Volkswagen starts trend to bus-type car (N) ... .Oct. 10 21

Copyright 1960 by McGraw-Hill Publishing Co., Inc., 330 West 42nd Street, New York 36, N. Y.

—B—

Batteries
Bacterial action to assist battery output (D) ....Nov. 14 8
Batteries trigger target pistol (PD) ....Nov. 7 67
Chemical-energy storage to replace batteries? (D) ....Oct. 24 8
Electrolytes may signal battery improvements (D) ....July 25 8
Mercury cells encapsulated (T) ....Oct. 31 25
Organic batteries being developed (N) ....Oct. 10 9

Bearings
Air bearings reduce cost of table control (N) ....Aug. 29 21
Antifriction bearings (A)....Nov. 21 156
Ball screws operate at 750 F without lubrication (D) ....Aug. 15 8
British studying bearing noise and vibration (N) ....Nov. 14 9
Checkered bearings under test in USSR (D) ....Dec. 5 8
Constant-clearance bearing minimizes position errors (D)....Dec. 19 6
Design curves for journal bearings. D. F. Hays (DD)....Mid-Sept. F272
Displaced bearings (A)....Dec. 19 72
Gas bearings tested for 1000 to 1400 F (N) ....Sept. 26 9
Grooves damp vibration of bearings (D) ....Dec. 12 6
High-speed bearings (A)....Nov. 14 95
High-temperature bearings (SP) ....Aug. 22 54
Journal-bearing design. Dr. G. S. A. Shawki ....Aug. 1 31
Lignum vitae...its properties and applications (DD) ....Mid-Sept. C115
Lubes for bearings stand higher temperatures (D) ....Oct. 17 6
Metal-bonded graphite—new bearing material. Felix Giordano (N)..Nov. 7 16
Oil-mist lubrication for air bearings. C. R. Adams....Aug. 29 54
Precision shafts for miniature bearings (SP) ....Sept. 5 66
Silicones enhance bearing life (N) ....Oct. 31 9
Solid aluminum bearings. D. B. Wood ....July 4 42
Specification questioned; new standards urged (D)....Nov. 28 9
Tetrafluoroethylene bearings and rings (A) ....Oct. 3 81
Today's ball bearings—report. N. P. Chironis ....Dec. 12 63
What's new in bearings and lubrication. N. P. Chironis....Nov. 28 46
Which bearing and why? A. O. DeHart (DD) ....Mid-Sept. F279
Zirconium bearings to operate without grease (D)....Sept. 26 8

Bellows
Bellow-operated "shutter" solves heat-disposal problem (N).....Oct. 24 9

Belt Drives and Conveyors
Baby pinch valve featured in conveyor system (D) ....Aug. 1 6
Belt drive for instruments features standard gearing (D).....Aug. 15 6
Belt friction and shaft load. O. R. Fendrich (DD) ....Mid-Sept. E208
Glass-filled nylon or styrene for timing-belt pulleys (SP).....Oct. 31 64
Hydraulic couplings affect gear and shaft selection. Joseph Seliber ....Aug. 22 46
Oriented nylon to double life of belts (D) ....Nov. 28 8
Speed-change mechanism provides wide operating range (D)..Aug. 29 6

Bonding
Bonded-foil members (D).....Nov. 28 9
Zirconium and aluminum bonding techniques (D) ....Oct. 10 6

Book Reviews
Analog computation. A. S. Jackson ....Oct. 10 88
Analog computation in engineering design. Rogers & Connolly.....Dec. 12 106
Applied optics and optical design, Parts I and II. A. E. Condrady ....Nov. 14 92
Basic graphical kinematics. H. B. Kepler ....Oct. 17 100
Basic human factors for engineers. P. A. Verdier....Dec. 19 66
Basic ultrasonics. Cyrus Glickstein ....July 4 63
Basics of gyroscopes. Carl Machover ....Oct. 10 88
Book computer ....Dec. 12 106
Cam and tool design. O. T. Lippman ....Oct. 17 100
Chipless machining. C. H. Wick ....Nov. 28 65
Classification of electron tubes. Haantjes & Carter....Oct. 3 76
Combinations of shear, compressive-thermal, and compressive-load stresses. Zender & Hall.....Aug. 15 88
Combined effec s of axial load, thermal stress, and creep in flat plates. Huang & Van Der Maas.....Sept. 19 117
Complex variables and applications. R. V. Churchill....Aug. 8 64
Composite materials and composition structures. Sixth Sagamore Ordnance Materials Research Conference ....Nov. 28 65
Control system analysis and synt esis. D'Azzo and Houpis.....July 18 101
Creative engineering design. H. R. Buhl ....Dec. 26 66
Developing a product strategy. AMA ....Dec. 19 66
Digital-computer fundamentals. T. C. Bartee ....Dec. 5 109
Digital computer principles. W. S. Irwin ....Aug. 8 64
Direct conversion of heat to electricity. Kaye & Welsh....July 11 110
The dynamic behavior of thermoelectric devices. P. E. Gray.....Aug. 1 65
Effects of sound on heat transfer rates. Sprott, Holman, Durane ....Dec. 19 66
The electric arc. J. M. Somerville ....Sept. 5 84
Electrical power sources Vol. II—Batteries. E. J. Hellund.....July 18 101
Electrical systems design. J. McPartland ....Sept. 12 88
Electronics and nucleonics dictionary. Cooke & Markus....Dec. 19 66
Elementary differential equations. L. M. Kells ....Oct. 3 76
Elementary theoretical fluid mechanics. Karl Brenkert Jr.....Oct. 17 100
Endurance tests of rolling-contact bearings. Walp, Remorenko & Porter ....Nov. 7 95
Engineering economy. W. T. Morris ....Oct. 17 100
Engineering mathematics. Blakey & Hutton ....Sept. 26 79
Engineering thermodynamics. Hall & Ibele ....Nov. 7 95
Engineering thermodynamics. Jones & Hawkins ....July 4 63
The engineer's vest pocket book. Thomas, Spalding & Javlovich ....Oct. 24 78
Evaluation of electrical-discharge machining ....July 11 110
Expendable modules as bases for disposal-at-failure maintenance. Stone, Meissner, Schwarz ....Oct. 3 76
Fixed and variable capacitors. Dummer and Nordenberg.....July 25 82
From zero to infinity. Constance Reid ....Sept. 19 117
Fundamental formulas of physics. Ed. D. H. Menzel....Oct. 24 78
Fundamentals of engineering graphics. M. G. Mochel....Oct. 24 78
Fundamentals of transistor physics. Irving Gottlieb ....Aug. 15 88
The gentle art of mathematics. Dan Pedoe ....Oct. 24 78
Guide to US indexing & abstracting services...in science and technology. National Federation of Science Abstracting and Indexing Services ....Sept. 26 79
How to chart data. Phil Carroll ....Aug. 22 62
I-beams with web cutouts of various shapes. W. J. Worley.....Aug. 22 62
Information processing. Proceedings of First International Conference on Information Processing. Aug. 15 88
Infrared radiation. H. L. Hackforth ....Aug. 8 64
Introduction to linear differential equations. E. G. C. Poole...Sept. 26 79
Introduction to modern network synthesis. M. E. Van Valkenburg ....Aug. 1 65
Introduction to space. L. A. DuBridge ....Sept. 12 88
An introduction to the mechanics of solids. Crandall & Dahl.....Sept. 19 117
Kinematics and dynamics of machinery. R. L. Maxwell.....Oct. 31 75
Magnesium and its alloys. C. S. Roberts ....July 4 63
Magnetic amplifiers: principles and applications. Paul Mali.....Nov. 14 92
Mathematical methods for digital computers. Ed. Ralston and Wilf.Aug. 8 64
Mechanism. Faires & Keown...Aug. 15 88
The mechanisms of fatigue. Grossmann & Rollins....Sept. 5 84
Metalizing of plastics. Harold Narcus ....July 18 101
Method for performing human engineer analysis of weapon systems. Shapero & Bates Jr.....Nov. 21 152
Methods for determining flaw size by ultrasonics. Posakony & Loetz ....Nov. 21 152
The new product. D. W. Karger ....Aug. 1 65
The noises of two spur-gear transmissions. M. W. Rosen.....Oct. 31 75
Operator changeover effects in a complex task. Kidd & Kinkade..Nov. 21 152
Optics and optical instruments. B. K. Johnson ....Oct. 3 81
Organizational systems and engineering groups. L. B. Barnes.....Nov. 28 65
Patterns of industrial growth, 1938-1958 ....Dec. 19 66
Physical and engineering properties of cast iron. H. T. Angus.....Oct. 3 76
Polyester resins. J. R. Lawrence ....July 25 82
Polystyrene. Teach & Kiessling ....Nov. 7 95
Power to produce. Ed. Alfred Stefferud ....Dec. 12 106
Principles of guided missile design. J. J. Jerger....July 4 63
Probability: an introduction. Samuel Goldberg ....Aug. 8 64
Properties of alloys at elevated temperatures. Pearl, Kappelt and King ....Dec. 26 66
Properties of elemental and compound semiconductors. Ed. H. C. Gatos ....Sept. 19 117
Radiation pyrometry and radiant-heat transfer. T. R. Harrison....July 18 101
Rolling-contact fatigue life. T. L. Carter ....Dec. 12 109
Saturday science. Ed. Andrew Bluemle ....Oct. 17 100
Self-saturating magnetic amplifiers. Lynn, Paula, Ringelman, Timmel ....Sept. 5 84
Smithsonian treasury of science. W. P. True ....Oct. 31 75
Standard costs for manufacturing. S. B. Henrici....July 25 82
Statistical evaluation of fatigue and creep-rupture. Waloddi Weibull ....Aug. 29 106
Statistical processes and reliability engineering. D. N. Chorafas....Nov. 21 152
Statistics Manual. Crow, Davis & Maxfield ....Sept. 12 88
The story of engineering. Dr. J. K. Finch ....July 25 82
Stress concentrations and cyclic loading. American Society for Testing Materials ....July 11 110
Structural mechanics. Goodier & Hoff ....Aug. 1 65
Synthesis of new high-temperature materials. Engelke, Holden, Farley ....Dec. 5 109
Tactual coding of cylindrical knobs. J. V. Bradley....Dec. 26 66
Technical illustration. T. A. Thomas ....Oct. 24 78
Thermoelectricity. P. H. Egli..Nov. 14 92
Theory and application of mechanical engineering measurements. M. B. Moore ....Aug. 22 62
The theory of space, time and gravitation. V. Fock....Nov. 7 95
Theory of thermal stresses. Boley & Weiner ....Sept. 19 117
Thermal engineering. Solberg, Cromer & Spalding ....Oct. 3 76
Transformers and generators for power systems. R. Langlois-Berthelot ....Oct. 3 76
The two cultures and the scientific revolution. C. P. Snow.....Oct. 10 88
2024 aluminum in low-cycle fatigue. D'Amato & De Boer.....Sept. 12 88
Ultrasonics. Benson Carlin.....Oct. 31 75
Units, dimensions, and dimensionless numbers. D. C. Ipsen.....July 25 82
Zetetics—research as a science. J. T. Tykociner ....Aug. 29 106

Brakes
Belleville springs for constant braking power. T. M. Trainer.....Sept. 12 62
Brake-saver being imported from France (N) ....Nov. 14 20
Continuous-slip clutches and brakes (SP) ....July 11 85
Disk brakes—wider use foreseen (D) ....Oct. 3 8
Dry lubricant solves 3 brake problems (N) ....Oct. 3 17
Electromagnetic retarder—eddy currents do the braking (PD)....Dec. 5 80
How to select electromagnetic clutches and brakes for automatic control. J. S. Proctor....Dec. 19 29
Monorail rocket-propelled research sled with unique breaking fins (N) ....July 4 15
Train-braking system, automatic (N) ....Nov. 21 16

Brazing
Avcoramic brazing process cuts cost of stainless sandwich (N)....Sept. 5 15
British report on titanium brazes (N) ....Sept. 26 9
Designing brazed joints for 1000 F and above. J. C. Reeves....Aug. 1 40
Hi-temp brazing alloys show improved performance (D) ....Nov. 21 6
Induction soldering and brazing—9 typical coil designs (DD)..Mid-Sept. D168
Welding or brazing dissimilar metals. Jay Bland ....Dec. 19 46

—C—

Cams
Mechanical cams in control systems (A) ....Aug. 22 65
Special-shape cams reduce speed smoothly (PD) ....Dec. 26 47
When plastic cams are better. M. A. Sanders ....Aug. 8 44

Capacitors
New capacitors for —65 F to 400 F (D) ....Aug. 1 6

Casting
Chevy casts aluminum by low-pressure method (N) ....July 4 16
Copper alloys for high-conductivity castings. W. K. Roots.....Nov. 21 85

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Die-casting alloys (DD).....Mid-Sept. B63
Lightweight castings. H. R. Bullock
July 4 39
Lost-wax casting from ceramic shelling (N).....July 11 20
Process color anodizes aluminum die-castings (N).....July 4 19
Radiographs to show flaws in castings (N).....Dec. 5 20
Silicone rubber molds for short-run castings. H. A. Smith.....Dec. 26 50

Ceramics
Beryllia—designing with sintered beryllia. A. J. Strott.....Oct. 17 65
Ceramic core converts auto exhaust (N).....July 11 20
Ceramic-metal combination transforms heat to power (N)....Dec. 19 18
Ceramic relays (D).....July 11 6
Ceramic sparks ignition when squeezed (PD).....Nov. 21 93
Graphite combinations are stronger, more heat-resistant (N).....July 18 9
Lost-wax casting from ceramic shelling (N).....July 11 20
Magnet features high residual induction (D).....Nov. 28 9
Material forms its own protective coating (N).....July 11 21
Nucerite—ceramic-coated metal resists high-temperature corrosion (N)
Sept. 26 16
Spray-on ceramic resistors (D)
Sept. 12 8
Structure seen key to better ceramics (N).....Sept. 12 9

Clutches
Centrifugally operated clutch (SP)
July 4 52
Combination flexible coupling and slip clutch (D).....Oct. 3 8
Continuous-slip clutches and brakes (SP).....July 11 85
5 clutches for servomechanisms. K. W. Kohlmeyer (DD).....Mid-Sept. H396
Friction in clutch materials (A)
Aug. 15 90
How to select electromagnetic clutches and brakes for automatic control. J. S. Proctor.....Dec. 19 29
Soviet engineer reports on servo clutch design (N).....Dec. 12 9
Stationary magnet clutch (SP)
Dec. 12 87

Color
Chemicals that change color may collect data (D).....Sept. 5 8
Process color anodizes aluminum die-castings (N).....July 4 19

Computers
ARDC Technical Effort Program pinpoints who's working where and why (N).....Aug. 8 17
Digital readouts—report. J. S. Proctor
Oct. 31 16
Engineers to use computer in design (W).....Dec. 19 12
Fully transistorized desk computer (N)
Nov. 21 16
Japan and Britain develop new computers (RA).....July 25 12
Japan annulling foreign computer patents (RA).....Aug. 22 13
More reliable computer communication (N).....July 4 18
New methods for data display (D)
Nov. 21 6
Teaching machines see under **Instrumentation**
Use of computers by small companies (A).....Dec. 5 110

Control Systems
Air-pressure regulator (SP)...Aug. 22 54
Amplified muscle gives control (PD)
July 4 34
Better accelerometers now available. R. J. Cohen.....Sept. 5 54
Drive for X-Y axis control (SP)
Oct. 10 80
Electronic control system for planer (N).....Nov. 21 16
Load control (SP).....Nov. 28 52
Low-cost diffraction grating checks lead screws. Nick Landon (N)
Aug. 15 20
Machine-tool shows—numerical controls; electrical controls....Sept. 26 36
"Mars Century"—direct translation of contour operations by numerical control (N).....Aug. 15 16
Midget flow-controller uses fluid's power (D).....Sept. 26 6
Miniature temperature control (SP)
Aug. 29 95
Mobile arms move out of the lab—go under the sea, out into space (N)
Dora Merris.....Dec. 26 15
Dec. 26 15
Numerical controls change tools on machine (N).....Aug. 1 18
Overspeed control for machines uses frangible element (D).....Oct. 24 6
Photoelectric temperature control (SP).....Oct. 10 80
Potentiometer-operated temperature controller (SP).....Oct. 17 84
Sealed temperature control (SP)
July 4 52
Straddle-mounted torque control (SP)
Oct. 3 60
Temperature controllers (A)..Dec. 12 111
Ultrasonic liquid-level control (SP)
Nov. 14 82
Vernier device regulates pneumatic-system pressure (SP).....Nov. 7 80

Copper
Copper alloys for high-conductivity castings. W. K. Roots.....Nov. 21 85
Copper corrosion (DD).....Mid-Sept. B60
Die-casting alloys (DD)....Mid-Sept. B63
Electrolytic technique doubles strength of copper (D).....Oct. 31 8

Corrosion
Chrome plate finishes. Felix Giordano
July 4 36
Copper corrosion (DD).....Mid-Sept. B60
For service under fire—control corrosion. H. L. Kee.....Nov. 28 44
How "corrosion-resistant" metals may corrode (N).....Sept. 12 9
How to avoid metal-hose failure. L. B. Donkle.....July 25 43
Iron rust blamed on subversive protons (N).....Aug. 8 16
Sealing too well may cause corrosion (D).....Sept. 12 6
Stress corrosion (A).....Oct. 31 76
Tantalum's resistance to corrosion likened to glass (N).....Oct. 24 9
Ti-Pd alloy—low corrosion rate confirmed (N).....Aug. 15 21
Zirconium—finding wider application because it resists corrosion (N)
July 4 19

Couplings
Combination flexible coupling and slip clutch (D).....Oct. 3 8
High-pressure coupling (SP)...Oct. 10 80
Hydraulic couplings affect gear and shaft selection. Joseph Seliber
Aug. 29 46
Magnetic coupling—linear motion in sealed systems. J. P. Thorel...Nov. 21 100
Miniature, flexible four-way coupling (SP).....Aug. 1 55
Quick-connect couplings cut costs. George Hagger.....Oct. 3 37
Self-lubricating flexible coupling (SP)
Dec. 12 87
6 flexible shaft-couplings. R. Waring-Brown (DD).....Mid-Sept. E202
7 more ways to prevent overloading. P. Noy (DF).....Aug. 15 63
Spacer couplings (SP).....Aug. 29 95

Cryogenics
Cryogenic memory plane automatically produced (N).....Dec. 26 19
Cryogenic units shrink toward practicality (D).....Sept. 19 8
Path to electrothermal cooling gets warmer. Felix Giordano (N)..Oct. 24 15
Supercold brings "no loss" motor (D)
Dec. 5 6
Super-cold refrigerator to aid cryogenic studies (N).....Sept. 5 16
Superconded titanium shows superstrength (N).....Oct. 10 9
Tabulated: test-chamber refrigerants. D. J. Missimer (DD).....Mid-Sept. A34

Cylinders
Integral air-hydraulic cylinder (SP)
Aug. 15 66
Moment of inertia of cylinders (DD)
Mid-Sept. F285
Rotating cylinders switch high voltages (D).....Aug. 29 6
16 ways to mount hydraulic cylinders (DD).....Mid-Sept. J494
Ten ways to prevent piston rod rotation. Dan Rowan.....Aug. 1 48

—D—

Design
At the risk of repetition...(Ed)
Nov. 21 83
Beryllia—designing with sintered beryllia. A. J. Strott.....Oct. 17 65
Bonded coatings lubricate metal parts. Alfred DiSapio.....Sept. 5 48
Brazed joints for 1000 F and above. J. C. Reeves.....Aug. 1 40
Britain's Channel-crossing plans—tunnel or bridge? Nick Landon (N)
Sept. 12 17
Can-printer has plug-in colors (PD)
July 18 68
Cooling of airborne electronics package (PD).....July 4 33
Corrosion control at high temperatures. H. L. Kee.....Nov. 28 44
Design abstracts—see specific headings and see sections of Design Digest issue (A).....Mid-Sept.
Designing products for automatic assembly. R. L. Esken (DD)
Mid-Sept. F288
Dimensional stability in precise parts. L. McD Schetky.....Sept. 12 67
Effect of cutouts on machine-tool pedestals. K. Loewenfeld (DF)
Oct. 31 60
Electron beam welds in vacuum. T. H. Crane.....July 18 70
Gears—which right-angle gear system?—report. Bryant & Dudley
Nov. 7 55
Government and the independent inventor. J. C. Green.....Aug. 15 55
Guide to specifying metal-powder parts. Talmage & Kee.....July 25 56
High-force thermostatic actuators. Freismuth & Gould.....July 11 74
High-speed photography solves design problems. F. E. Hall.....Aug. 29 29
High-temperature electrical equipment. J. A. Clark & others.....Sept. 26 56
How cutouts and braces affect machine-tool tables. K. Loewenfeld (DF).....Dec. 19 50
How do you "style" cars at GM? (PV)
Aug. 15 24
How has design-copying by competitors affected the sales of your products? (PV).....Sept. 19 24
How to avoid metal-hose failure. L. B. Donkle.....July 25 43
How to find trapezoidal-spring deflection. Joachim Palm (DF)...Dec. 12 82
Hydraulic-actuator study (N)..Nov. 7 9
Journal-bearing design. Dr. G. S. A. Shawki.....Aug. 1 31
Karts—engineered karts take over (PD).....Dec. 19 38
Lift—gas-powered lift hoists itself (PD).....Aug. 29 60
Lightweight castings. H. R. Bullock
July 4 39
Linear motion in sealed systems. J. P. Thorel.....Nov. 21 100
Machine-tool shows roundup—Machine Tool Exposition, Production Engineering Show and Coliseum Machine Show.....Sept. 26 36
Manual of failures (Ed).....July 18 55
Master Design Awards—announcement (N).....Dec. 12 21
Medicine consults the design engineer—report. D. K. Merris.....Sept. 19 81
Noble gases solve design problems (D)
July 4 8
One spring returns the hand lever. L. Kasper (DF) Seven designs..Nov. 21 109
Six more designs.....Dec. 5 89
Poland—Poznan Trade Fair (N)
Aug. 15 15
Pressure vessels—three nomographs aid in designing. F. Kaplan (DF)
Nov. 14 78
Props for operators. L. W. Brulin
Aug. 29 46
Radiant cooling or shielding. Rall & Yoshimoto.....Nov. 14 55
Redundancy to play bigger role in system design (D).....July 25 6
Seal—new design means less leakage with shaft seals (N).....Dec. 19 15
Soviet engineer reports on servo clutch design (N).....Dec. 12 9
Soviets spur design of hydrofoil riverboat (N).....Aug. 29 21
Stainless honeycomb sandwich panels. D. T. Potter.....Dec. 5 67
Systems engineering. R. E. Merwin
Nov. 14 62
Ten commandments for design reliability. B. B. Richardson (DD)
Mid-Sept. A30
Ten ways to prevent piston rod rotation. Dan Rowan.....Aug. 1 48
Torsion bars—shortcut to designing. D. A. Derse (DF).....Aug. 8 51
Another shortcut.....Aug. 22 51
Value engineering—do your own. R. A. Murray.....July 11 61
Welding or brazing dissimilar metals. Jay Bland.....Dec. 19 46
What's happening to design education? E. J. Tangerman.....Nov. 21 97

Drafting
Aperture cards for space-age drawings (N).....Aug. 1 15
Camera-made drawings—latest technique. G. O. F. Johnson.....Sept. 5 58
Copying methods for the engineering office (DD).....Mid-Sept. A28
Design nomographs the easier way. C. R. Glanville.....Oct. 10 66
Draftsmen—engineer "dignity" held cause of production woes (N)
Sept. 26 19
New drawing system takes to the boards.....Nov. 21 104
Pentagon seeks streamlining of engineering-data retrieval (N)...Nov. 7 21

Drawing and Forming
Australian research promise better cold-drawn steel (N).....July 4 10
Electroforming design hints. B. C. Jones (DD).....Mid-Sept. D174
Improved forming technique promises better extrusions (D).....Sept. 5 8
9 heat-forming techniques for plastic sheet. R. E. Kostur (DD).Mid-Sept. D164
Plastic sheet forms integral shapes (N).....Oct. 10 16
Polaris domes by explosive-forming process (N).....Aug. 8 18
Prestretch makes panels stiffer (PD)
Nov. 28 42
Urethane foam forming process (D)
Oct. 17 6
Wire-former tilts to ease delivery (PD).....Aug. 15 48

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials. (N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad. (SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Engines and Engine Control

Aircraft jet engine to pump natural gas (N) ..... Dec. 5 2A
Aluminum engines slated for Soviet tractors (N) ..... Nov. 28 18
Amphibious landing vehicle conversion to gas turbine power (N)..Aug. 15 17
"Bluebird"—turbine-powered car to attempt speed record (N)...July 25 21
Brazed engine near debut (N).Nov. 14 21
Brazed engine-raised performance (PD) ..... July 4 35
Ceramic sparks ignition when squeezed (P) ..... Nov. 21 93
Chevy readies new engines for smaller compacts. G. E. Toles (N)..Dec. 12 20
Citroens, Simcas—engine improvements highlight '61 models. Arthur Erikson (N) ..... Sept. 19 17
Cranked engine starts smoothly (PD) ..... July 11 73
Flat wagon puts engine under floor (N) ..... Aug. 8 19
Flexible engine-suspensions (DD)..... Mid-Sept. H388
Ion engine has 19 'cylinders' (N) ..... Nov. 14 20
Piezoelectric ignition to spark small engines (N) ..... Oct. 24 17
Polaris engines built with titanium castings (W) ..... Aug. 29 12
Pontiac's Tempest—bigger compact joins the field (PD)..... Sept. 12 64
Power source for space: mercury turbine + nuclear reactor..... Sept. 5 57
Rotary engine appears again, via Japan (N) ..... Nov. 21 17
Sheetmetal buckets for turbine wheel (N) ..... Oct. 24 23
Snap-on engine fits assortment of implements (PD) ..... Nov. 7 68
Transmissionless engine (D)..July 11 6
Turbofans replace turboprops (N) ..... Oct. 31 16
Twin carburetor saves fuel, minimizes carbon monoxide. Art Erikson (N) ..... Aug. 22 18

Etching

Photosensitive glass + chemical machining. Nicholas Lazar....July 11 66

Extruding

Extruded panel supplies own ducts (N) ..... Dec. 12 20
Titanium alloy fails extrusion tests (N) ..... Nov. 7 20

— F —

Fans

Low-speed fan cools electronic gear quietly (N) ..... Oct. 3 21
Turbofans replace turboprops (N) ..... Oct. 31 16

Fastening

Ball screws operate at 750 F without lubrication (D) ..... Aug. 15 8
Blind riveting—how to design for blind riveting. C. E. Heilig Jr..Mid-Sept. G338
Bolts stretched for tight fit (PD) ..... Sept. 19 75
Fastener torque: how much? J. A. Stevenson (DD) ..... Mid-Sept. G346
55% thread depth will make beryllium bolts practical. N. P. Chironis ..... Nov. 14 75
Jard adapter rings (SP)..... Aug. 15 66
How rings aid component design. Howard Roberts (DD)...Mid-Sept. G342
Hydraulic nut has dual holding system (D) ..... Sept. 19 8
Lanced metal eliminates separate fasteners. Federico Strasser (DF) Pt. 1..Sept. 5-63; Pt. 2..Sept. 19 87
Miniature pawl fastener (SP)..Sept. 12 78
New shape for retaining rings (D) ..... Dec. 26 8
Right-angle tube clamp (SP)..Oct. 31 64
Self-locking capscrew (SP)..Sept. 19 90
Sheetmetal fastener (SP)..... Aug. 1 55
Simplified plug has dual locking action (D) ..... Dec. 12 8
Vibration resistance of thread-locking devices. Bronson & Faroni..Oct. 10 58
What torque to tension plated bolts? Vernon Stimpel ..... Dec. 5 73
When expandable bushings are the answer. Eric Nord..... Sept. 5 41

Fibers

Glass fibers see under **Glass**
High-temperatur potassium titanate fiber readied for new jobs (D) ..... Sept. 5 6
Mineral—fiber-reinforced Teflon (SP) ..... July 25 67
New shapes for new fibers (N).Sept. 26 9
Nylon fibers, heat-resistant, for tires and rubber goods (D)..... Aug. 15 8
Price cuts for industrial fibers (D) ..... Sept. 19 8
Testing fiber strength a la 1920 (N) ..... Aug. 1 11
Winding machine forms pressure vessel of plastic fibers (N).....Sept. 12 20

Filters

Basic information on air filtration (DD) ..... Mid-Sept. A35
Disposable interception filter (SP) ..... Dec. 26 60
Evaluating the fluid-filtering media—report. C. H. Hacker.....Nov. 28 29
Filter has magnet positioned downstream (SP) ..... Dec. 26 60
Fine-particle filter features dual action (D) ..... Sept. 26 8

Finishes, Chemical

Anodic coats to aid titanium (D) ..... Dec. 12 8
Chemicals that affect metal strength (N) ..... July 18 9
Chrome plate finishes. Felix Giordano ..... July 4 36
Conversion coatings (A)..... Nov. 14 95
De-ionized water cures ills of coating method. Ray Bloomberg (N).Oct. 31 17
Electrophoresis produces more refractory coatings (D)..... Oct. 10 8
Hard, hi-temp iridium coatings (D) ..... Nov. 14 6
Molybdate coatings promise whiteness plus safety (D)..... Oct. 31 6
Organic coatings for outer space (D) ..... Dec. 19 8
Palladium coating improves electrical components (D) ..... Aug. 1 10
Porcelain enamel—quick facts (DD) ..... Mid-Sept. C112
Process color-coats metals (SP) ..... Nov. 14 82
Silicone and silicone-ceramic coatings for up to 1400 F (SP)..... Aug. 1 55
Tests confirm strength loss in coated metals (N) ..... Oct. 3 9
Thickness testers for nonmagnetic and paramagnetic coatings (N)..Oct. 17 9
Vapor-deposition technique claimed by Air Force (D)..... Nov. 7 8

Finishes, Paint

Controlled-radiation paints (D).Oct. 24 6
Nonflammable enamel paints (SP) ..... July 11 85
Sodium cellulose acetate sulfate, new compound to improve paints and papers (D) ..... Sept. 5 6

Finishes, Plastic

Bonded coatings lubricate metal parts. Alfred DiSapio ..... Sept. 5 48
Encapsulating systems—survey. E. A. Schatz ..... Sept. 19 68
Epoxy guards printed circuits (N) ..... Aug. 1 19
Fiberglass flake coating (SP)..Aug. 29 95
High-temperature coatings under test (D) ..... Aug. 8 6
100%-solids epoxy coating operates to 311 F (SP)..... Oct. 17 84
Sprayed-on crucibles (N)..... Aug. 29 9

Finishing

For a stronger metal surface. A. J. Schwarzkoff ..... Nov. 14 70
Less leakage with new shaft seal (N) ..... Dec. 19 15
Metal finishing techniques. Adrian Walmsley (DD) ..... Mid-Sept. C108
Oxyacetylene hard-surfacing (D) ..... Dec. 19 8
Plasma jet techniques — sprayed-on crucibles (N) ..... Aug. 29 9
Plasma spray gun permits wide temperature range (N)..... Oct. 3 21
Tests show variations in surface cleanability (N) ..... Dec. 5 9

Fluid Mechanics

Cast iron approved for hydraulic equipment (D) ..... Oct. 24 6
Evaluating the fluid-filtering media—report. C. H. Hacker..... Nov. 28 29
Fluid mechanics (A)..... Nov. 28 70
Fluid-power glossary (A)..... Aug. 15 90
Fluid tightness (A)..... July 4 63
Magnetic flow measurement (A) ..... July 25 85
Manifolds replace pipe (N)....Nov. 21 20
Pneumatics for high-temp ssytems ..... Oct. 17 68
Reducing leakage from hydraulic systems. R. Q. Sharpe (DD)..Mid-Sept. J498
Reversible fluid drive features hinged-blade control (D)..... Nov. 28 8
Ten ways to prevent piston rod rotation. Dan Rowan..... Aug. 1 48
Two-way freeze valve handles liquid metals and gases (D)..... Oct. 24 8

Fluids

Evaluating the fluid-filtering media—report. C. H. Hacker..... Nov. 28 29
Fluoride-based fluids readied for 600 F and above (D)..... Aug. 16 6
How to classify fluids by viscosity. R. A. Minard (DD)..... Mid-Sept. J495
New criteria for measuring fluid contamination. Frank Yeaple..Dec. 19 35
These fluids for 500 F and above. A. R. Gardner ..... Oct. 24 45

Forging

Design for forgings (A)..... July 11 110
King-size forging for jetliner (N) ..... Oct. 31 15
Tungsten forging—do it fast...Oct. 3 40

Friction and Wear

Abrasive contamination of precision mechanical devices. Dr. L. McD. Schetky ..... Aug. 15 51
Belleville springs for constant braking power. T. M. Trainer..... Sept. 12 61
Belt friction and shaft load. O. R. Fendrich (DD) ..... Mid-Sept. E208
Bonded coatings lubricate metal parts. Alfred DiSapio ..... Sept. 5 48
Choosing a metal to resist wear. J. K. Elbaum ..... Aug. 29 43
Friction between sliding surfaces (A) ..... Dec. 19 72
Friction in clutch materials (A) Aug.15 90
How rolling-contact fatigue life relates to mechanical properties (A).Aug. 1 67
Journal-bearing design. Dr. G. S. A. Shawki ..... Aug. 1 31
Modified drill press determines friction coefficients (N) ..... Sept. 19 21
Practical approach to friction coefficients. Ernest Rabinowicz..Sept. 26 51
Rolling friction of balls on plates (A) ..... Oct. 10 91
Tires tested at NBS for wear (N) Sept.5 16
Wear of metals at 600 C (A)..Dec. 19 72
What torque to tension plated bolts? Vernon Stimpel ..... Dec. 5 73

Fuel

Fuel-carrying tires (N)..... Aug. 29 20
Fuel-elements problems and promises (N) ..... Aug. 8 11
Fuels proposed to combine advantages of solids, liquids (W)..... Dec. 26 13
Liquid hydrogen to fuel more NASA space rockets (W)..... Aug. 8 12
Nylon fuel systems (D)..... July 18 8

Fuses

Duel-element cartridge fuses (SP) ..... Nov. 14 82
Overspeed control for machine uses frangible element (D)..... Oct. 24 6
Thermal "motor" serves as fuzing device (D) ..... Sept. 12 8

— G —

Gaskets

Gasketing, packing materials (SP) ..... Aug. 29 95
How to select the right gasket material. J. J. Whalen..... Oct. 3 52

Gears

Angular errors in gears. T. C. Nielsen ..... Aug. 15 56
Contact time between spur-gear teeth (A) ..... Aug. 29 109
Disengaging drive protects drillhead (PD) ..... Sept. 5 45
Drive with coarse-fine gearing (D) ..... July 4 8
Flexible gears for high ratios (PD) ..... Dec. 12 62
Helical gears get you out of tight spots. Sigmund Rappaport...Oct. 17 61
Hydraulic couplings affect gear and shaft selection. Joseph Seliber ..... Aug. 22 46
Low-speed fan cools electronic gear quietly (N) ..... Oct. 3 21
Lubes for gears stand higher temperatures (D) ..... Oct. 17 6
Noise reduction (A)..... Aug. 15 91
Novikov gearing answer to lighter, smaller drives (N)..... July 25 17
Rotatable arm tensions drive (SP) ..... Aug. 8 54
Scoring index for gears to be developed by AGMA (N)..... Nov. 14 16
Shot peening in gear design. J. C. Straub (DD) ..... Mid-Sept. E210
Speed-reducers and gearheads (SP) ..... Aug. 1 55
Which right-angle gear system?—report. Bryant & Dudley..... Nov. 7 55

Generators

Monoscope character-generator (N) ..... Aug. 15 21
Portable electric generator (T) ..... Nov. 14-25, Dec. 26 20
Thrives on other's waste energy (N) ..... Dec. 26 12

Glass

Canadian specifications for fiberglass on the way (N)..... Sept. 19 17
Fiberglass favored for Polaris motor casing (W) ..... Dec. 19 12
Glass fibers improve performance of cathode-ray tube (D)..... Dec. 26 9
Glass for vacuum systems (N) ..... July 11 9
Glass reinforces metal for reactor use (D) ..... Dec. 19 6
Machining glass-plastics (A)..July 11 110
Photosensitive glass + chemical machining. Nicholas Lazar.....July 11 66
Soviets head for stronger glass (N) ..... Nov. 28 12
Stronger glass fiber products for Space Age (D) ..... Nov. 28 8
Tests confirm thermal data on glass (N) ..... Sept. 26 9

Government

Century 21 exposition — dominant building will be U.S. science pavilion (N) ..... Oct. 31 21

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technica. News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Defense contracts include value engineering cost-cutting incentives (W) Oct. 10 12
Defense Dept shopping overseas for its R&D (N) ..... July 4 15
Defense R&D contracting rate hiked (W) ..... Sept. 12 12
Design standards on nuclear weapons divulged (W) ..... July 4 12
Engineer-recruitment costs too high, Congress feels (W) ..... Oct. 24 12
Engineers reap pay raises (W) ..July 18 12
Engineers set to vacate posts with new Administration (W) ...July 18 12
Facsimile mail program to be tested (W) ..... Aug. 15 12
Incoming Administration expected to jounce space program (W) ..Nov. 28 13
Independent inventors and the government. J. C. Green ..... Aug. 15 55
NASA bickers with industry and military over satellite-program plans (W) ..... Dec. 19 12
Navy rebuffs proposed Defense reorganization (W) ..... Dec. 26 13
Nixon proposes scattered federal R&D centers (W) ..... Oct. 3 12
Patent Office says the lone inventor still counts (N) ..... July 18 15
Pentagon easing up on contractor rights to technical data (W) ..Dec. 5 13
Pentagon seeks streamlining of engineering-data retrieval (N) ...Nov. 7 21
Salt-water conversion program gets speedup. David Secrest (N) ...Oct. 3 15
Senator wants blinders off federal R&D (N) ..... Oct. 24 23
Space-research dollars spread wider (N) ..... Sept. 19 16
U.S. timetable for race into space (N) Sept. 12 15
What changes do the presidential candidates want in science and engineering? Seth Payne (PV) ..Oct. 24 24

Graphical Techniques

Allowable stresses in flash-welded joints. H. L. Kee ..... Oct. 31 39
Alloy's hi-temp creep-rupture behavior Oct. 10 75
Beams: how much torsion for off-center loads? S. W. Kaye (DF) Oct. 17 81
Buckling and unseating of coil springs. T. M. Lowery ..... July 18 62
Corrugation stiffness—quick calculations. E. A. Phillips (DF) ...Sept. 12 75
Cracks — nomograph shows when cracks become dangerous. Malcolm Newman ..... Aug. 29 56
Design curves for journal bearings. D. F. Hays (DD) ..... Mid-Sept. F272
Design nomographs the easier way. C. R. Glanville ..... Oct. 10 66
Dimension analysis of helical compression springs. Nicholas Miller Oct. 24 52
Drive-acceleration time. V. B. Honsinger ..... Dec. 26 44
55% thread depth will make beryllium bolts practical. N. P. Chironis Nov. 14 75
Four-bar linkage proportions. P. W. Jensen ..... Sept. 19 76
Gears—which right-angle gear system? —report. Bryant & Dudley Nov. 7 55
High-temperature electrical equipment. J. A. Clark & others ..Sept. 26 56
High-force thermostatic actuators. Freismuth & Gould ..... July 11 74
Hydraulic couplings affect gear and shaft selection. Joseph Seliber Aug. 22 46
Journal-bearing design. Dr. G. S. A. Shawki ..... Aug. 1 31
K factor for impact loading. S. Warren Kay (DF) ..... Aug. 22 53
Photosensitive glass + chemical machining. Nicholas Lazar ..... July 11 66
Sampling theory—an exercise in probabilities. R. M. Koff ..... Dec. 12 57
Section modulus charts find beam dimensions faster. Louis De Monge (DF) ..... Nov. 7 77
Simple math of the response equation. R. M. Koff ..... Aug. 8 31
Stainless honeycomb sandwich panels. D. Y. Potter ..... Dec. 5 67
Torsion-bar design. D. A. Derse (DF) Two-in-one nomograph ..... Aug. 8 51
Another shortcut ..... Aug. 22 51

—H—

Hardening

Flame hardening. B. G. Ward Jr. (DD) ..... Mid-Sept. D171

Heat Transfer

Czechs give heat-exchanger tubes a new shape (D) ..... Oct. 17 8
Fused salts as heat-transfer media (D) ..... Oct. 10 8
Heat-transfer literature (A) ..Sept. 19 119
Multi-element thermal transducers developed for higher-order transfer functions (D) ..... Nov. 7 6
Plastics to replace sheetmetal in heat exchangers (D) ..... Aug. 15 6
Radiant cooling or shielding. Rall & Yoshimoto ..... Nov. 14 55
Roughened surfaces improve heat transfer (N) ..... July 25 9

Human Engineering

British cool to ergonomics (N) Oct. 31 20
Data on human engineering. John Kolb Sept. 12 71
Engineers given math of designing car seats (N) ..... Nov. 14 17
Human power capacities and limitations. (A) ..... Sept. 5 84
Props for operators. L. W. Brulin Aug. 29 40

—I—

Illumination

Best illumination for instrument dials. P. B. Troup ..... Oct. 3 41
Electroluminescent panels provide choice of colors (D) ..... Aug. 8 10
How to select miniature lamps. A. R. Gardner ..... July 18 57
Isotope-lighted dials to be licensed for production (D) ..... Aug. 8 6
Light amplification by stimulated emission of radiation (laser), new solid-state electronic device (N) ...July 25 20
Light-wave communication a definite possibility (N) ..... Oct. 31 15

Industrial Design

Adding machine plastic (T) ...Sept. 5 24
Airliner seat (T) ..... Dec. 26 20
Alcoa student awards (T) ..... Oct. 17 20
Coffee brewer — coin-operated, self cleaning (PD) ..... Aug. 8 36
Dial-less wrist watch (T) ..... Sept. 5 25
Dough-mixer—retractable seal makes cleaning easy (PD) ..... Nov. 28 41
Electrical-machine tool styling. N. H. Doane (T) ..... Aug. 22 20
Engine for garden and outdoor construction work (PD) ..... Nov. 14 66
Engineer-stylist relationships (A) Oct. 3 83
Freeze-dryer for biological specimens (T) ..... Aug. 8 20
Hair clipper (PD) ..... Aug. 8 35
Handyman, mechanized for garden-and-lawn jobs — Hobby-Gardener (PD) ..... Nov. 14 67
Hardware Show (T) ..... Nov. 14 24
Highway emergency call box (T) Dec. 26 20
Hospital bed (T) ..... Dec. 12 25
Intercom — portable Swedish-designed unit (T) ..... Sept. 5 25
Italian tool design swings to automatic controls and standardization (N) Dec. 5 15
Italy's industrial design circle undergoes change (RA) ..... July 25 12
Japan accused again of pilfering of design of British oil heater (N) Nov. 14 17
Japan's new product show—miniaturization rules roost (RA) ..... Nov. 21 12
Lawn mower, battery powered (PD) Nov. 14 67
Lawnmowers, power (T) ..... Nov. 14 25
Logic-circuit kit (T) ..... Dec. 12 25
Lottery machine guarantees random selection (D) ..... Nov. 7 8
Low-temperature infrared heat (SP) Dec. 26 60
Machine-tool shows roundup—Machine Tool Exposition, Production Engineering Show and Coliseum Machine Show ..... Sept. 26 36
Mobile compressor (T) ..... Aug. 8 21
Mower, ride-on (T) ..... July 11 25
Nameplates: a tabulated guide. P. C. Noy (DF) ..... Aug. 29 91
Printer, high-speed, for high-quality reproduction (D) ..... Dec. 5 8
The product engineer, the industrial designer—and the problem of materials selection. Montgomery Ferar (T) ..... Oct. 3 25
Propeller-type mixers for fluid agitation (T) ..... Sept. 5 25
Simple? (Ed) ..... Aug. 1 29
Sorter-reader handles checks in a hurry (PD) ..... July 25 49
Stretcher—suspension system cushions stretcher (PD) ..... Aug. 15 47
Table-top paper cutter (T) .....Oct. 3 24
Thermohardened beech veneers (SP) Oct. 17 84
Transistorized tuning fork runs wristwatch (PD) ..... Oct. 24 50
Transmitter, pressure (SP) ....Dec. 19 55
Typewriter—new applications redesigned this typewriter (T) ...Nov. 28 20
When does automation in consumer products go too far? (PV) ..Aug. 1 20
When the industrial designer encounters an engineering problem ..July 11 24

Instrumentation

Ac load-monitoring device (SP) Sept. 12 78
Adjustable strain gage (D) ....Oct. 31 6
Adhesives limit strain gages (A) Nov. 7 96
Alloy-detector (D) ..... July 18 8
Analog beam analysis (A) .....Oct. 31 76
Aperture cards for space-age drawings (N) ..... Aug. 1 15
Automation takes spotlight at Turin Technology Fair (RA) .....Oct. 31 10
Best illumination for instrument dials. P. B. Troup ..... Oct. 3 41
British telemetry system revolutionizes vehicle road tests (RA) ..Aug. 22 13
Britons argue setting up government automation center (N) .....Oct. 24 17
Calibrator for pressure-measuring systems (N) ..... Sept. 5 9
Computer-processed digital information plotted with X-Y recorder (T) Oct. 31 25
Decoded words flashed on oscilloscope (N) ..... Aug. 15 21
Dial — drum-type direct-reading dial designed in Canada (D) .....Aug. 22 8
Digital indicators eliminate positioning errors (SP) ..... July 25 67
Digital readouts—report. J. S. Proctor Oct. 31 46
Electronic gaging. D. R. Houck (DD) Mid-Sept. I440
Europe leans on U S research for new instruments — INTERKAMA (N) Jim Morrison ..... Nov. 21 15
The Flexagage—a double-deck resistance strain gage. Felix Zandman Oct. 10 55
Gage, double-deck strain (SP) Sept. 26 63
Gage measures and controls vacuum systems continuously (T) ...July 11 25
Germans develop simplified high-vacuum gage (D) ..... Nov. 21 8
Humidity sabotages precision of scales. (N) ..... Nov. 21 9
Indicator spots breaks in hydraulic systems (SP) ..... Dec. 19 55
Institute of Measurement Science established (N) ..... Oct. 10 20
Instrument housing and dial cover (T) Oct. 31 25
Internal diameter gage developed by Navy (N) ..... Oct. 31 9
Italian tool design swings to automatic controls and standardization (N) Gene DiRaimondo ..... Dec. 5 15
Linear display (SP) ..... Aug. 29 95
Low-cost diffraction grating checks lead screws (N) Nick Landon Aug. 15 20
Machine translation (W) ..... July 11 12
Machine uses reflexes to condition workers (N) ..... Oct. 31 17
Magnetic Integrator Neuron Duplicator to speed perceptron (N) July 11 17
Measurement accuracy (A) .....Nov. 7 96
Measuring of ultralow pressures streamlined (N) ..... Nov. 14 16
Microscope; first infrared (N) ..Nov. 21 20
Midget motor for instrument use (D) Oct. 24 6
Mobile arms move out of the lab—go under the sea, out into space. Dora Merris (N) ..... Dec. 26 15
Modular block-type reader (SP) Nov. 7 80
Monitor for guided missile performance (N) ..... July 25 17
Monorail proposed for Los Angeles (N) July 11 15
Motion detector senses low speed (SP) Sept. 5 66
Pendulum tests mystery of gravity during lunar eclipse (N) ...Sept. 26 15
Periscope will guide man in space (PD) ..... Aug. 1 38
Photoelastic rosette separates principal strains directly. F. R. Park (N) ..... Oct. 17 17
Photoelastic rosette strain gage (SP) Oct. 31 64
Precision thermometry shows trace-element effects (N) ..... Aug. 1 11
Pressure measurement device (SP) Nov. 7 80
Probe-tipped units aid assembly and testing of tiny components (N) Oct. 3 9
Safety rules provided for nuclear instruments (N) ..... Dec. 12 16
Sandwich-type strain gage simplifies stress analysis (N) ..... Sept. 19 17
Scientific instruments can now be rented (N) ..... Aug. 15 16
Sorter-reader handles checks in a hurry (PD) ..... July 25 49
Star design projector redesigned (PD) Oct. 17 70
Strain gages in processing (A) Nov. 21 155
Teaching devices—Mark II, autotutor (N) ..... Nov. 28 18
Teaching-machine industry foresees design, sales problems (N) ..Dec. 19 16
Teaching machines—how good are teaching machines? (PV) .....Dec. 5 24
Teaching machines—Mechanized tutors join the teaching profession. L. H. Young ..... Oct. 3 48
Thermionic-emission electron microscope (N) ..... July 4 18
Thickness testers for non-magnetic and paramagnetic coatings (N) ..Oct. 17 9
Thinking machine—Mark I perceptron unit (N) ..... July 4 17
Torque gage designed in Sweden (D) July 25 6
Vibration-monitor (D) ..... Aug. 8 6

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Visual strain gage does work of three. Felix Zandman ..... Oct. 24 42
Yugoslav industry seeks instruments abroad (N) ..... Nov. 21 21

Insulation, Electrical
Asbestos insulation improved by German manufacturer (D)..... Oct. 3 6
Better electrical insulation with new rubber compositions (D)....Sept. 12 6
Soviets developing insulating magnets in paste form (D)..... Dec. 26 8

Insulation, Thermal
Asbestos insulation improved by German manufacturer (D)..... Oct. 3 6
Corkboard winning in low-temperature tests (D) ..... Aug. 22 9
Lightweight sandwich shields against heat (N) ..... July 25 20
Powder combinations give better insulation (D) ..... Aug. 29 8
Selection of optimum insulation (A) ..... Aug. 8 69

Equations for 5 tapered cantilever beams. W. R. Petri..... July 25 52
Equations simplify stress calculations (N) ..... Aug. 22 12
Gas nomograph for converting to standard cubic feet. F. Caplan (DD) ..... Mid-Sept. J497
How to draw centerless arcs. L. Kasper ..... Oct. 31 58
How to get more from your sliderule. C. J. Lynch..... Nov. 7 73
Maxima, minima problems (A).Dec. 5 109

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Metric system next step—20-hour days, 200° circles. J. H. McKay ..... Aug. 15 46
Motor horsepower at a glance. Samuel Heller (DF) ..... Oct. 3 57
Nomograph measures contents of elliptical tank. Cdr. S. R. Heller Jr. (DF) ..... Nov. 28 50
Section modulus charts find beam dimensions faster. Louis De Monge (DF) ..... Nov. 7 77
Simple math of the response equation. R. M. Koff ..... Aug. 8 31
Which metric system? C. F. Kayan ..... Aug. 15 44

Medical engineering
Control of artifical limbs (N) ..Aug. 22 19
Medicine consults the design engineer —report. D. K. Merris .....Sept. 19 81

Metals, Ferrous
Ceramic-metal combination transforms heat to power (N) .....Dec. 19 18
Chemicals that affect metal strength (N) ..... July 18 9
Choosing a metal to resist wear. J. K. Elbaum ..... Aug. 20 43
Crystal-growing process (SP) ..July 4 52
Dimensional stability in precise parts. L. McD Schetky ..... Sept. 12 67
Ferrous metals protected from molten alloys (D) ..... Dec. 5 8
Fibers point way to applications of metal whiskers (N) .....Aug. 29 9
Ignorance about metals may hold back supersonic transports (D) ...Dec. 26 9
Metals for magnets (DD) ...Mid-Sept. B67
New alloys for research (N) ...July 18 9
1959 metalworking literature (A) ..... Oct. 10 92
Nucerite—ceramic-coated metal resists high-temperature corrosion (N) ..... Sept. 26 16
Soviets contest theory of metal seizure (N) ..... Aug. 15 9
Superconductive metals at room temperature? (N) .....Aug. 8 11
Ternary alloys for new magnets (N) ..... Dec. 26 12

Metals, Ferrous see also Iron and Steel

Metals, Nonferrous
Alloy-detector (D) .....July 18 8
Alloys' hi-temp creep-rupture behavoir ..... Oct. 10 75
Alloys that change as they work (N) ..... Sept. 5 9
Antimony and cobalt strengthen titanium (N) .....July 11 9
AEC probes mystery of radioactive precious metals. Richard Smith (N) ..... Oct. 10 17
Beryllia—designing with sintered beryllia. A. J. Strott .....Oct. 17 65
Beryllium gives titanium hard case, soft core (D) .....**Aug. 1** **6**
Beryllium—lower costs? (D) ..Sept. 26 8
Beryllium—what it can do and how it can be worked (DD) .....Mid-Sept. B70
Brazed joints for 1000 F and above. J. C. Reeves .....Aug. 1 40
Cerium makes brass "super-plastic" (D) ..... Oct. 10 8
Chemical resistance of zirconium, titanium, tantalum and 316-stainless steel (DD) .....Mid-Sept. B68
Choosing a metal to resist wear. J. K. Elbaum ..... Aug. 20 43
Columbium alloy shows resistance to heat, corrosion (D) ..... July 11 8
Columbium—Norwegian studies (N) ..... Aug. 15 9
Crystal-growing process (SP) ..July 4 52
Dimensional stability in precise parts. L. McD Schetky ..... Sept. 12 67
8 ways to guard against metal whiskers. P. C. Noy (DF) .....July 25 63
Fibers point to applications for metal whiskers (N) .....Aug. 29 9
Graphite—ceramic-type hot-working process (D) .....Oct. 17 8
Graphite combinations are stronger, more heat-resistant (N) .....July 18 9
Graphite—cost of molded graphite reduced by new process (D) ...Aug. 22 8
How organic compounds affect metal fatigue (A) .....Oct. 10 91
Ignorance about metals may hold back supersonic transports (D) ...Dec. 26 9
Improved forming technique promises better extrusions (D) .....Sept. 5 8
Indium to improve magnesium (N) ..... Sept. 12 9
Low-zinc brasses (N) .....Dec. 19 9
Metal-bonded graphite—new bearing materials. Felix Giordano (N) ..... Nov. 7 16
Metals for magnets (DD) ...Mid-Sept. B67
Molybdenum panels stand 3000 F (D) ..... Aug. 29 6
New alloys for research (N) ...July 18 9
Nickel-free brasses and steels (D) ..... Dec. 12 6
1959 metalworking literature (A) ..... Oct. 10 92
Nucerite—ceramic-coated metal resists high-temperature corrosion (N) ..... Sept. 26 16
Precision thermometry shows trace-element effects (N) .....Aug. 1 11
Refractory cement (D) .....Aug. 15 8
Refractory materials today (DD) ..... Mid-Sept. C106
Rubidium for new instruments and heat exchangers (N) .....July 25 9
Rubidium gets new primary supplier (D) ..... Oct. 24 8
Scandium oxide ready for evaluation (D) ..... Oct. 10 8
Single-crystal silicon (SP) ....Oct. 10 80
Soviets contest theory of metal seizure (N) ..... Aug. 15 9
Soviets find "superductile" alloys (N) ..... Sept. 12 9
Superalloy gives better brake-return springs (N) .....Dec. 12 15
Superconductive metals at room temperature? (N) .....Aug. 8 11
Tantalum's resistance to corrosion likened to glass (N) .....Oct. 24 9
Technetium (N) .....Aug. 29 9
Tungsten alloy claimed strong and stable (D) .....July 4 8
Tungsten-alloy development (N) ..... Nov. 21 9
Tungsten forging—do it fast ...Oct. 3 40
Vanadium may come from crude oil (N) .....Nov. 14 9
Zinc—die-casting alloys (DD) ..... Mid-Sept. B63
Zirconium alloy to boost reactor efficiency (N) .....July 25 9
Zirconium bearings to operate without grease (D) .....Sept. 26 8
Zirconium—bonding technique (D) ..... Oct. 10 6
Zirconium—finding wider application because it resists corrosion (N) ..... July 4 19

Metals, Nonferrous see also **Aluminum, Copper, Magnesium, Titanium**

Meters
Airflow meter (SP) .....July 25 67
Better accelerometers now available. R. J. Cohen .....Sept. 5 54
Dynamic pressure meter (SP) .Oct. 10 80
Electro-optical potentiometer (SP) ..... Dec. 5 92
Frictionless flowmeter offers high accuracy at low rates (D) .....Dec. 19 6
Gaussmeter (T) .....Oct. 3 24
Hungarian claims versatile lightmeter (N) .....Aug. 29 20
Manufacturers form organization to establish potentiometer standards (N) .....Aug. 29 21
Maximum reading meter (SP) ..Aug. 1 55
Meter for measuring ac voltage peak (D) .....Oct. 3 8
Portable interferometer for polished surfaces (PD) .....July 18 67
Potentiometer for miniaturized systems (D) .....Sept. 19 6
Simplified sine/cosine potentiometer (D) .....July 4 6
Swiss design simplified hygrometer (N) ..... Aug. 15 9
Tachometer senses speed without contact (D) .....Sept. 5 8
Tachometer and transducer designed in Britain (D) .....Dec. 5 6
Thermometer, resistance, claimed accurate to 1560 F (N) .....Aug. 29 9
Trio of mikes provides high-accuracy positioning (N) .....Dec. 19 9
Tubeless voltmeter measures static electricity (D) .....Aug. 29 6

Missiles
Argo D-8 Journeyman (N) .....July 4 16
Directory of missile ground-support equipment issued (W) .....Dec. 26 13
Explosive charge powers missile gyroscope (N) .....Sept. 5 16
Fiberglass favored for Polaris motor casing (W) .....Dec. 19 12
Flash-testing missile electronic systems (N) .....Dec. 12 17
Heater simulates nosecone reentry problem (N) .....Oct. 3 20
Intercontinental missile releases jumbo-sized nosecone (N) ...July 25 15
MISTRAM, missile trajectory measurement system (N) .....July 25 17
Monorail rocket-propelled research sled with unique braking fins (N) ..... July 4 15
NBS calibrates giant load cell (N) ..... July 25 21
New test will find flaws in rocket castings. Don Winston (N) .....Nov. 7 21
Ocean areas considered for launching pads (W) .....Nov. 28 13
Pershing missile shown to NATO (W) ..... Sept. 12 12
Polaris domes by explosive-forming process (N) .....Aug. 8 18
Polaris engines built with titanium castings (W) .....Aug. 29 12
Polaris missile outgrows its original carriers (W) .....Dec. 5 13
Polaris shots timed to motion of sea waves (W) .....Aug. 15 12
Polaris to be launched from trucks too (W) .....Aug. 8 12
Raven to replace Corvus missile? (W) ..... Aug. 1 12
Rocket sled—missile research testing vehicle (N) .....July 11 **21**
Thermal "motor" serves as fuzing device (D) .....Sept. 12 8
Winding machine forms pressure vessel of plastic fibers (N) .....Sept. 12 20

Mobile Equipment
Aluminum engines slated for Soviet tractors (N) .....Nov. 28 18
Amphibious landing vehicle conversion to gas turbine power (N) ...Aug. 15 17
Construction machinery—new designs (T) .....July 25 24
Earthmover with self-contained power source (N) .....Nov. 21 21
Hinged tracks steady tractor (PD) ..... Aug. 15 47
Home-on-wheels, accordion style (T) ..... Aug. 8 20
Karts—engineered karts take over (PD) .....Dec. 19 38
Land tanker redesigned from stem to stern (N) .....Nov. 7 17
Mobile arms move out of the lab—go under the sea, out into space Dora Merris (N) .....Dec. 26 15
Mobile homes—new designs (T) ..... July 25 24
Polaris to be launched from trucks too (W) .....Aug. 8 12
Tractor adjusts itself to farm work (PD) .....Dec. 5 78
Tractor design—fatigue life data needed (N) .....Oct. 3 9
Tractor, "Go Devil", swims—and climbs too (N) .....Dec. 5 17
Tractor with hydrostatic drive (PD) ..... Aug. 20 37
Trucks—variables don't daunt new Army truck (N) .....Sept. 19 16

Molding
Cost of molded graphite reduced by new process (D) .....Aug. 22 8
Newest molded printed circuits. N. L. Greenman .....Nov. 21 88
One-step molding and curing to improve silicone rubber parts (D) ..... Aug. 1 6
Parts molded of filled silcone for temperatures from —67 to 700 F (SP) ..... Nov. 7 80
Reinforced molding powder (SP) ..... Aug 15 66
Rubber is molded to finished size without grinding (SP) .....Sept. 12 78
Silicone-rubber molds for short-run castings. H. A. Smith .....Dec. 26 50
When plastic cams are better. M. A. Sanders .....Aug. 8 44

Motors
Ac load-monitoring device (SP) ..... Sept. 12 78
Aluminum integral motor (SP) .Nov. 21 117
Bidirectional step motor (SP) ..July 18-82 .....Sept. 19 90
British motor with two speed ranges (D) .....July 11 8
Brushless motor nears commercial introduction (D) .....Sept. 12 8
Canned motor—linear motion in sealed systems. J. P. Thorel .....Nov. 21 100
Correcting motor power-factor. G. R. Brooks (DD) .....Mid-Sept. H392
Drive-acceleration time. V. B. Honsinger .....Dec. 26 54
Fhp-motor brushes (SP) .....Sept. 5 66
Frequency-controlled AC motors. Frank Yeaple .....Aug. 8 42
High-torque hydraulic motors (SP) ..... Nov. 21 117
High-torque, low-speed fluid motor (SP) .....Nov. 28 52
How to control speed of FHP motors (DD) .....Mid-Sept. H390
Machine-tool shows—Pneumatics and hydraulics—a lesser share? .Sept. 26 36
Midget motor designed for instrument use (D) .....Oct. 24 6
Motor horsepower at a glance. Samuel Heller (DF) .....Oct. 3 57
Overload protection for polyphase motors (A) .....Sept. 19 119
Pneumatic and hydraulic oscillating motor (SP) .....Aug. 8 54
Pump-motor system recovers "lost" energy (D) .....Dec. 12 6
Servo control unit in kit form (N) ..... Oct. 10 9
Speed control for DC motors. Baruch Berman .....Aug. 15 41
Supercold brings "no-loss" motor (D) ..... Dec. 5 6
Thermal "motor" serves as fuzing device (D) .....Sept. 12 8
Varying induction-motor speed (A) ..... Sept. 19 119
Which heat protector for the motor—report. Frank Yeaple .....Sept. 12 53

—N—

Noise
ASTM seeks improved tests for acoustic fatigue (N) .....Aug. 29 9
Gear noise reduction (A) .....Aug. 15 91
Noise a problem in spacecraft design (N) .....Sept. 5 17
Noisy sound. M. M. Kawa Jr. (DD) ..... Mid-Sept. A32
Radar device cuts noise (N) ...Oct. 3 16

Nucleonics
A-blast shock waves studies (N) ..... Dec. 19 17

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

AEC probes mystery of radioactive precious metals. Richard Smith (N) ..... Oct. 10 17
AEC tests pressure-suppression safety system (N) ..... Aug. 8 16
Alloys that change as they work (N) ..... Sept. 5 9
Bellows-operated "shutter" solves heat-disposal problem (N) .. Oct. 24 9
Bismuth—new reactor gamma shield (N) ..... Sept. 12 20
Britain's first atomic submarine (N) ..... Oct. 31 21
British react to lack of reactors (RA) ..... Nov. 21 12
Cobalt, curium 242, Iodine 131—more atoms for research (N) ..... Oct. 17 9
Design standards on nuclear weapons divulged (W) ..... July 4 12
European group presses for nuclear ship (N) ..... Oct. 31 20
Fuel-elements problems and promises (N) ..... Aug. 8 11
Hydrogen fused for split second (N) ..... Nov. 21 17
Italians vote funds to nuclear research (N) ..... Aug. 29 21
Linear motion in sealed systems. J. P. Thorel ..... Nov. 21 100
Mossbauer effect: key to precision measurement (N) ..... Aug. 1 11
Navy studies jet-propulsion for subs (W) ..... Aug. 1 12
Nuclear-fuel elements made better, less costly (N) ..... July 4 16
Nuclear power planned for future space exploration (W) ..... Oct. 17 12
Nuclear rocket project advances to industrial contracting stage (W) ..... Nov. 14 12
Power source for space: mercury turbine + nuclear reactor ..... Sept. 5 57
Radiant cooling or shielding. Rall & Yoshimoto ..... Nov. 14 55
Radiation-opaque gases to protect spacecraft (N) ..... Oct. 17 9
Reactor designed for constant-speed operation (N) ..... Nov. 21 9
Reactor-system patent (N) .... July 4 10
Safety rules provided for nuclear instruments (N) ..... Dec. 12 13
Self-help for radioactive waste disposal (N) ..... Sept. 19 9
Solid-wall water-fluidized (N) .. July 18 20
Sound waves to aid metal cladding (D) ..... July 4 6
Space experts backing nuclear power (W) ..... Sept. 19 12
Stevens seeks thermonuclear key (N) ..... Aug. 22 12
Thermonuclear progress—take a look at 30 million degrees (N) .. Dec. 12 9
Tritium for isotope-lighted dials (D) ..... Aug. 8 6
Ultrasonic sensing and switching system (SP) ..... Sept. 19 90
Zirconium alloy to boost reactor efficiency (N) ..... July 25 9

Patents

Great Britain presses for uniform European patents (N) ..... Nov. 14 20
Japan annulling foreign computer patents (RA) ..... Aug. 22 13
Japan tops West Germany in patent applications (RA) ..... Oct. 31 10
The lagging pace of U. S. invention. F. A. Howard ..... July 18 75
Patent Office says the lone inventor still counts (N) ..... July 18 15
Soviets release patent data (N). Dec. 5 21
When was that patent issued? George Szekely ..... Dec. 5 87
Who should own the rights to commercial products developed at government expense? (PV) ..... Oct. 10 24

Photography

Aperture cards for space-age drawings (N) ..... Aug. 1 15
Automatic microfilm developer avoids complexity (PD) ..... Aug. 20 38
Camera-made drawings—latest technique. G. O. F. Johnson .... Sept. 5 58
Carbon films head for X-ray windows (N) ..... Dec. 5 9
Copy camera rolls to the job (PD) ..... July 11 72
Copying methods for the engineering office (DD) ..... Mid-Sept. A28
Exploding lamps developed for ultra-high speed photography (D). Oct. 17 8
High-speed photography solves design problems. F. E. Hall ..... Aug. 22 29
One-shot camera (D) ..... July 18 6
Optical shutter based on dimensional change (D) ..... Sept. 5 6
Oscilloscope camera (N) ..... July 11 9
Photocopy machine handles all colors of printing (D) ..... Nov. 7 8
10 X-ray methods. V. W. Palen (DD) ..... Mid-Sept. I432
World's fastest microwave facsimile reported (W) ..... Nov. 28 13
Zooming is motorized in this camera (PD) ..... Oct. 31 43

Piping

How to avoid metal-hose failure. L. B. Donkle ..... July 25 43

Plastics

Aluminum wool improves molded plastics (D) ..... Oct. 10 6
Britons claim super plastics (D) ..... July 18 6
Buton resins for coatings and molded parts (D) ..... Sept. 26 6
Capacitors for —65 F to 400 F (D) ..... Aug. 1 6
Designing thermoplastic structural components (A) ..... Dec. 26 69
Embossing attachment for plastics welding machines (D) ..... Oct. 31 8
Encapsulating systems—survey. E. A. Schatz ..... Sept. 19 68
Epoxide building blocks (N) .. July 11 17
Epoxy guards printed circuits (N) ..... Aug. 1 19
Epoxy-resin hardeners (A) .... Oct. 17 103
Europe leads US in use of thermoplastics (D) ..... July 11 8
Fillers help plastics resist electrical failure (N) ..... July 25 9
Film made from foamed plastic (D) ..... Aug. 29 8
Flameproofing chemicals (N) .. July 18 20
Fluorine plastic lubricates vacuum system (N) ..... Nov. 7 9
Fluorine plastics (D) ..... Aug. 22 8
Fluoroplastics—standards (D). Sept. 19 6
Foams—9 plastic foams. C. R. Davall (DD) ..... Mid-Sept. C113
Gasketing, packing materials (SP) ..... Aug. 29 95
Glass-filled nylon or styrene for timing-belt pulleys (SP) ..... Oct. 31 64
Glossary of reinforced plastics (A) ..... Dec. 12 113
Hard harness for easier wiring. N. R. Lay ..... July 11 64
Heat-resistant polymers—research boom (N) ..... Sept. 5 9
Identifying plastics (A) ..... Aug. 29 109
Irradiated polyolefin (SP) ..... Aug. 1 55
Lexan—new forms of polycarbonate resin promise unusual properties. Bruce Frisch (N) ..... Oct. 3 17
Machine-tool shows—Plastics invade the tool show ..... Sept. 26 48
Machining glass-plastics (A) .. July 11 110
New process increases plastic's oxidation resistance (D) ..... Nov. 28 9
9 heat-forming techniques for plastic sheet. R. E. Kostur (DD). Mid-Sept. D164
Nylon fibers, heat-resistant, for tires and rubber goods (D) ..... Aug. 15 8
Nylon fuel systems (D) ..... July 18 8
Nylon—oil-filled porous nylon parts (SP) ..... Aug. 15 66
Nylon—oriented nylon to double life of belts (D) ..... Nov. 28 8
Nylon wins in permeability tests (N) ..... Dec. 19 9
Nylon with finer crystalline structure (SP) ..... July 18 82
Phenolic laminates promise better circuit components (D) ..... Sept. 5 6
Plastic film to replace sheetmetal in heat exchangers (D) ..... Aug. 15 6
Plastics firms want industry-wide R&D (N) ..... Sept. 19 16
Plastic laminates wired for strength (D) ..... Aug. 8 6
Plastics Institute seeks industry go-ahead (N) ..... Aug. 8 19
Polyamide-cured epoxy resin. P. C. Noy (DF) ..... July 18 79
Polymers show outstanding dielectric properties (D) ..... Nov. 7 8
Polyolefin parts design (A) .... Aug. 8 69
Pressure forming of plastics (A) ..... Oct. 3 81
Radio waves cure plastic (N) .. Dec. 12 20
Reinforced molding powder (SP) ..... Aug. 15 66
Resin—new resin family coming up (N) ..... Nov. 28 12
Semiconductor research progress (N) ..... Oct. 10 9
Silicon carbide—new treatment boosts compressive strength (D) .... Nov. 7 6
Teflon film can be cemented with common adhesives (SP) ..... Nov. 7 80
Testing reinforced plastics (A) .. Nov. 28 70
Tests pave the way for tougher plastics (N) ..... Sept. 5 9
Tetrafluoroethylene bearings and rings (A) ..... Oct. 3 81
Thermoplastic sheet of controlled porosity (SP) ..... Dec. 19 55
Transparent encapsulation of components (SP) ..... Nov. 21 117
Urethane foam forming process (D) ..... Oct. 17 6
Vinyl tape, flexible, magnetized on one side (SP) ..... Nov. 14 82
When plastics burn . . . E. H. Coleman (DD) ..... Mid-Sept. A40
When plastic cams are better. M. A. Sanders ..... Aug. 8 44
Zone refining—new route to high-purity resins (N) ..... Sept. 19 9

Plating

Chrome plate finishes. Felix Giordano ..... July 4 36
Mechanical metal-plating system (SP) ..... Aug. 8 54
Nickel plating (SP) ..... Dec. 5 92
Plating nickel on aluminum alloys. J. T. N. Atkinson (DD) .. Mid-Sept. C118
Silver plating improves hi-temp bolts (D) ..... Aug. 22 4

Pneumatics

Actuator provides choice of speeds with one control (D) ..... Dec. 26 9
Air charger (SP) ..... Dec. 19 65
Analyzing pneumatic circuits (A) ..... Dec. 19 72
Dynamic response of remote pressure pickups. Reid & Kops (DD) ..... Mid-Sept. H401
15 jobs for pneumatic power (DD) ..... Mid-Sept. J504
Machine-tool shows—Pneumatics and hydraulics—a lesser share? Sept. 26 41
More pneumatics to replace electronics and hydraulics (N) ..... Oct. 24 9
Pneumatic carrier routed by acoustics (N) ..... July 11 15
Quick-connect couplings cut costs. George Hagger ..... Oct. 3 37
Regulator (SP) ..... July 11 85
Research study determines air response in hi-temp fluid systems ..... Oct. 17 68
Ten ways to prevent piston rod rotation. Dan Rowan ..... Aug. 1 48
Vernier device regulates pneumatic-system pressure (SP) ..... Nov. 7 80

Powder Metallurgy

Combination of metals gives faster cutting (N) ..... Nov. 28 16
Guide to specifying metal-powder parts. Talmage & Kee .... July 25 56
Metal powder to product in one explosive step (N) ..... Sept. 19 16
Powder combinations give better insulation (D) ..... Aug. 29 8

Power Sources

Chemical-energy storage to replace batteries? (D) ..... Oct. 24 8
Energy conversion research (W) ..... Sept. 5 12
Energy-conversion systems rated by nuclear experts (D) ..... Oct. 31 8
Pump-motor system recovers "lost" energy (D) ..... Dec. 12 6
Solar converters—engineers tell limits (D) ..... Aug. 29 8
Solar-powered thermoelectric converters (D) ..... Aug. 1 10

Presses

Prestretch makes panels stiffer (PD) ..... Nov. 28 42

Printed Circuits

Epoxy guards printed circuits (N) ..... Aug. 1 19
Handles for printed circuits. I. N. Schuster (DF) Pt. 1 Oct. 10-77, Pt. 2 ..... Oct. 24 59
Newest molded printed circuits. N. L. Greenman ..... Nov. 21 88
Permanent-magnet relay printed circuits (D) ..... Sept. 12 6
Phenolic laminates promise better circuit components (D) ..... Sept. 5 6

Product Planning

At the risk of repetition . . . (Ed) ..... Nov. 21 83
The decline of cut-and-try. (Ed) ..... Sept. 19 63
Designing for and determining product quality (A) ..... Aug. 1 67
A hand up. (Ed) ..... Oct. 31 37
How to perpetuate a mistake. (Ed) ..... Oct. 24 37
The product engineer, the industrial designer—and the problem of materials selection. Montgomery Ferar (T) ..... Oct. 3 25
Product planning is a rarity in machine tools. R. S. Latham (T) ..... Sept. 26 20
Simple? (Ed) ..... Aug. 1 29
When does automation in consumer products go too far? (PV) ... Aug. 1 20

Pumps

New pumps will handle liquid metals and molten salts at temperatures to 1500 F (D) ..... Sept. 12 8
Paris auto show features new diesel injection pump. Art. Erikson (N) ..... Nov. 7 20
Plunger plus diaphragm pumps oil to pump problem fluids (PD) .. Oct. 24 49
Pulsation pump (SP) ..... Nov. 28 52
Pump-motor system recovers "lost" energy (D) ..... Dec. 12 6
Single, double dual-vane pumps (SP) ..... Oct. 31 64
Vane pumps improved for hydraulic circuits (N) ..... Nov. 21 17
Which type pump casing? (A) .. July 4 63

—R—

Radio and Television

Benelux to get world's largest radio-telescope (RA) ..... Sept. 26 12
Compactron to replace radio, TV tubes (N) ..... July 11 16
Die-cast housing for closed-circuit television camera (T) ..... Oct. 31 24
Highway emergency call box (T) ..... Dec. 26 20
Japan TV industry charged with marketing fraud (N) ..... Sept. 12 16

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

"Kabanov Effect"—bouncing radio waves give radar longer range (N) Dec. 5 17
Marine radio-telephone (T)...Dec. 26 20
Metal belts for global radio system (N) .....Oct. 3 21
Microfilm can be viewed on TV screen (N).....Oct. 24 16
Navy changing design engineers for giant radiotelescope (W).....Dec. 5 13
Navy radiotelescope 2 years behind schedule (W).....Nov. 7 12
Navy's radiotelescope—22½ tons of bearing alignment (N).....Aug. 15 17
Radio waves cure plastic (N)..Dec. 12 20
Radiometer for Tiros II (N)..Dec. 12 16
Radiotelescope—rotating shaft (N) Sept. 12 20
Space communications system by 1970; new laws required (N).....Aug. 1 17
TV serves as second microscope (N) Dec. 26 19
Two-way radio (T).....Dec. 12 24
U. S.-designed, Italian built TV sets (T) .....Aug. 8 21
World-wide satellite communication network proposed (N).....Aug. 22 18

Rectifiers
Key to magnetic-amplifier development (D) .....July 4 6
New speed control for DC motors. Baruch Berman.....Aug. 15 41
Overload protectors for solid-state rectifiers (D).....July 18 6

Relays
Ceramic relays (D).....July 11 6
Contactless relays (A).....July 18 103
Overload relay compensates for heat and cold (SP).....Oct. 31 64
Permanent-magnet relay for printed circuits (D).....Sept. 12 6
Relay has liquid-metal contacts (D) Oct. 3 6

Research
AMA survey finds R & D climb (N) Sept. 26 18
ARPA spends for materials research (N) .....July 18 21
Are advanced degrees essential to R&D work? (PV).....Nov. 21 24
Austrian research pays off (N).July 11 21
Basic research hits $1-billion mark (N) .....Sept. 5 17
The better mouse. (Ed).....Nov. 28 27
Britain raps its own R&D growth rate. Nick Landon (N).....Oct. 24 16
British firms pool R&D (N)...Aug. 22 19
Ceramic-metal combination transforms heat to power (N).....Dec. 19 18
Communications group—how it can help you. Hunton & Slade...Nov. 21 90
Compressed air bubbled into water around ships reduces size of waves (W) .....Aug. 29 12
Czech-Soviet cooperate on R&D (N) July 11 21
Defense Dept shopping overseas for its R&D (N).....July 4 15
Defense R&D contracting rate hiked (W) .....Sept. 12 12
EPA to distribute Soviet translation (N) .....Nov. 7 17
Electrothermal cooling—research progress. Felix Giordano (N)....Oct. 24 15
Energy conversion research (W) Sept. 5 12
Engineering R&D brings millions to universities (N).....Aug. 15 21
Engineers ask military for higher Mach aircraft (W).....Aug. 8 12
EPA plans research-spending study (RA) .....July 25 12
France names 7 new "sages" of science (N) .....Dec. 26 19
French official promises hike in applied research. Art. Erikson (N) Oct. 3 17
German firms form joint research unit —Industrie Motorenbau GmbH (N) Aug. 29 21
Germany—Fritz-Thyssen Foundation formed (N).....Aug. 8 16
Getting your share from technical literature? H. S. Sharp.....July 4 40
Heat-resistant polymers—research boom (N).....Sept. 5 9
Humidity sabotages precision of scales (N) .....Nov. 21 9
Hydrogen fused for split second (N) Nov. 21 17
Ignorance about metals may hold back supersonic transports (D)...Dec. 26 9
Italians vote funds to nuclear research (N).....Aug. 29 21
Japanese auto firm expands R&D programs (N).....Sept. 5 21
The lagging pace of U. S. invention. F. A. Howard.....July 18 75
Lip-seal research (A).....Nov. 21 158
Merchant marine research urged (W) Aug. 29 12
Mobile arms move out of the lab—go under the sea, out into space. Dora Merris (N).....Dec. 26 15
Model trains aid in pantograph research (N).....Oct. 31 20
NASA lists development needs (W) Aug. 15 12
NASA to coordinate materials R&D (W) .....Oct. 10 12
NATO plans expanded research programs (N).....Aug. 8 17
NATO seeks to beef up Western nation R&D. Seth Payne (N).....Oct. 31 15
New alloys for research (N)..July 18 9
Niagara Frontier—research—key to industrial and area growth (map) (N) July 18 16
Nixon proposes scattered federal R&D centers (W).....Oct. 3 12
OEEC spurs European technical development. Art Erikson (N).Aug. 8 18
Plastics firms want industry-wide R&D (N) .....Sept. 19 16
Plastics Institute seeks industry go-ahead (N).....Aug. 8 19
Salt-water-conversion program gets speedup. David Secrest (N)..Oct. 3 15
Senator wants blinders off federal R&D (N) .....Oct. 24 23
Soviet translations from Israel brought to U. S. by export-import deal (N) Oct. 3 21
Space R&D costs to top $3 billion a year (N).....Oct. 31 15
Space-research dollars spread wider (N) .....Sept. 19 16
Speedup in engineering. J. F. Young July 25 60
Thermoelectric coolers—bi-company research (N).....Dec. 26 18
Thinking machine—Mark I perceptron unit (N).....July 4 17
Transdisciplinary research. (Ed) Nov. 14 53
Translations of USSR technical literature (A).....Oct. 3 81
USSR—briefing the Soviet record (N) Dec. 5 9
USSR to defrost Arctic for northern sea route (W).....Oct. 10 12
Washington research and development boom (N).....Sept. 12 17
Which serves industry best—nonprofit or profit-making research groups? (PV) .....July 4 20
World War II R&D reports to be declassified (N).....Aug. 29 21

Rubber and Elastomers
Better electrical insulation with new rubber compositions (D)....Sept. 12 6
Flexible magnets coming from Britain (D) .....Sept. 19 8
Fuel-carrying tires (N).....Aug. 29 20
Natural rubber—lower prices promised (D).....Oct. 3 8
One-step molding and curing to improve silicone rubber parts (D) Aug. 1 6
Rubber is molded to finished size without grinding (SP).....Sept. 12 78
Silicone and epoxy-silicone rubbers vulcanize at room temperature (SP) Sept. 5 66
Silicone rubber molds for short-run castings. H. A. Smith.....Dec. 26 50
Space experts predict elastomer trends (D) .....Nov. 21 6
Synthetic rubber processing easier with ultrafine talc (N).....Sept. 19 9
Test tires of Neothane leave telltale trails (N).....Dec. 19 17
Tires tested at NBS for wear (N) Sept. 5 16
What's rubber?—the latest definition (N) .....Dec. 19 9

—S—

Safety
AEC tests pressure-suppression safety system (N).....Aug. 8 16
Cause found for space heater explosion (N) .....Nov. 28 18
Electronic safety device guards electrical equipment (D).....Nov. 7 8
Explosion protection system (N) Oct. 10 21
The mark of Cain. (Ed).....Nov. 7 53
New concepts on safety factors. Charles Lipson (DD).....Mid-Sept. F275
Nuclear instruments—safety rules (N) Dec. 12 16
Swiss crack down on dangers from electrical devices (RA).....Sept. 26 12
When plastics burn . . . E. H. Coleman (DD).....Mid-Sept. A40

Sandwich Structures
Brazing process cuts cost of stainless sandwich (N).....Sept. 5 15
Stainless honeycomb sandwich panels. D. Y. Potter.....Dec. 5 67

Seals
British design new seals for fluids (D) Nov. 7 6
Corrosion blamed on sealing too well (D) .....Sept. 12 6
Dough-mixer—retractable seal makes cleaning easy (PD).....Nov. 28 41
Leakage reduced with new shaft seal. Felix Giordano (N).....Dec. 19 15
Linear motion in sealed systems. J. P. Thorel .....Nov. 21 100
Lip-seal research (A).....Nov. 21 158
Production blamed for shaft seal failures (D).....Oct. 17 6
Research on helical-groove seals (A) Oct. 24 78
Retaining rings (A).....Aug. 1 67
Seal-ring assembly (SP) .....Dec. 19 55
Self-conforming polymer seal (SP) Sept. 19 90
Tadpole seals (A).....July 11 112

Semiconductors
Cerium sulfide: ultrahigh-temp semiconductor? (N).....Sept. 5 9
Indium-clad aluminum for semiconductor use (D).....Aug. 15 6
New optical elements from semiconductor research (D).....Nov. 14 8
Plastic semiconductors research (N) Oct. 10 9
Probe-tipped units aid assembly and testing of tiny components (N) Oct. 3 9
Semiconductor growing process eliminates manual assembly (N).July 11 26
Semiconductors compared (DD) Mid-Sept. I445
U. S. pushes organic-semiconductor research (N).....July 4 10

Ships
Britain's first atomic sub, HMS Dreadnought (N).....Oct. 31 21
Catamaran sports-fisher, Hawaii Kai (N) .....Nov. 21 21
Compressed air bubbled into water around ships reduces size of waves (W) .....Aug. 29 12
Hydrofoil boats (W).....July 11 12
Hydrofoil craft bids for world speed title (N).....Dec. 26 18
Hydrofoil riverboats—Soviets spur design (N).....Aug. 29 21
Hydrofoil vessel reaches 70 mph (N) Oct. 17 17
Hydroskimmer built on the "water-wall" principle (N).....Aug. 15 16
Japanese device reduces drag effect of waves on ships (N).....Dec. 12 16
Merchant marine research urged (W) Aug. 29 12
Shipboard equipment for satellites in offing (W).....July 11 12

Soldering
Induction soldering and brazing—9 typical coil designs (DD)..Mid-Sept. D168
Room-temperature solders stand 1000 to 1450 F (D).....Sept. 19 6
Solder can induce thermal stress cracking in steel (N).....Aug. 15 9

Space Technology
Active communication satellite in the works (W).....Oct. 17 12
Air recovery of Discoverer XIV capsule (N) .....Sept. 12 21
Arc lamp tests experimental rocket liners (N).....Oct. 17 16
Atlas-Centaur vehicle has heat-resistant fiberglass nosecone (N) Aug. 22 17
Britain fights for a place in space. John Tunstall (N).....Oct. 17 15
Designs wanted for passenger-carrying mooncraft (W).....Sept. 19 12
Discoverer catch-plane retrieval capability to double (W).....Sept. 19 12
Discoverer I to XV—engineering case history. Bill Wallace (N)...Oct. 10 15
Ground equipment becomes key to satellite success (W).....Oct. 24 12
Heater simulates nosecone reentry problem (N).....Oct. 3 20
Incoming Administration expected to jounce space program (W)..Nov. 28 13
Liquid hydrogen to fuel more NASA space rockets (W).....Aug. 8 12
Metal belts for global radio system (N) .....Oct. 3 21
Military seeks to post stronger guards against satellites (W).....Oct. 3 12
NASA bickers with industry, military, over satellite-program plans (W) Dec. 19 12
Noise a problem in spacecraft design (N) .....Sept. 5 17
Nuclear power planned for future space exploration (W).....Oct. 17 12
Ocean areas considered for launching pads (W).....Nov. 28 13
Pendulum tests mystery of gravity during lunar eclipse (N)....Sept. 26 15
Periscope will guide man in space (PD) .....Aug. 1 38
Power source for space: mercury turbine + nuclear reactor.....Sept. 5 57
Radiometer for Tiros II (N)..Dec. 12 16
Radiation-opaque gases to protect spacecraft (N).....Oct. 17 9
Research costs to top $3 billion a year (N) .....Oct. 31 16
Rotating bail simulates satellite flight (N) .....Oct. 24 17
Samos a specialized spy satellite (W) Nov. 7 12
Saturn's first test firing.....Aug. 8 73
Sea-launched satellites best say advocates (W).....Dec. 5 13
Shipboard equipment for satellites in offing (W).....July 11 12
Simulated space chamber speeds component tests (W).....Dec. 26 13
Soviet lands space capsule in single pass. Ernest Conine (N)....Sept. 12 21
Space communications system by 1970; new laws required (N).....Aug. 1 17
Space experts backing nuclear power (W) .....Sept. 19 12
Space experts predict elastomer trends (D) .....Nov. 21 6

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Space industry lists future product needs (N)....Nov. 7 15
Space platform contract awarded to Grumman (W)....Oct. 24 12
Standard space satellite, "space bus", designed by NASA (W)....Oct. 3 12
Sublimation in thin air—another space problem (N)....Dec. 12 9
A 3-g world? (Ed)....Oct. 3 35
U. S. satellites Transit II-A, aluminum sphere with instruments to measure solar radiation (N)....July 4 18
U. S. timetable for race into space (N) Sept. 12 15
World-wide satellite communication network proposed (N)....Aug. 22 18

Springs
Balance springs position X-ray safely (PD)....July 11 71
Belleville springs for constant braking power. T. M. Trainer....Sept. 12 62
Buckling and unseating of coil springs. T. M. Lowery....July 18 62
Cadmium-plated springs (A)..Nov. 28 66
Design equation for curved springs. Palm & Thomas (DD)....Mid-Sept. F286
Design of buckling-column springs (A) Sept. 12 91
Dimension analysis of helical compression springs. Nicholas Miller Oct. 24 52
How to design for variable rate. J. F. Machen (DF)....July 11 81
How to find trapezoidal-spring deflection. Joachim Palm (DF) Dec. 12 83
Machine tests heavy truck springs in fatigue (N)....July 18 21
One spring returns the hand lever. L. Kasper (DF)
Seven designs....Nov. 21 109
Six more designs....Dec. 5 89
Spring-loaded plugs improve electrical connections (D)....Oct. 3 6
Spring material at high temperature (DD)....Mid-Sept. B69
Superalloy gives better brake-return springs (N)....Dec. 12 15

Stamping
Rubber stamp has remote control (PD) Nov. 21 94

Standardization
Applying nondestructive test standards (A)....July 4 65
Canadian specifications for fiberglass on the way (N)....Sept. 19 17
Design standards on nuclear weapons divulged (W)....July 4 12
Electronic design hurt by lag in standards (N)....Aug. 1 18
Fluoroplastics—standards (D)..Sept. 19 6
Have American standards hurt foreign manufacturers? (PV)....Dec. 19 20
Potentiometer manufacturers form organization to establish standards (N)....Aug. 29 21
20-hour days, 200 circles—next step for metric system? J. H. McKay Aug. 15 46
Which metric system? C. F. Kayan Aug. 15 44
World's new length rule based on krypton 86. Art Erikson (N)..Nov. 7 17

Statistical Control
Angular errors in gears. T. C. Nielsen Aug. 15 56
Sampling theory—an exercise in probabilities. R. M. Koff....Dec. 12 57
Statistics in device development (A) Sept. 12 91

Steel
Austenitic "cold working" for ultra-strength. D. J. Schmatz & others (D)....Mid-Sept. B64
Australian research promise better cold-drawn steel (N)....July 4 10
Brazing process cuts cost of stainless sandwich (N)....Sept. 5 15
Car weight and costs go down with new steels (N)....Nov. 14 21
Chemical resistance of 316-stainless steel (DD)....Mid-Sept. B68
Color-coated stainless steel (SP) Aug. 1 55
Discaloy steel—new data on thermal fatigue (N)....Dec. 26 12
European vacuum degasser makes cleaner steel faster (N)....Dec. 19 19
High-boron steel made workable by aluminum (D)....Aug. 22 9
How "corrosion-resistant" metals may corrode (N)....Sept. 12 9
Nickel-free brasses and steels (D) Dec. 12 6
Notch toughness of steel (A)..Nov. 21 156
Solder can induce thermal stress cracking in steel (N)....Aug. 15 9
Stainless under rapid heating and loading (A)....July 25 85
Steel tubing—its weight? its annular area. F. Kaplan (DF)....Dec. 26 59
Ultrahigh-strength steel (SP)..Sept. 5 66
Welding high-strength steels (A) Oct. 31 76

Stress Analysis
Allowable stresses in flash-welded joints. H. L. Kee....Oct. 31 39
Alloys' hi-temp creep-rupture behavior....Oct. 10 75
ASTM seeks improved tests for acoustic fatigue (N)....Aug. 29 9
Avoiding stress concentrations by design (A)....Aug. 22 65
Chemicals that affect metal strength (N)....July 18 9
Cracks—nomograph shows when cracks become dangerous. Malcolm Newman Aug. 29 56
Dimensional stability in precise parts. L. McD. Schetky....Sept. 12 67
Effect of strain on tensile properties (A)....Sept. 5 84
Equations for 5 tapered cantilever beams. W. R. Petri....July 25 52
Equations simplify stress calculations (N)....Aug. 22 12
Evaluation of basic strength data of materials (A)....Sept. 26 79
Fatigue under random loading (A) Aug. 1 67
Fiber strength testing a la 1920 (N) Aug. 1 11
The Flexagage—a double-deck resistance strain gage. Felix Zandman Oct. 10 55
For a stronger metal surface. A. J. Schwarzkoff....Nov. 14 70
Gasket material selection. J. J. Whalen Oct. 3 52
Gyroscopic machine yields better fatigue data. Dr. R. S. Hanson..Dec. 19 42
Hi-temp strain test developed by Navy (N)....Nov. 21 9
How organic compounds affect metal fatigue (A)....Oct. 10 91
How to avoid metal-hose failure. L. B. Donkle....July 25 43
K factor for impact loading. S. Warren Kaye (DF)....Aug. 22 53
Long-time performance for short-time burst strength (A)....July 4 63
Machine tests heavy truck springs in fatigue (N)....July 18 21
Methods to compute flat-plate stresses (W)....July 4 12
New data on thermal fatigue (N) Dec. 26 12
Photoelastic rosette separate principal strains directly. F. R. Park (N) Oct. 17 17
Predict acoustic fatigue life (N) July 18 9
Protective analysis may sap metal strength (N)....July 4 10
Sandwich-type strain gage simplifies stress analysis (N)....Sept. 19 17
Solder can induce thermal stress cracking in steel (N)....Aug. 15 9
SRI test will find flaws in rocket casings. Don Winston (N)...Nov. 7 21
Strain relief (SP)....Aug. 29 95
Stress corrosion (A)....Oct. 31 76
Stresses in cylindrical and spherical shells (A)....Aug. 15 90
Tensile tests can be misleading (N) Aug. 1 11
Tests confirm strength loss in crushed metals (N)....Oct. 3 9
Torsion bars—shortcut to designing. D. A. Derse (DF)....Aug. 8 51
Another shortcut....Aug. 22 51
Torsion in beams. S. W. Kaye (DF) Oct. 17 81
Vacuum effect on alloys (N)..Sept. 26 18
Visual strain gage does work of three. Felix Zandman....Oct. 24 42
What torque to tension plated bolts? Vernon Stimpel....Dec. 5 73

Switches
Air valve with magnet-operated mercury switch (SP)....Oct. 3 60
A-blast shock waves studied (N) Dec. 19 17
Cutoff prevents overloading of hoist (PD)....Aug. 1 37
Flow switch (SP)....Oct. 10 80
Magnet-operated limit switch (SP) Oct. 24 63
Miniature air switch (SP)....Nov. 21 117
Miniature inertia switch (SP)..Sept. 5 66
Modular rotary switches (SP)..Sept. 19 90
Punched-card switching system (SP) Dec. 12 87
Pushbutton crossbar switch (SP) Oct. 3 60
Responsive mercury switch designed in Britain (D)....July 4 6
Rotating cylinders switch high voltages (D)....Aug. 29 6
16 ways to apply limit switches (DD) Mid-Sept. I442
Subminiature force-control switch (SP)....Aug. 8 54
Wheel on switch top (SP)....Dec. 26 60
Why not ac switches for ac circuits. Ronald Munroe....Oct. 24 39

—T—

Telephone
Cordless telephones coming soon (D) Oct. 31 6
Electronics runs phone exchange (N) Nov. 28 19
Handwriting by phone: the two rivals. Wallace & Cross (N)....Sept. 19 20
Light-wave communication a definite possibility (N)....Oct. 31 15
Marine radio-telephone (T)....Dec. 26 20
Portable phone (T)....Oct. 3 24
Space communications system by 1970; new laws required (N)....Aug. 1 17
World-wide satellite communication network proposed (N)....Aug. 22 18

Terminology
Engineering slang (Ed)....Dec. 5 65
Vacuum-processing terminology (A) Dec. 19 72

Testing
ASTM seeks improved tests for acoustic fatigue (N)....Aug. 29 9
Applying nondestructive test standards (A)....July 4 65
Arc lamp tests experimental rocket liners (N)....Oct. 17 16
Better accelerometers now available. R. J. Cohen....Sept. 5 54
British telemetry system revolutionizes vehicle road tests (RA)..Aug. 22 13
Camp Century, an arctic ice city, to test equipment (W)....Aug. 1 12
Creativity tests are helpful. Simberg & Harris....Oct. 17 73
Creep-tester holds 15 specimens at a time (N)....July 18 15
Fiber strength testing a la 1920 (N) Aug. 1 11
Gyroscopic machine yields better fatigued data. Dr. R. S. Hanson Dec. 19 42
Hi-temp strain test developed by Navy (N)....Nov. 21 9
How good are random-wave vibration tests? C. G. Stradling....Dec. 5 82
Hydraulic-actuator study (N)..Nov. 7 9
Look ahead at testing equipment (N) Nov. 28 12
Machine tests heavy truck springs in fatigue (N)....July 18 21
Mobile hardness tester (T)....July 11 25
Modified drill press determines friction coefficients (N)....Sept. 19 21
New data to guide electrical design (N)....Aug. 22 12
New way to predict electrical failure (N)....Dec. 19 9
Nondestructive testing (A)....Oct. 24 78
Nylon wins in permeability tests (N) Dec. 19 9
Pendulum tests mystery of gravity during lunar eclipse (N)....Sept. 26 15
Rocket sled—missile research testing vehicle (N)....July 11 21
Soviets contest theory of metal seizure (N)....Aug. 15 9
SRI test will find flaws in rocket casings. Don Winston (N)....Nov. 7 21
Strain-gage test fingerprints machinability (N)....Aug. 8 11
Tabulated: test-chamber refrigerants. D. J. Missimer (DD)....Mid-Sept. A34
Tensile tests can be misleading (N) Aug. 1 11
Test for gear oils (A)....Dec. 26 69
Testing lags behind equipment design (N)....Dec. 26 12
Testing structures for elevated-temperature (A)....Dec. 5 110
Tests pave the way for tougher plastics (N)....Sept. 5 9
Tests show variations in surface cleanability (N)....Dec. 5 9
Thermal data on glass—tests (N) Sept. 26 9
Thickness testers for nonmagnetic and paramagnetic coatings (N)...Oct. 17 9
Titanium alloy fails extrusion tests (N)....Nov. 7 20
Vibration resistance of thread locking devices. Bronson & Faroni...Oct. 10 58
Wax tester (N)....Nov. 14 9

Timers
Adjustable interval timer (SP) Dec. 12 87
Automatic timers control multiple circuits (D)....Dec. 19 8
Electrolytic timer (SP)....Nov. 28 52
Operating principles of 13 timing devices. J. C. Ponstingl (DD) Mid-Sept. H393
Recycling timers. E. F. King...Aug. 8 48
Solid-state ac time delay (SP) Aug. 29 95
Solid-state timers will control appliances (D)....July 18 6
Thermal time-delay developed in Australia (D)....Oct. 10 6
Timers (A)....Oct. 24 78
Worm gear makes this timer precise (PD)....Oct. 10 64

Titanium
Alloy aims for 900 F (D)....Nov. 28 9
Anodic coatings to aid titanium (D) Dec. 12 8
Antimony and cobalt strengthen titanium (N)....July 11 9
Beryllium gives titanium hard case, soft core (D)....Aug. 1 6
British report on titanium brazes (N) Sept. 26 9
Chemical resistance of titanium (DD) Mid-Sept. B68
Polaris engines built with titanium casings (W)....Aug. 29 12
Resistors use thin titanium films (D) Oct. 17 8
Supercooled titanium shows superstrength (N)....Oct. 10 9
Titanium alloy fails extrusion tests (N)....Nov. 7 20

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials. (N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad. (SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Ti-Pd alloy—low corrosion rate confirmed (N) ....Aug. 15 21
12 ways to work titanium. J. M. Wentzell (DD) ....Mid-Sept. D169
Zirconium increases strength of titanium (N) ....Sept. 19 9

Tolerances
Closer tolerances placed on refractory metal sheet (D)....Nov. 14 6
Dimension analysis of helical compression springs. Nicholas Miller ....Oct. 24 52

Transducers
Angular-motion transducer (SP) ....July 4 52
British offer improved transducer (D) ....Aug. 22 9
Calibrator for pressure-measuring systems (N) ....Sept. 5 9
How the resistance transducers compare. J. R. McDermott....Oct. 17 76
Linear transducers (SP)....Dec. 5 92
Magnetostrictive ferrite materials call for new design approach (N) ....Aug. 1 11
Miniature transducers (SP)....Oct. 31 64
Multi-element thermal transducers developed for higher-order transfer functions (D) ....Nov. 7 6
Phase-shifting transducers (SP) ....July 18 82
Piezoelectric ignition to spark small engines (N) ....Oct. 24 17
Piezoelectric transducers—applications in lab work (N)....Nov. 7 9
6 transducers for positioning (A) ....July 18 101
Tachometer and transducer designed in Britain (D) ....Dec. 5 6
Thermal time-delay developed in Australia (D) ....Oct. 10 6
Transducer materials call for new design approach (N)....Aug. 1 11
Transducers, flow (SP)....Aug. 29 95
What capacitance transducers have to offer. J. R. McDermott....Nov. 7 70

Transformers
British developing piezoelectric transformers (D) ....Dec. 26 8

Transmission
Austrian engineer designs no-backlash drive (D) ....July 11 6
Auto drain plugs going down the drain? (D)....Aug. 1 10
Dynamic response of remote pressure pickups. Reid & Kops (DD) ....Mid-Sept. H401
Electrohydraulic drive combines fast action with positive positioning (D) ....Nov. 14 6
5-hp transmission (SP)....Dec. 26 60
Fluid-operated stepless transmissions (A) ....Aug. 22 65
Integrated power-transmission components (SP) ....Oct. 24 63
Low-cost hydrostatic transmission designed in Britain (D)....Nov. 14 8
Pushbutton transmission has sure touch (PD) ....Dec. 26 48
Sealed drive (D)....July 25 8
Shaft-mounted rotating transmission (SP) ....Oct. 17 84
Tractor with hydrostatic drive (PD) ....Aug. 20 37

Tubes, Electron
How information is presented on cathode-ray display tubes. R. A. Barker (DD) ....Mid-Sept. II434

Tubing
Aluminum tubing — new bending method (N) ....Oct. 24 16
Czechs give heat-exchanger tubes a new shape (D)....Oct. 17 8
How to avoid metal-hose failure. L. B. Donkle ....July 25 43
Right-angle tube clamp (SP)..Oct. 31 64
Steel tubing is centrifugally cast (SP) ....Dec. 5 92
Steel tubing—its weight? its annular area? F. Kaplan (DF)....Dec. 26 59
Tube-support brackets (SP)....July 18 82

—V—

Valves
Air valve with magnet-operated mercury switch (SP)....Oct. 3 60
Baby pinch valve featured in conveyor system (D) ....Aug. 1 6
Flow-divider valve (SP)....Oct. 24 63
Hydraulic valves supply own manifold (PD) ....Dec. 5 81
Indicating and loading valve (SP) ....Dec. 19 55
Miniature check valves (SP)..Aug. 22 54
¼-in. hand cone valve (SP)....Aug. 29 95
Overloading—6 ways to prevent serious damage. P. C. Noy (DF)....Aug. 1 51
Pilot valve's actuating pin (SP) ....Nov. 28 52
Servovalve monitoring system (SP) ....Sept. 26 63
7 relief valves for portable equipment. C. A. L. Ruhl (DD)....Mid-Sept. J502
Two-way freeze valve handles metals and gases (D)....Oct. 24 8
Valve fills tanks precisely—without floats (PD) ....Dec. 12 60
Valve for 6000 psi (SP)....July 18 82

Variable Speed Drives
Adjustable-speed drives (A)....Aug. 22 66
Electronic "black box" may simplify frequency-controlled AC motors. Frank Yeaple ....Aug. 8 42
Sliding pins are heart of mechanical memory (PD) ....Sept. 5 46
Speed-change mechanism provides wide operating range (D)....Aug. 29 6
Speed control for DC motors. Baruch Berman ....Aug. 15 41
Speed-reducers and gearheads (SP) ....Aug. 1 55

Vibration and Shock
Damped vibration (A)....Oct. 17 103
Electronic vibration monitor (SP) ....Nov. 21 117
Flexible engine-suspensions (DD) ....Mid-Sept. H388
Grooves damp vibration of bearings (D) ....Dec. 12 6
Heavy-duty neoprene mounts (SP) ....Nov. 21 117
How good are random-wave vibration tests? C. G. Stradling....Dec. 5 82
Low-cost vibration monitor designed for machine installations (D) ....Aug. 8 6
Seismic pickups simplify dynamic balancing (PD) ....Aug. 29 58
Shock analyses (A)....Nov. 14 95
Thread locking devices that resist vibration. Bronson & Faroni....Oct. 10 58
Vibration isolation (A)....Sept. 26 79

—W—

Welding
Allowable stresses in flash-welded joints. H. L. Kee....Oct. 31 29
Distortions in welds (A)....Nov. 21 155
Electron beam welds in vacuum. T. H. Crane....July 18 70
Embossing attachment for plastics welding machines (D)....Oct. 31 8
Failures in weldments (A)....Dec. 12 111
Floating arbor positions shells for welding (PD) ....Nov. 28 42
Four new ideas improve welding (N) ....Oct. 24 23
Friction-welding studies near practicality (N) ....Nov. 28 16
Soviet welding advances impress Western experts (RA)....Oct. 31 10
Tape allows varying the constituents (N) ....Sept. 26 19
Welding high-strength steels (A) ....Oct. 31 76
Welding or brazing dissimilar metals. Jay Bland ....Dec. 19 46

ORGANIZATIONS

A B Electrolux of Sweden—Thermoelectric cooler research (N)....Dec. 26 18
ACEC—Automatic train-braking system (N) ....Nov. 21 16
ACF Electronics—Motor package ....Sept. 26 40
ACF Industries—Portable punch riveter ....Sept. 26 48
ACF Industries Inc. ACE Electronics Div.—Speed control for DC motors. Baruch Berman ....Aug. 15 41
Abbott Laboratories—Iodine 131 production (N) ....Oct. 17 9
Accurate Specialties Co.—Indium-clad aluminum for semiconductor use (D) ....Aug. 15 6
Acton Laboratories Inc.—Worm gear makes this timer precise (PD) ....Oct. 10 64
Admiral Corp.
Charge marketing fraud to Japan TV industry (N) ....Sept. 12 16
US-designed, Italian built sets (T) ....Aug. 8 21
Aerojet-General Corp.
Explosive-forming for Polaris domes (N) ....Aug. 8 18
Low-cost method of producing liquid hydrazine (W) ....Dec. 26 13
Rocket sled—missile research testing vehicle (N) ....July 11 21
Aeroiab Development Co.—Argo D-8 Journeyman (N) ....July 4 16
Aeronca Manufacturing Corp.—Stainless honeycomb sandwich panels. D. Y. Potter ....Dec. 5 67
Aerospace Industries Association
Experts predict elastomer trends (D) ....Nov. 21 6
Look ahead at testing equipment (N) ....Nov. 28 12
New methods for data display (D) ....Nov. 21 6
Space industry lists future product needs (N) ....Nov. 7 15
AIE (Rugby) Ltd of London—British motor with two speed ranges (D) ....July 11 8
Air Reduction Sales Co.—New equipment to cut hardfacing costs (D)..Dec. 19 8
Airborne Accessories Corp.—Transmission ....Sept. 26 46
Airborne Accessories Corp. Industrial Div.
5-hp transmission (SP)....Dec. 26 60
Shaft-mounted rotating transmission (SP) ....Oct. 17 84
Air-O-Plastik Corp. — Urethane foam forming process (D)....Oct. 17 6
Ajax Electric Co.—New pumps for temperatures to 1500 F (D)....Sept. 12 8
Aladdin Co. of Britain—Accuses Japan of pilfering of design of oil heater (N) ....Nov. 14 17
Alimak-Verken AB — Gas-powered lift hoists itself (PD)....Aug. 29 60
Allied Research & Engineering—Design hints on electroforming. B. C. Jones (DD) ....Mid-Sept. D174
Allis-Chalmers Mfg. Co.—High-temperature coatings under test (D)..Aug. 8 6
Allis-Chalmers Mfg. Co. Development Lab.—Drive-acceleration time. V. H. Honsinger ....Dec. 26 54
Allis-Chalmers Mfg. Co. Motor-Generator Dept.—Correcting motor power-factor. G. R. Brooks (DD)....Mid-Sept. H392
Alloyd Corp.
Abrasive contamination of precision mechanical devices. Dr. L. McD. Schetky ....Aug. 15 51
Dimensional stability in precise parts. L. McD. Schetky....Sept. 12 67
Almo Manifold & Tool Co.—Manifolds replace pipe (N)....Nov. 21 20
Alpha Molykote Corp.—Bonded coatings lubricate metal parts. Alfred DiSaplo ....Sept. 5 48
Aluminum Co. of America
Accordion-style home-on-wheels (T) ....Aug. 8 20
Extruded panel supplies own ducts (N) ....Dec. 12 20
King-size forging for jetliner (N) ....Oct. 31 15
Solid aluminum bearings. D. B. Wood ....July 4 42
Student awards (T)....Oct. 17 20
Alcoa Research Laboratories — High-strength aluminum alloys. Holt & Nock Jr. ....Aug. 8 38
American Association for the Advancement of Science—Scientists are asked to coach the public on scientific issues (N) ....July 25 16
American Brake Shoe Co.
Disk brakes—wider use foreseen (D) ....Oct. 3 8
Producing radiographs to show flaws in castings (N)....Dec. 5 20
American Brass Company—A look at copper corosion (DD)....Mid-Sept. B60
American Cast Iron Pipe Co. Special Products Div.—Steel tubing is centrifugally cast (SP)....Dec. 5 92
American Chain & Cable Co. Inc. Wilson Mechanical Instrument Div.—Mobile hardness tester (T)....July 11 25
American Chain & Cable Co. Inc. Wright Hoist Div.—Cutoff prevents overloading of hoist (PD)....Aug. 1 37
American Gear Manufacturers Assn.—Scoring index for gears to be developed (N) ....Nov. 14 16
American Institute of Electrical Engineers—Tunnel diode monitors light intensity (N) ....July 4 19
AIEE Space Symposium—Engineers tell limits of solar converters (D) ....Aug. 29 8
American Machine & Foundry Co.—Mobile equipment; robot moon-men (N) ....Dec. 26 16
American Machine & Foundry Co. Central Research Laboratory—Friction-welding studies near practicality (N) ....Nov. 28 16
American Machine & Foundry Co. DeWalt Div.—Walton, W. E. (PV) ....Aug. 1 20
American Machine and Metals Inc. Hunter Spring Co.—Balance springs position X-ray safely (PD)..July 11 71
American Management Association—Survey finds R & D climb (N)..Sept. 26 18
American Measurement & Control Inc.—Dynamic pressure meter (SP) ....Oct. 10 80
American Motors Corp.
Aluminum engines (N)....Nov. 28 18
Die-cast engine lightens Rambler's compact car (PD)....Oct. 10 62

American Motors Corp. Automotive Div.—Chapin, Roy D. Jr. (PV)..Sept. 19 24

American Petroleum Institute—Vanadium may come from crude oil (N) ..... Nov. 14 9

American Petroleum Institute Marketing Div.—Auto drain plugs going down the drain? (D) ..... Aug. 1 10

American Potash and Chemical Corp.—Metal powder to product in one explosive step (N) ..... Sept. 19 16

American Rectifier Corp.—Motor horsepower at a glance. Samuel Heller (DF) ..... Oct. 3 57

American Society for Engineering Education—Educators told to separate science and engineering (N) ..... July 18 21

ASTM
Latest definition for rubber (N) ..... Dec. 19 9
Seeks improved tests for acoustic fatigue (N) ..... Aug. 29 9

American Solenoid Co. Inc.—Modular rotary switches (SP) ..... Sept. 19 90

American-Standard Corp. Detroit Controls Div.—High-force thermostatic actuators. Freismuth & Gould ..... July 11 74

American Telephone and Telegraph Co.
Handwriting by phone: the two rivals. Wallace & Cross (N) ..... Sept. 19 21
Space communications system by 1970; new laws required (N) ..... Aug. 1 17

Ampex Corp.—Recorder-reproducer (N) ..... Nov. 21 17

Analab Instrument Corp. — Oscilloscope camera (N) ..... July 11 9

Ann Arbor Bearing and Mfg. Co.—Straddle-mounted torque control (SP) ..... Oct. 3 60

Applied Magnetics Corp.—Flexible vinyl tape magnetized on one side (SP) ..... Nov. 14 82

Archdale, James & Co.—Vertical coordinate drilling machine (N)..Sept. 5 17

Argonne National Laboratory—Low corrosion rate of Ti-Pd alloy confirmed (N) ..... Aug. 15 21

Argonne National Labs Remote Control Engineering Labs—Robot problems (N) ..... Dec. 26 17

Armour Research Foundation—Plastic semiconductor research (N)..Oct. 10 9

Armstrong Cork Co.—Gasketing, packing materials (SP) ..... Aug. 29 95

Armstrong Whitworth Aircraft Ltd.—Telemetry system revolutionizes vehicle road tests (RA) ..... Aug. 22 13

Aro Equipment Corp. Industrial Div.—Ultrasonic sensing and switching system (SP) ..... Sept. 19 90

Arrow-Hart & Hegeman Electric Co. Industrial Control Div.—Overload relay compensates for heat and cold (SP) ..... Oct. 31 64

Arrowhead-Puritas Waters Inc. Del Mfg. Div.—Self-conforming polymer seal (SP) ..... Sept. 19 91

Artrite Resins, Ltd.—Britons claim super plastics (D) ..... July 18 6

Arwood Co.—Lost-wax casting from ceramic shelling (N) ..... July 11 20

Asco Sintering Corp.—Bearing specification questioned; new standards urged (D) ..... Nov. 28 9

ASEA (Sweden)—Torque gage (D) ..... July 25 6

Aspera Motor Co.—Automatic "go-cart" (RA) ..... Oct. 31 10

Assembly Products Inc.
Linear transducer (SP) ..... Dec. 5 92
Maximum reading meter (SP)..Aug. 1 56

Associated Control Equipment Inc.—Miniature air switch (SP)...Nov. 21 117

Atlas Titanium Ltd.—12 ways to work titanium. J. M. Wentzell (DD) ..... Mid-Sept. D169

Atomic Energy Commission
Cost of molded graphite reduced by new process (D) ..... Aug. 22 8
Electrohydraulic drive combines fast action with positive positioning (D) ..... Nov. 14 6
Ferrous metals protected from molten alloys (D) ..... Dec. 5 8
Fuel-elements problems and promises (N) ..... Aug. 8 11
Nuclear rocket project advances to industrial contracting stage (W) ..... Nov. 14 12
Pressure-suppression safety system tested (N) ..... Aug. 8 16
Probes mystery of radioactive precious metals. Richard Smith (N)...Oct. 10 17
Radioactive cobalt price cut (N) ..... Oct. 17 9
Roughened surfaces improve heat transfer (N) ..... July 25 9
Sound waves to aid metal cladding (D) ..... July 4 6
Space experts backing nuclear power (W) ..... Sept. 19 12
Tungsten alloy claimed strong and stable (D) ..... July 4 8
Two-way freeze valve handles metals and gases (D) ..... Oct. 24 8
Zirconium and aluminum bonding techniques (D) ..... Oct. 10 6

Atomic Energy of Canada Ltd.—Magnesium alloy tested for pressure tubes (D) ..... Aug. 22 9

Atomics International — Reactor-system patent (N) ..... July 4 10

Auster Aircraft Ltd.—Taken over by Pressed Steel Co. (N) ..... Nov. 21 20

Auto Specialties Mfg. Co.—Superalloy gives better brake-return springs (N) ..... Dec. 12 15

Automatic Steel Products Inc. Mercury Clutch Div.—Kart component (PD) ..... Dec. 19 40

Automatics Production Research Co.—Midget motor for instrument use (D) ..... Oct. 24 6

Avco Corp.—Brazing process cuts cost of stainless sandwich (N) ..Sept. 5 15

Avco Research and Advanced Development Div.—Burton, Charles J. (PV) ..... Nov. 21 25

BPS Machinery & Spares Ltd.—Lathe has pitch-correcting mechanism (N) ..... Aug. 22 19

Bailey Meter Co.—Pressure transmitter (SP) ..... Dec. 19 55

Baird Machine Co.
Complete springs in 1-2-3 operation (PD) ..... Nov. 14 68
Wire-former tilts to ease delivery (PD) ..... Aug. 15 48

Baker Perkins—Dough-mixer—retractable seal makes cleaning easy (PD) ..... Nov. 28 41

Baldwin - Lima - Hamilton — Radiotelescope—rotating shaft (N)...Sept. 12 20

Baldwin-Lima-Hamilton Electronics and Instruments Div.—NB8 calibrates giant load cell (N) ..... July 25 21

Baldwin - Lima - Hamilton's Industrial Equip. Div.—Navy's radiotelescope —22½ tons of bearing alignment (N) ..... Aug. 15 17

Barber Coleman—Rolling machine ..... Sept. 26 44

Barden Corp.—High-temperature bearings (SP) ..... Aug. 22 54

Barnes Engineering Co.—Radiometer for Tiros II (N) ..... Dec. 12 16

Barry Wright Corp. Barry Controls Div.—Heavy-duty neoprene mounts (SP) ..... Nov. 21 117

Battelle Memorial Institute
Chemical resistance of zirconium, titanium, tantalum and 316-stainless steel (DD) ..... Mid-Sept. B68
Electrolysis shapes toughest alloys 10 times faster (N) ..... Nov. 14 17
Mobile homes—new designs (T) ..... July 25 24
Molybdate coatings promise whiteness plus safety (D) ..... Oct. 31 6
More pneumatics to replace electronics and hydraulics (N) ..... Oct. 24 9
Rail guides car for tunnel police (PD) ..... Dec. 12 61
Refractory materials today (DD) ..... Mid-Sept. C106
Study determines air response in hi-temp fluid systems ..... Oct. 17 68
Tantalum's resistance to corrosion likened to glass (N) ..... Oct. 24 9
Tests confirm thermal data on glass (N) ..... Sept. 26 9
Thomas, B. D. (PV) ..... July 4 20
Voltage oddity is re-examined (N) ..... Nov. 28 15

Battelle Memorial Institute Consumer Products Div.—Belleville springs for constant braking power. T. M. Trainer ..... Sept. 12 62

Battersea College of Technology—Belt friction and shaft load. O. R. Fendrich (DD) ..... Mid-Sept. E208

Bechtel Corp.—Plastics to replace sheet-metal in heat exchangers (D) ..... Aug. 15 6

Bell Aerosystems Co.—Mach 2 jet with V/STOL (N) ..... Dec. 19 16

Bell, F. W. Inc.—Gaussmeter (T) ..... Oct. 3 24

Bell Helicopter Corp.—Noisy sound. M. M. Kawa Jr. (DD)..... Mid-Sept. A22

Bell & Howell Co.
Projector (T) ..... Dec. 12 25
Zooming is motorized in this camera (PD) ..... Oct. 31 43

Bell System—World-wide satellite communication network proposed (N) ..... Aug. 22 18

Bell Laboratories
Electronics runs phone exchange (N) ..... Nov. 28 19
Light-wave communication a definite possibility (N) ..... Oct. 31 15

Bernard—Truck cab with lines like TV receiver (T) ..... Dec. 12 24

Biach Industries Inc.—Bolts stretched for tight fit (PD) ..... Sept. 19 75

Bijur Lubricating Corp.—Circulating lubrication system (SP)..... Aug. 22 64

Bingham, Colonel S. H., Consultant Engineers—Section modulus charts find beam dimensions faster. Louis De Monge (DF) ..... Nov. 7 77

Blackhawk Mfg. Co.—Hydraulic floor jack lengthened (T) ..... Oct. 31 24

Bodine Electric Co.—How to control speed of FHP motors (DD) ..... Mid-Sept. H390

Boeing Airplane Co.
A-blast shock waves studied (N) ..... Dec. 19 17

Creep-tester holds 15 specimens at a time (N) ..... July 18 15
De-ionized water cures ills of coating methods. Ray Bloomberg (N) ..... Oct. 31 17
Engineers reject new contract offer (N) ..... Sept. 26 18
Graphite combinations are stronger, more heat-resistant (N)..... July 18 9
New way to bend thin-wall aluminum (N) ..... Oct. 24 16
Oil-mist lubrication for air bearings. C. R. Adams ..... Aug. 29 54
Quartet of ideas improves welding (N) ..... Oct. 24 23
Solar-powered thermoelectric converters (D) ..... Aug. 1 10

Boeing Aerospace Div.—Ceramic graphite Body forms its own protective coating (N) ..... July 11 21

Borg-Warner Corp. Pesco Products Div.—Portable electric generator (T) ..... Nov. 14-24, Dec. 26 20

Boston Fire Dept. Moon Island Training School Laboratory—Cause found for space heater explosion (N)..Nov. 28 18

Bowen Itco Inc.—Seal-ring assembly (SP) ..... Dec. 19 55

Brazilian National Confederation of Industry—Vera, Dr. Francisco (PV) ..... Dec. 19 21

Brewer Machine & Gear Co.—Rotatable arm tensions drive (SP)..... Aug. 8 54

Brigham Young University—New treatment boosts silicon carbide's compressive strength (D) ..... Nov. 7 6

Bristol Siddeley Engines (England)—Ball screws operate at 750 F without lubrication (D) ..... Aug. 15 8

Britain's Atomic Energy Research Establishment—Nylon wins in permeability tests (N) ..... Dec. 19 9

Britain's Electrical Research Association—New data to guide electrical design (N) ..... Aug. 22 12

Britain's Machine Tool Advisory Council—Reject mass production as cure for machine-tool woes (N) ..... Dec. 5 17

Britain's National Engineering Lab—Frictionless flowmeter offers high accuracy at low rates (D)...Dec. 19 6

British Non Ferrous Metals Assn.—Machine makes possible straighter strip (D) ..... Sept. 26 6

British Petroleum Ltd.—Low-cost process promises high-quality lubes (D) ..... Dec. 5 6

BP Trader - John Thompson - Leyland—Land tanker redesigned from stem to stern (N) ..... Nov. 7 17

British Scientific Instrument Research Assn.—British firms pool R&D (N) ..... Aug. 22 19

British Standards Institute—Sanders, T. R. B. (PV) ..... Dec. 19 20

British War Office Armament R&D Establishment — Solder can induce thermal stress cracking in steel (N) ..... Aug. 15 9

Broken Hill Pty Ltd.—Australian research promises better cold-drawn steel (N) ..... July 4 10

Brookfield Engineering Labs, Inc.—How to classify fluids by viscosity. R. A. Minard (DD) ..... Mid-Sept. J495

Brookhaven National Laboratories — Fused salts as heat-transfer media (D) ..... Oct. 10 8

Brooks Stevens Associates—When the industrial designer encounters an engineering problem ..... July 11 24

Brown-Boveri—Electronic control system for planer (N) ..... Nov. 21 16

Brown (David) Industries Ltd.—Contract to sell gear-hobbing machines to Russia (N) ..... Dec. 19 17

Brown & Sharpe Mfg. Co.
"Micromaster" surface grinder ..... Sept. 26 46
Searching finger positions table (PD) ..... Oct. 31 44

Brown & Sharpe Mfg. Co. Double A Products Co. — High-torque, low-speed fluid motor (SP)..... Nov. 28 52

Brush Crystal Co.—Piezoelectric transformers (D) ..... Dec. 26 8

Bryant Chucking Grinder Co.—Rubberized fabric belt on feeder...Sept. 26 48

Budd Company Instrument Div.
A double-deck resistance strain gage. Felix Zandman ..... Oct. 10 55
Double-deck strain gage (SP).Sept. 26 63
Photoelastic rosette separates principal strains directly. F. R. Park (N) ..... Oct. 17 17
Photoelastic strain rosette (SP) ..... Oct. 31 64
Sandwich-type strain gage simplifies stress analysis (N) ..... Sept. 19 17
Visual strain gage does work of three. Felix Zandman ..... Oct. 24 42

Bulova Watch Co. Inc.—Transistorized tuning fork runs wristwatch (PD) ..... Oct. 24 50

Burroughs Corp.—Sorter-reader handles checks in a hurry (PD)..... July 25 51

Byelorussian Institute of RR Transportation—Checkered bearings under test (D) ..... Dec. 5 8

Cairo University Production Engineering Dept.—Journal-bearing design. Dr. G. S. A. Shawki ..... Aug. 1 31

Buckling and unseating of coil springs. T. M. Lowery ..... July 18 62
Dodge Lancer (N) ..... Aug. 22 17
Engineers given math of designing car seats (N) ..... Nov. 14 17
1961 models (N) ..... Oct. 3 16

Cincinnati Milling Machine Co.
FRP plastic parts ..... Sept. 26 49
Product planning is a rarity in machine tools. R. S. Latham (T) Sept. 6 22
"Roller blind" cover ..... Sept. 26 48
Styling an electrical-discharge machine tool. N. H. Doane (T) .Aug. 22 20
Transfer machine has welded 3-D A-frame ..... Sept. 26 50
Tubing integrated into design .Sept. 26 41

Cincinnati Milling Machine Cimtrol Div.—Radial-piston motor ..... Sept. 26 42

Citroen—Engine improvements highlight '61 models. Arthur Erikson (N) Sept. 19 17

Clark Controller Co.
Ac load-monitoring device (SP) Sept. 12 78
Photoelectric temperature control (SP) Oct. 10 80

Clevite Corp.—Ceramic relays (D) July 11 6

Clevite Corp. Brush Instruments Div.—Angular-motion transducer (SP) July 4 52

Clevite Corp. Cleveland Graphite Bronze Co. Div.
Ceramic sparks ignition when squeezed (PD) ..... Nov. 21 93
Piezoelectric ignition to spark small engines (N) ..... Oct. 24 17

Clifton Precision Products Co. Inc.—Miniature position transducer (SP) Oct. 31 64

Clinton Engines Corp.—Kart component (PD) ..... Dec. 19 41

Cole Electric Co.—Self-aligning electrical connectors (SP) ..... July 11 86

Colson Corp.—"Fifth wheel" does the work for loaded vehicle (F) .Oct. 10 64

Columbia Gas Co.—Aircraft jet engine to pump natural gas (N) ....Dec. 5 21

Columbia-Southern Chemical Corp.—Low-corrosion rate of Ti-Pd alloy confirmed (N) ..... Aug. 15 21

Columbia Technical Corp.—100% solids epoxy coating operates to 311 F (SP) ..... Oct. 17 84

Columbia Univ. Mechanical Engineering Dept.—Which metric system? Carl F. Kayan ..... Aug. 15 44

Combination Double A Products Co.—Hydraulic valves supply own manifold (PD) ..... Dec. 5 81

Combination Pump Valve Co.—Valve for 6000 psi (SP) ..... July 18 82

Comet Industries—9 heat-forming techniques for plastic sheet. R. E. Kostur (DD) ..... Mid-Sept. D164

Commonwealth Scientific and Industrial Research Organization
Multi-element thermal transducers developed for higher-order transfer functions (D) ..... Nov. 7 6
Thermal time-delay (D) ..... Oct. 10 6

Comptometer—Handwriting by phone: the two rivals. Wallace & Cross (N) Sept. 19 20

Conrad-Carson Inc.—Resistor responds to gas molecules with dipole moment (SP) ..... Oct. 10 80

Consolidated Electrodynamics Electro Mechanical Instrument Div.—Push-button transmission has sure touch (PD) ..... Dec. 26 48

Consul Watch Factory—Dial-less wrist watch (T) ..... Sept. 5 25

Continental Industries Inc. Continental Vending Machine Co. Div.—Coffee brewer—coin-operated, self-cleaning (PD) ..... Aug. 8 26

Cornell University
Carbon films head for X-ray windows (N) ..... Dec. 5 9
New rubber compositions improve electrical insulation (D) ..... Sept. 12 6
Solid-wall water-fluidized (N) .July 18 20

Cornell Aeronautical Laboratory
Magnetic Integrator Neuron Duplicator to speed perceptron (N) .....July 11 17
Mark I perceptron (N) ..... July 4 17

Corning Glass Works Electronic Components Dept.—Photosensitive glass & chemical machining. Nicholas Lazar July 11 66

Croxton & Garry Ltd.—Aluminum wool improves molded plastics (D) Oct. 10 6

Crucible Steel Co. of America—Manganese-aluminum magnets promise high strength at low cost (D) Dec. 12 8

Crucible Steel Co. of America Midland Works—European vacuum degasser makes cleaner steel faster (N) Dec. 19 19

Cunningham, James, Son & Co. Inc.—Pushbutton crossbar switch (SP) Oct. 3 60

Custom Machine Co.—Pulsation pump (SP) ..... Nov. 28 52

Cyril Bath Co.—Prestretch makes panels stiffer (PD) ..... Nov. 28 42

Dahl, George W. Co. Inc.—Indicating and loading valve (SP) .....Dec. 19 55

Dailey, Don, Assoc.—Encapsulating mercury cells of voltage-reference battery (T) ..... Oct. 31 25

Daimler-Benz—Forms joint research unit with Maybach Motorenbau (N) Aug. 29 21

Dampney Co.—Silicone and silicone-ceramic coatings for up to 1400 F (SP) Aug. 1 55

Dana Corp.—"Universal" lubricant (D) July 18 8

Danly Machine Specialties—Air manifolds ..... Sept. 26 42

Data Systems Dept. Norden Div.—Linear display (SP) ..... Aug. 29 95

Davale Coupling Co.—Miniature, flexible four-way coupling (SP) .....Aug. 1 55

Denison, R. B. Mfg. Co.—Air-operated actuator (SP) ..... Aug. 15 66

Department of Scientific and Industrial Research (England)
British firms pool R&D (N) ..Aug. 22 19
When plastics burn . . . E. H. Coleman (DD) ..... Mid-Sept. A40

Design Analysts—Freeze-dryer for biological specimens (T) .....Aug. 8 20

Deutsch Co. Hydraulic Components Div.—High-pressure coupling (SP) Oct. 10 80

Dialled Despatches Ltd.—Pneumatic carrier routed by acoustics (N) .July 11 15

Diamond Ordnance Fuze Laboratories—Polymers show outstanding dielectric properties (D) ..... Nov. 7 8

Diamond Research Laboratories—Diamond thermistors resist corrosion and abrasion (D) ..... Aug. 8 10

Dick, A. B. Co.—Monoscope character-generator (N) ..... Aug. 15 21

Digital Equipment Corp.—Logic-circuit kit (T) ..... Dec. 12 25

Dillon, W. C. & Co. Inc.—Subminiature force-control switch (SP) ..Aug. 8 54

DoAll Co.—Donut-shaped cutter slices friable material (N) .....Aug. 22 16

Dodge, F. W. Corp.—Merger with McGraw-Hill nears (N) .....Dec. 12 20

Dole Valve Co.—Dimension analysis of helical compression springs. Nicholas Miller ..... Oct. 24 52

Dominion Aluminum Fabricating Ltd.—Equations for 5 tapered cantilever beams. W. R. Petri .....July 25 52

Douglas Homs Co.—Table-top paper cutter (T) ..... Oct. 3 24

Dow Corning Corp.
Parts molded of filled silicone (SP) Nov. 7 80
Single-crystal silicon (SP) ....Oct. 10 80

Dow Corning Corp. Silastic Fabrication Laboratory—Silicone rubber molds for short-run castings. H. A. Smith Dec. 26 50

Dubo-Borgringen of Holland—New shape for retaining rings (D) .....Dec. 26 8

Dunn Engineering Co.—Kart component (PD) ..... Dec. 19 41

DuPont E. I. de Nemours & Co.
Columbium alloy shows resistance to heat, corrosion (D) .....July 11 8
New resin family coming up (N) Nov. 28 12
Spray-on ceramic resistors (D) Sept. 12 8
Synthetic-rubber adhesive improves panel assemblies (D) .....Oct. 3 8
Teflon film can be cemented with common adhesives (SP) .....Nov. 7 81

Du Pont Pigments Dept.—High-temperature potassium titanate fiber (D) Sept. 5 6

Dynamic Gear Co. Inc.—Speed-reducers and gearheads (SP) .....Aug. 1 56

Eagle Electric Manufacturing Co. Inc.—Why not ac switches for ac circuits. Ronald Munroe ..... Oct. 24 39

Edison, Thomas A. Industries Instrument Div.—Your choice of recycling timers. E. F. King ..... Aug. 8 48

Edon Industrial Products—Rubber stamp has remote control (PD) ...Nov. 21 94

Eichner, L. C. Instruments—Portable interferometer for polished surfaces (PD) ..... July 18 67

Elmeo Corp.—Hinged tracks steady tractor (PD) ..... Aug. 15 47

Ekstrom, Carlson & Co.
Fluorescent ring lamp on profiling machine ..... Sept. 26 50
"Logic" panel milling machine Sept. 26 38

Elastic Stop Nut Corp of America—Vibration resistance of thread locking devices. Bronson & Faroni..Oct. 10 58

Electric Autolite Co.—Nuclear-fuel elements made better, less costly (N) July 4 16

Electric Indicator Co. Inc.—Digital indicators eliminate positioning errors (SP) ..... July 25 67

Electrical Mfg. Co. Ltd.—Overload protectors for solid-state rectifiers (D) July 18 6

Electrical Product Development—High-temperature electrical equipment. J. A. Clark ..... Sept. 26 56

Electrical Remote Control Co. Ltd.—Automated timers control multiple circuits (D) ..... Dec. 19 8

Electronic Controls Inc. ECI Mfg Div.—Drive for X-Y axis control (SP) Oct. 10 80

Electro-Optical Systems Inc.
Ion engine has 19 'cylinders' (N) Nov. 14 20
Optical shutter based on dimensional change (D) ..... Sept. 5 6
Zarem, Dr. A. M. (PV) July 4-20, Nov. 21 24

Electro Tec Corp.—Those versatile slip rings. George Merker .....Sept. 19 65

Electrotechnical Laboratory of Japan—Computer reported (RA) ....July 25 12

Elektro-Mechanik GmbH
Electro-hydraulic edge control (N) Nov. 21 17
Rapid-reversing geared magnetic-particle clutch (N) ..... Nov. 21 16

Elgeet Optical Co.—TV serves as second microscope (N) ..... Dec. 26 19

El-Tronics Inc. Monarch Electric Div.—Dual-element cartridge fuses (SP) Nov. 14 82

Emerson & Cuming—Silicone and epoxy-silicone rubbers vulcanize at room temperature (SP) ..... Sept. 5 66

Engelhard Industries, Inc.
Fundamentals of slip-ring assemblies (DD) ..... Mid-Sept. I435
Overspeed control for machines uses frangible element (D) .....Oct. 24 6

Engineers Joint Council—Engineering graduates still find jobs plentiful (N) Aug. 8 15

Enjay Chemical—Low-cost resins for coatings and molded parts (D) Sept. 26 6

Esso Research & Engineering—Wax tester (N) ..... Nov. 14 9

Euco Tools Ltd—Hydraulic nut has dual holding system (D) .....Sept. 19 8

European Nuclear Energy Agency—Nuclear ship project (N) .....Oct. 31 20

European Productivity Agency—Will distribute Soviet translations (N) Nov. 7 17

European Productivity Agency Committee on Applied Research—Plans research-spending study (RA) .July 25 12

Executone Inc.—Permanent-magnet relay for printed circuits (D) ..Sept. 12 6

FG Milles Ltd.—Pressed Steel Co. forms association (N) ..... Nov. 21 20

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

Fabrionics Corp. — Tubeless voltmeter measures static electricity (D) ..... Aug. 29 6

Fairbairn, Lawson, Combe and Barbour Ltd. — Special-shape cams reduce speed smoothly (PD) ..... Dec. 26 47

Fairbanks-Morse, Magneto Div. — Kart component (PD) ..... Dec. 19 39

Fairchild Controls Corp.—Miniature pressure transducer (SP) ..... Oct. 31 65

Farrand—Inductosyn (linear resolver) ..... Sept. 26 38

Fawick Corp. Fawick Hydraulic-Electronic Div.
Flow-divider valve (SP) ..... Oct. 24 63
Pilot valve's actuating pin (SP) ..... Nov. 28 52

Feedback Ltd.—Servo set for research (N) ..... Oct. 10 9

Felten & Guilleaume Carlswerk A. G.—Hilgendorff, Dr. Hans J. (PV) ..... Dec. 19 21

Fenwal Inc.—Explosion protection system (N) ..... Oct. 10 21

Ferranti Co.—Linear optical gratings for machine-tool controls ..... Sept. 26 38

Ferranti Electric Inc. Electronics Div.—Modular block-type reader (SP) ..... Nov. 7 80

Ferro Powdered Metal Inc.—Combination of metals gives faster cutting (N) ..... Nov. 28 16

Flat—Station wagon has engine under floor (N) ..... Aug. 8 19

Fiberfil, Inc.—Reinforced molding powder (SP) ..... Aug. 15 66

Fibrous Glass Products Inc.—Stronger glass fiber products for Space Age (D) ..... Nov. 28 8

Flanders Filters Inc.—Basic information on air filtration (DD) ..... Mid-Sept. A35

Flexonics Corporation—How to avoid metal-hose failure. L. B. Donkle ..... July 25 43

Fluid Drive Engineering Co.—Hydraulic couplings affect gear and shaft selection. Joseph Seliber ..... Aug. 22 46

Foil Process Corp.—Bonded-foil members offer high strength, light weight (D) ..... Nov. 28 9

Ford Foundation
Seeks to beef up Western nation R&D. Seth Payne (N) ..... Oct. 31 15
Supplements engineering grants (N) ..... July 25 17

Ford Motor Co.
Rus-type car (N) ..... Oct. 10 21
Comet—'61 model (N) ..... Sept. 26 18
Executive pleads for graduates who can solve problems (N) ..... Dec. 12 16
Prototype truck floats even with a full load (N) ..... Aug. 8 17
Smaller car to be produced overseas? (N) ..... Sept. 12 21

Ford Motor Co. Aeronutronic Div.—Magnetic Integrator Neuron Duplicator to speed perceptron (N) ..... July 11 17

Ford Motor Co. Scientific Laboratory
Austenitic "cold working" for ultra-strength steel. D. J. Schmatz & others (DD) ..... Mid-Sept. B64
Ference, Dr. Michael Jr. (PV) ..... Nov. 21 25
Metal-bonded graphite—new bearing materials. Felix Giordano (N) ..... Nov. 7 16

Foster Grant Co. — Nylon with finer crystalline structure (SP) ..... July 18 82

Foxboro Co.—¼-in. hand cone valve (SP) ..... Aug. 29 95

Frankford Arsenal—Hard, hi-temp iridium coatings (D) ..... Nov. 14 6

Franklin Electric Co. Inc.—Aluminum integral motor (SP) ..... Nov. 21 117

Fritz-Thyssen Foundation—German family forms foundation (N) ..... Aug. 8 16

Fuji Heavy Industries—Subaru (N) ..... Nov. 14 15

Fullmer Research Institute—Tests confirm strength loss in coated metals (N) ..... Oct. 3 9

Furniture Dynamics Inc.—Hospital bed (T) ..... Dec. 12 25

Galileo of Florence—Instantaneous-development photo-recorder (RA) ..... Oct. 31 10

Garrett Corp. AiResearch Div.—Low-speed fan cools electronic gear quietly (N) ..... Oct. 3 21

Gast Manufacturing Corp.—15 jobs for pneumatic power (DD) ..... Mid-Sept. J506

Gaylord Products Inc. Research Div.—Motion detector senses low speed (SP) ..... Sept. 5 66

Gearlight Unions Ltd.—Simplified plug has dual locking action (D) ..... Dec. 12 8

Gems Co. Inc.—Flow switch (SP) ..... Oct. 10 80

General Controls Co.—Ray, J. F. (PV) ..... Aug. 1 21

General Dynamics Corp. Convair Div.
Atlas-Centaur vehicle has heat-resistant fiberglas nosecone (N) ..... Aug. 22 17
Dynamic response of remote pressure pickups. Reid & Kups (DD) ..... Mid-Sept. H401
Ignorance about metals may hold back supersonic transports says R. J. Patton (D) ..... Dec. 26 9
Spray cools black boxes (PD) ..... July 4 22

General Dynamics Corp. General Atomics Div.
Cerium sulfide: ultrahigh-temp semiconductor? (N) ..... Sept. 5 9
Cesium-cell thermionic converter gives 90 w (N) ..... Aug. 29 16

General Electric Co.
Compactron to replace radio, TV tubes (N) ..... July 11 16
Electroluminescent panels provide choice of colors (D) ..... Aug. 8 10
Electrolytic technique doubles strength of copper (D) ..... Oct. 31 8
Lexan—new forms of polycarbonate resin promise unusual properties. Bruce Frisch (N) ..... Oct. 3 17
Magnet-operated limit switch (SP) ..... Oct. 24 64
New process increases plastic's oxidation resistance (D) ..... Nov. 28 9
Organic semiconductor research (N) ..... July 4 10
Sheetmetal buckets for turbine wheel (N) ..... Oct. 24 23
Speedup in engineering. J. F. Young ..... July 25 60
Tunneling takes on another assignment (N) ..... Dec. 12 20
Which right-angle gear system? Bryant & Dudley ..... Nov. 7 55

General Electric Defense System Dept.—Monitor for guided missile performance (N) ..... July 25 17

GE's General Engineering Laboratory
New way to predict electrical failure (N) ..... Dec. 19 9
Supercold brings "no loss" motor (D) ..... Sept. 5 6
Tunnel diode monitors light intensity (N) ..... July 4 19

General Electric Co. Instrument Dept.—Best illumination for instrument dials. P. B. Troup ..... Oct. 3 41

GE's Metallurgical Dept. — New oxide magnets (D) ..... Nov. 21 8

GE Military Electronics Dept.—Hydraulic-actuator study (N) ..... Nov. 7 9

GE Missile & Space Vehicle Dept.—Thickness testers for non-magnetic and paramagnetic coatings (N) ..... Oct. 17 8

GE's Power Tube Dept.—One generator thrives on other's waste energy (N) ..... Dec. 26 12

GE Research Lab—Structure seen key to better ceramics (N) ..... Sept. 12 9

GE Silicone Products Dept.—One-step molding and curing to improve silicone rubber parts (D) ..... Aug. 1 6

GE Specialty Control Dept.—"Mark Century" numerical control (N) ..... Aug. 15 16

General Electric Co Ltd.—Thermoelectric cooler research (N) ..... Dec. 26 18

General Mills—Heavy shielding and agile manipulators characterize the Beetle (N) ..... Dec. 26 15

General Motors Corp.
Buick—'61 model (N) ..... Sept. 26 18
How do you "style" cars at GM? William L. Mitchell (PV) ..... Aug. 15 24
Production blamed for shaft seal failures (D) ..... Oct. 17 6
Prototype truck floats even with a full load (N) ..... Aug. 8 17

General Motors Corp. AC Spark Plug Div.
Creativity tests are helpful. Simberg & Harris ..... Oct. 17 73
Getting your share from technical literature? H. S. Sharp ..... July 4 40

GM Allison Div.—Chemical-energy storage to replace batteries? (D) ..... Oct. 24 8

General Motors Cadillac Motor Co.—New Cadillac (N) ..... Nov. 14 21

General Motors Chevrolet Div.
Rus-type car (N) ..... Oct. 10 21
Casts aluminum by low-pressure method (N) ..... July 4 16
Readies new engines for smaller compacts. G. E. Toles (N) ..... Dec. 12 20

GM Oldsmobile Div.
Oldsmobile goes compact too (PD) ..... Sept. 26 54
Oldsmobile's F-85 and Buick's Special (N) ..... Aug. 22 17

General Motors Corp. Pontiac Div.
Tempest (N) ..... Aug. 22 17
Tempest—bigger compact joins the field (PD) ..... Sept. 12 64

General Motors Corp. Research Laboratories
Design curves for journal bearings. D. F. Hays (DD) ..... Mid-Sept. F272
Gyroscopic machine yields better fatigue data. Dr. R. S. Hanson ..... Dec. 19 42
Thermionic-emission electron microscope (N) ..... July 4 18
Which bearing and why? A. G. DeHart (DD) ..... Mid-Sept. F279

General Nuclear Engineering Co.
Alloys that change as they work (N) ..... Sept. 5 9
Bismuth—new reactor gamma shield (N) ..... Sept. 12 20
Roughened surfaces improve heat transfer (N) ..... July 25 9

General Precision, Inc.—Better accelerometers off the shelf. R. J. Cohen ..... Sept. 5 54

General Precision Inc. Kearfott Div.—How good are random-wave vibration tests? C. G. Stradling ..... Dec. 5 82

General Precision Librascope Div.—Epoxy guards printed circuits (N) ..... Aug. 1 19

General Radio—Strobe-light ..... Sept. 26 39

Gibson-Egan Co.—Glass-filled nylon or styrene (SP) ..... Oct. 31 64

Gilson Brothers Co.—Power lawnmowers (T) ..... Nov. 14 25

Gisholt Machine Co.
Fiberglass-reinforced plastic for window frames on lathe ..... Sept. 26 49
Tubing integrated into design. Sept. 26 41

Glass, Henry Assoc.—Home-on-wheels accordion style (T) ..... Aug. 8 20

Globe Industries Inc.—Adjustable interval timer (SP) ..... Dec. 12 87

Go Kart Mfg. Co. Inc.—Kart component (PD) ..... Dec. 19 40

Goodyear Aircraft—Value engineering—do your own. R. A. Murray ..... July 11 61

Goodyear Tire & Rubber Co.
Fuel-carrying tires (N) ..... Aug. 29 20
Test tires leave telltale trails (N) ..... Dec. 19 17

Goodyear Tire and Rubber Co. Research Div.—Arc lamp tests experimental rocket liners (N) ..... Oct. 17 16

Gore, W. L. & Associates Inc.—Mineral-fiber-reinforced Teflon (SP) ..... July 25 68

Greene, Tweed & Co.—Hard adapter rings (SP) ..... Aug. 15 66

Grumman Aircraft Engineering Corp.—Orbiting space platform contract (W) ..... Oct. 24 12

Grumman Aircraft's Dynamic Developments—Hydrofoil vessel reaches 70 mph (N) ..... Oct. 17 17

Guenther Industrial Developments Ltd.—Tachometer senses speed without contact (D) ..... Sept. 5 8

Hadfields, Ltd.—High-boron steels made workable by aluminum (D) ..... Aug. 22 9

Hall & Hall Ltd.—Fluid seals (D) ..... Nov. 7 6

Hamilton Die Cast Inc.—Process color anodizes aluminum diecastings (N) ..... July 4 19

Hannifin Co.—Pulse lubricator (SP) ..... Aug. 22 54

Harper, H. M. Co.—Fastener torque: how much? J. A. Stevenson (DD) ..... Mid-Sept. G346

Haynes Stellite Co. Technology Dept.—Choosing a metal to resist wear. J. K. Elbaum ..... Aug. 29 42

Hercules Powder Co.
Explosive charge powers missile gyroscope (N) ..... Sept. 5 16
New rubber compositions improve electrical insulation (D) ..... Sept. 12 6

High Standard Mfg. Corp.—Batteries trigger target pistol (PD) ..... Nov. 7 67

High Vacuum Equipment Corp.—Electron beam welds in vacuum. T. H. Crane ..... July 18 70

Highland Engineering Co.—Airflow meter (SP) ..... July 25 67

Hi-shear Rivet Tool Co.—Sheetmetal fastener (SP) ..... Aug. 1 55

Hoffman Electronics Corp.
Highway emergency call box (T) ..... Dec. 26 20
Small solar units (D) ..... Aug. 29 8

Holman Brothers Ltd.—Mobile compressor (T) ..... Aug. 8 21

Honest Charley Speed Shop Inc.—Kart component (PD) ..... Dec. 19 39

Hooker Chemical Corp.—Flameproofing chemicals (N) ..... July 18 20

Hooker Chemical Corp. Eastern Chemical Div. — Nonflammable enamel paints (SP) ..... July 11 85

Houghton, E. F. & Co.—Fluoride-based fluids readied for 600 F and above (D) ..... Aug. 15 6

House Committee on Science and Astronautic—Machine translation (W) ..... July 11 12

Hughes Aircraft Co.
Light amplification by stimulated emission of radiation, new solid state electronic device (N) ..... July 25 20
Linac—flash-testing missile electronic systems (N) ..... Dec. 12 17
"Mobot" development ..... Dec. 26 15
Organic semiconductor research (N) ..... July 4 10

Hughes Aircraft Co. Aerospace Engineering Div.—Radiant cooling or shielding. Hall & Yoshimoto ..... Nov. 14 55

Hughson Chemical—Zone refining—new route to high-purity resins (N) ..... Sept. 19 9

Hunter Spring Co.—Right-angle tube clamp (SP) ..... Oct. 31 64
Spring material at high temperature (DD) ..... Mid-Sept. B69

Imperial Chemical Industries Ltd.—Beryllium gives titanium hard case, soft core (D) ..... Aug. 1 6

Independent Lock Co.—Key cutting machine (T) ..... Nov. 14 24

India's National Metallurgical Laboratory—New low-zinc brasses (N) ..... Dec. 19 9

Industrial Electronic Engineers Inc.—Miniature digital readout (SP) ..... Dec. 5 92

Industrie Motorenbau GmbH—Daimler-Benz and Maybach Motorenbau form joint research unit (N) ..... Aug. 29 21

Inertia Switch Inc.—Miniature inertia switch (SP) ..... Sept. 5 67

Institut Francais du Petrole—Twin carburetor saves fuel, minimizes carbon monoxide. Art Erikson (N) ..... Aug. 22 18

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.

Institute of Measurement Science—New center aims to close US lag (N) Oct. 10 20

Institute of Metal Finishing—Metal finishing techniques. Adrian Walmsley (DD) ..... Mid-Sept. C108

Institute of Metallurgy Electrophysical Laboratory—Electron 'mirror' looks at, under surface (N)..... Nov. 14 9

Instrumentation Associates—Refractory cement stands 5000 F (D)...Aug. 15 8

IBM
Birkenstock, J. W. (PV)..... Oct. 10 24
Liquid metal switches high-amp currents (D)..... Aug. 29 8
More reliable computer communication (N)..... July 4 18
Semiconductor growing process eliminates manual assembly (N)..July 11 20
Strain-gage test fingerprints machinability (N)..... Aug. 8 11

IBM Data Systems Div.
How a communications group can help you. Hunton & Slade..... Nov. 21 90
Systems engineering. R. E. Merwin Nov. 14 62

IBM Federal Systems Div.
Angular errors in gears. T. C. Nielsen Aug. 15 56
Cryogenic memory plane automatically produced (N)..... Dec. 26 19
Magnetic drum creates own air cushion (N) ..... Aug. 22 13

International Electrotechnical Commission—Safety rules provided for nuclear instruments (N)..... Dec. 12 16

International Harvester Co.—Compact truck bids for slice of market (N) Dec. 12 17

International Resistance Co.—Failure rate almost zero for new resistors (N) ..... Sept. 5 15

International Telephone and Telegraph Co Industrial Products Div.—Die-cast housing for closed-circuit television camera (T)..... Oct. 31 24

Japan's Electronic Industry Development Assoc.—Japan annulling foreign computer patents (RA)..... Aug. 22 13

Jared Industries Inc.—Conversion to gas turbine power ups amphib's payload, speed (N)..... Aug. 15 17

Johns-Manville Corp.—How to select the right gasket material. J. J. Whalen Oct. 3 52

Johnson Matthey & Co. Ltd. (England)
Coating with noble metal improves electrical components (D)....Aug. 1 10
Hi-temp thermocouples bend to fit test parts (N)..... Dec. 5 9
New shapes for new fibers (N). Sept. 26 9
Wire combinations improve thermocouple performance (D)..... Aug. 15 8

Jones & Lamson Machine Co.—Smith, David N. (PV)..... Aug. 29 25

Jordan Controls Inc.—Load control (SP) Nov. 28 52

Kaiser Aluminum Corp.
Can-printer has plug-in colors (PD) July 18 68
Catamaran sports-fisher, Hawaii Kai (N) ..... Nov. 21 21

Kaiser, Henry J. Kaiser Engineers Div.
Gas nomograph for converting to standard cubic feed. F. Caplan (DD) Mid-Sept. J497
Steel tubing—its weight? It's annular area? F. Kaplan (DF)..... Dec. 26 59

Kay Electric Co.—3-dimensional display unit (N)..... Nov. 21 17

Kaynar Mfg. Co.—Silver plating improves hi-temp bolts (D)....Aug. 22 8

Kelsey-Hayes Co. Metals Div.—Ultra-high-strength steel (SP)..... Sept. 5 66

Kingsbury Machine Tool Corp.—Disengaging drive protects drillhead (PD) Sept. 5 45

Kitco Engineering and Mfg Co Inc.—Rubber is molded to finished size without grinding (SP)..... Sept. 12 78

Klincher Kapscrew Inc.—Self-locking capscrew (SP)..... Sept. 19 90

Knolls Atomic Power Laboratory, Welding Development—Welding or brazing dissimilar metals. Jay Bland Dec. 19 46

Korfund Co.—Transistorized sound-level detector ..... Sept. 26 47

Kulicke & Soffa Mfg. Co.—Trio of mikes provides high-accuracy positioning (N) ..... Dec. 19 9

Kyowamusen Kenkujo Co.—Adjustable strain gage (D)..... Oct. 31 6

Landers, Frary & Clark—Day, William M. (PV)..... Aug. 1 21

Lapp Insulator Co. Process Equipment Div.—Plunger plus diaphragm pumps oil to pump problem fluids (PD) ..... Oct. 24 49

Latham-Tyler-Jensen
Hydraulic floor jack lengthened (T) Oct. 31 24
Product planning is a rarity in machine tools. R. S. Latham (T) Sept. 26 20

Lear Corp.'s Electro-mechanical Div.
Brake-saver being imported from France (N)..... Nov. 14 20
Eddy currents do the braking (PD) Dec. 5 70

LeBlond, L. K. Machine Tool Co.—"Rapid Bore"..... Sept. 26 43

Leitz, Ernest GmbH—Leitz, Dr. Ernst (PV) ..... Sept. 19 24

Lepel High Frequency Laboratories, Inc.—Induction soldering and brazing—9 typical coil designs (DD) Mid-Sept. C168

LeTourneau-Westinghouse—Dry lubricant, molydisulphide, solves 3 brake problems (N)..... Oct. 3 17

Lewellen Mfg Co.—Pneumatic regulator (SP) ..... July 11 85

Lewis Welding & Engineering—One-step molding and curing to improve silicone rubber parts (D)..... Aug. 1 6

Lexington Controls Inc.—Air-pressure regulator (SP)..... Aug. 22 54

Leybold's Nachfolger—Simplified high-vacuum gage (D)..... Nov. 21 8

Leyman Corp. Magnetics Div.—"Plastic" magnets have higher holding power (D) ..... July 25 6

Lignostone Import Co.—Thermohardened beech veneers (SP)..... Oct. 17 84

Lignum-Vitae Products Corp.—Lignum vitae . . . its properties and applications (DD)..... Mid-Sept. C115

Lima Electric Motor Co.—Motor package Sept. 26 40

Little, Arthur D., Inc.—Gavin, James M. (PV) ..... Oct. 10 25

Little, Arthur D., Research Laboratories
Tunneltron—electronic component is rival to tunnel diode. Paul Giguere (N) ..... Dec. 12 17

Lockheed Aircraft Corp.
Calibrator for pressure-measuring systems (N)..... Sept. 5 9
Electra troubles—CAB digs deeper (N) Aug. 29 20
Jetstar (N)..... July 4 19
Resistors use thin titanium films (D) Oct. 17 8

Lodge & Shipley—Product planning is a rarity in machine tools. R. S. Latham (T)..... Sept. 26 20

Logetronics Inc.—Latest technique in camera-made drawings. G. O. F. Johnson ..... Sept. 5 58

London's Imperial College—Constant-clearance bearing minimizes position errors (D)..... Dec. 19 6

Lord Mfg. Co.—Flexible engine suspensions (DD)..... Mid-Sept. H388

Los Angeles Metropolitan Transit Authority—Monorail proposed for Los Angeles (N)..... July 11 15

Los Angeles State College—What every new engineer should know. P. M. Zall ..... Dec. 5 76

Lynair Inc.—Integral air-hydraulic cylinder (SP)..... Aug. 15 66

MCO Industries Inc.—Precision shafts for miniature bearings (SP)..Sept. 5 66

MSA Research Corp.—New supplier of rubidium (D)..... Oct. 24 8

Machine Components Corp.—Continuous-slip clutches and brakes (SP) July 11 85

Machlett Laboratories Inc.
Calendar gives fast look-ahead. O. K. Gde (DF)..... Dec. 26 57
Decimal equivalents of seconds and minutes. O. K. Grade (DF). Sept. 26

MacLean-Fogg Lock Nut Co.—What torque to tension plated bolts? Vernon Stimpel..... Dec. 5 59

Magnetics Research Co.—Reversible decade counter (SP)..... Aug. 8 73

Magnetrol Inc.—Air valve with magnet-operated mercury switch (SP) Oct. 3 54

Mallory, P. R., & Co.—Encapsulating mercury cells of voltage-reference battery (T)..... Oct. 31 60

Mallory, P. R. Electronic Timers Co. Div.—Solid-state timers will control appliances (D)..... July 18 25

Manhattan Physical Research Group Inc.—Adler, Cyrus (PV)..... July 4 6

Mankowitz & Strasser—Laced metal eliminates separate fasteners. Federico Strasser (DF) Pt. 1 Sept. 5-63 Pt. 2..... Sept. 19 21

Marblette Corp.—Transparent encapsulation of components (SP)....Nov. 21 87

Marposs—Test equipment (N)....Dec. 5 117

Marquardt Corp. Materials and Process Section—Designing brazed joints for 1000 F and above. J. C. Reeves Aug. 1 16

Martin Co.
Bellows-operated "shutter" solves heat-disposal problem (N)..Oct. 24 40
Cryogenic units shrink toward practicality (D)..... Sept. 19 9
Purification process for the transuranium element curium 242 (N) Oct. 17 8

Massachusetts Institute of Technology
Brown, Dr. Gordon S (PV)....Sept. 12 9
Modified drill press determines friction coefficients (N)..... Sept. 19 24

MIT Lincoln Laboratory—Metal belts for global radio system (N)..... Oct. 3 21

MIT Lubrication Laboratory—Practical approach to friction coefficients. Ernest Rabinowicz..... Sept. 26 21

Maxnovo—Series of lathes; "Telephotomation" (N)..... Dec. 5 51

Maybach Motorenbau—Forms joint research unit with Daimler-Benz (N) Aug. 29 15

Maytag Co.—Ely, Claire (PV)....Aug. 1 21

McCulloch Corp.—Kart component (PD) Dec. 19 20

McDermott Associates—How the resistance transducers compare. J. R. McDermott ..... Oct. 17 39

McDonnell Aircraft Corp.—Periscope will guide man in space (PD)....Aug. 1 76

McGraw-Hill Publishing Co.—Merger with catalog publisher nears (N) Dec. 12 38

Mears Electric Controls Inc.—Copper alloys for high-conductivity castings. W. K. Roots..... Nov. 21 20

Mecanique et Plastique S. A.—Drill vibrates as it rotates (PD)..... Aug. 15 85

Medical Electronics Third International Conference—Control of artificial limbs (N)..... Aug. 22 50

Mellon Institute—Heat resistance of electronic components boosted (D) July 11 19

Metaducts Ltd.—Combination flexible coupling and slip clutch (D)..Oct. 3 6

Michigan State University—Designtown, USA. Dr. J. H. Soltow..... Dec. 26 8

Micro Balancing Inc.—Seismic pickups simplify dynamic balancing (PD) Aug. 29 27

Micromanipulator Co.—Probe-tipped units aid assembly and testing of tiny components (N)..... Oct. 3 58

Millers Falls Co.—Electrical tools (T) Nov. 14 9

Mimx Corp.—Irradiated polyolefin (SP) Aug. 1 25

Minganti of Bologna—Automatic high-speed internal grinder (N)...Dec. 5 55

Minneapolis-Honeywell—Relay has liquid-metal contacts (D)..... Oct. 3 15

Minneapolis-Honeywell Regulator Co.—Wheel on switch top (SP)...Dec. 26 6

Minneapolis-Honeywell Regulator Co.—Brown Instruments Div.—Instrument housing and dial cover (T)..Oct. 31 60

Minneapolis-Honeywell Regulator Co. Control Devices Div.—Potentiometer-operated temperature controller (SP) Oct. 17 25

Minnesota Mining & Mfg. Co.
Mechanical metal-plating system (SP) Aug. 8 84
Micro-porous tape permits air passage (D) ..... Dec. 19 54
Missimers Incorporated—Tabulated: test-chamber refrigerants. D. J. Missimer (DD) ..... Mid-Sept. A34

Mitchell Camera Corp. Astromics Div.
Vernier device regulates pneumatic-system pressure (SP)..... Nov. 7 6

Mitsubishi—Rear-engine Mitsubishi (N) Nov. 14 80

Mixing Equipment Co. Inc.—Propeller-type mixers for fluid agitation (T) Sept. 5 42

Molded Fiber Glass Sheet Co.—Plastic sheet forms integral shapes (N) Oct. 10 25

Monarch Machine Tool Co.—Hydraulic and electric lines integrated into design ..... Sept. 6 16

Mond Nickel Co.—Hi-temp brazing alloys show improved performance (D) Nov. 21 41

Monsanto Chemical Div.
Film made from foamed plastic (D) Aug. 29 6
Gear and bearing lubes stand higher temperatures (D) ..... Oct. 17 8
Moog Servocontrols—Pneumatic-hydraulic numerical controller....Sept. 26 6

Mosaic Fabrications Inc.—Glass fibers improve performance of cathode-ray tube (D)..... Dec. 26 42

Moto-Mower Inc.—Engine snaps onto choice of implements (PD)..Nov. 7 9

Motorola Inc.—Two-way radio (T) Dec. 12 68

Multi-Contact—Spring-loaded plugs improve electrical connections (D) Oct. 3 24

National Academy of Sciences-National Research Council—Maritime Research Advisory Committee recommendations (W) ..... Aug. 29 6

National Aeronautics and Space Administration
Active communications satellite in the works (W) ..... Oct. 17 12
Bickers with industry and military over satellite-program plans (W) Dec. 19 12
Fibers point to applications for metal whiskers (N) ..... Aug. 29 12
Gives go-sign for more liquid hydrogen fuel (W) ..... Aug. 8 9
Lists development needs (W)..Aug. 15 12
Materials-research efforts to be coordinated (W) ..... Oct. 10 12
Molybdenum panels stand 3000 F (D) Aug. 29 12
Nuclear rocket project advances to industrial contracting stage (W) Nov. 14 6
"Space bus", standard space satellite (W) ..... Oct. 3 12
Space experts backing nuclear power (W) ..... Sept. 19 12
Space R&D costs to top $3 billion a year (N) ..... Oct. 31 16
Space-research dollars spread wider (N) ..... Sept. 19 16
U.S. timetable for race into space (N) Sept. 12 15

NASA Langley Research Center—Heater simulates nosecone reentry problem (N) ..... Oct. 3 20

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

NASA's Lewis Research Center
Corkboard winning in low-temperature insulation tests (D).....Aug. 22 9
Gas lubricants and bearings tested for 1000 to 1400 F (N).....Sept. 26 9
New data on thermal fatigue (N) Dec. 26 12
Radiation-opaque gases to protect spacecraft (N) .....Oct. 17 9
Sublimation in thin air—another space problem (N) .....Dec. 12 9
NATA—Plans expanded research programs (N) .....Aug. 8 17
NATO—Seeks to beef up Western nation R&D. Seth Payne (N).....Oct. 31 15
National Beryllia Corp.—Designing with sintered beryllia. A. J. Strott Oct. 17 65
National Bureau of Standards
Calibrates giant load cell (N)..July 25 21
Chemicals that affect metal strength (N) .....July 18 9
Equations simplify stress calculations (N) .....Aug. 22 12
Humidity sabotages precision of scales (N) .....Nov. 21 9
Room-temperature solders stand 1000 to 1450 F (D).....Sept. 19 6
Tires tested for wear (N).....Sept. 5 16
National Carbon Co.—Ceramic-type hot-working process produces recrystallized graphite (D).....Oct. 17 8
National Electric Welding Machines Co.
Floating arbor positions shells for welding (PD) .....Nov. 28 43
Indexing setup time cut (SP)..Sept. 12 78
NEMA—16 ways to apply limit switches (DD) .....Mid-Sept. I442
National Engineering Laboratory (Scotland)
Air bearings reduce cost of table control (N) .....Aug. 29 21
Better extrusions promised by improved forming technique (D) Sept. 5 8
British studying bearing noise and vibration (N) .....Nov. 14 9
Low-cost diffraction grating checks lead screws (N) Nick Landon Aug. 15 20
Low-cost hydrostatic transmission (D) Nov. 14 8
Pump-motor system recovers "lost" energy (D) .....Dec. 12 6
National Engineering Science Co.—Predict acoustic fatigue life (N) July 18 9
National Inventors Council — Government and the independent inventor. J. C. Green.....Aug. 15 55
National Lead Co. Doehler-Jarvis Div.—Die-cast engine lightens compact car (PD) .....Oct. 10 63
National Metallurgical Laboratory (India)—Nickel-free brasses and steels (D) .....Dec. 12 6
National Science Foundation
Basic research hits $1-billion mark (N) Sept. 5 17
Engineering R&D brings millions to universities (N) .....Aug. 15 21
Survey finds gains continuing in technical employment (N).....Dec. 19 17
National-Standard Co.—Superalloy gives better brake-return springs (N) Dec. 12 15
New Britain Machine Co. Lucas Machine Div.—Numerical controls change tools on machine (N).....Aug. 1 18
New Brunswick Scientific Co.—Freeze-dryer for biological specimens (T) Aug. 8 20
New Moon Homes—Mobile homes—new designs (T) .....July 25 24
New York Air Brake Co.—7 relief valves for portable equipment. C. A. L. Ruhl (DD) .....Mid-Sept. J502
New York Air Brake Co. Hydreco Div.—Single, double dual-vane pumps (SP) .....Oct. 31 64
New York Testing Labs—Applications for piezoelectric transducers in lab work (N) .....Nov. 7 9
New York Wire Cloth Co.—Plastic laminates wired for strength (D) Aug. 8 6
Nicromatic Ltd.
8 ways to guard against metal whiskers. P. C. Noy (DF).....July 25 63
Nameplates: a tabulated guide. P. C. Noy (DF) .....Aug. 29 91
Polyamide-cured epoxy resin. P. C. Noy (DF) .....July 18 79
7 more ways to prevent overloading. P. C. Noy (DF).....Aug. 15 63
6 ways to prevent overloading. P. C. Noy (DF) .....Aug. 1 51
Nielsen Mfg. Co.—Air charger (SP) Dec. 19 55
Nilsen Mfg. Co.—Phase-shifting transducers (SP) .....July 18 83
Nippon Electric Co.—First infrared microscope (N) .....Nov. 21 20
Nishimura, H. (Japan)—Wire combinations improve thermocouple performance (D) .....Aug. 15 8
Nord Photocopy & Electronics Corp.
Dry photocopy machine (D)...Nov. 7 8
Microfilm can be viewed on TV screen (N) .....Oct. 24 16
Nordberg Manufacturing Co.—Engineer "dignity" held cause of production woes (N) .....Sept. 26 19
Norland Associates Inc.—When was that patent issued? George Szekely Dec. 5 87
North American Aviation
B-70 development program may be reinstated (W) .....Sept. 12 12
Electrical equipment reaching for 800 F (D) .....Aug. 8 10
Northrop Corp.
Intercontinental missile releases jumbo-sized nosecone (N)...July 25 15
Monorail rocket-propelled research sled with unique braking fins (N) July 4 15
Northrop Corp. Norair Div.
Rotating ball simulates satellite flight (N) .....Oct. 24 17
Ten commandments for design reliability. B. B. Richardson (DD) Mid-Sept. A30
Nova of Novara—Electronic sizing device (N) .....Dec. 5 16
Norway's Central Institute for Industrial Research — Columbium studies (N) .....Aug. 15 9
NSU Co. of West Germany—Rotary engine manufacture contract (N) Nov. 21 17
Odessa Machine Design Bureau—Magnetostrictive machine-tool drive (D) July 18 8
Officine Triulzi—Automatic die-casting machine (RA) .....Oct. 31 10
Ohlsson & Rice—Engine for garden and outdoor construction work (PD) Nov. 14 66
Olivetti—Cam-milling machine (N) Dec. 5 16
Oime Precision Inc.—Centrifugally operated clutch (SP).....July 4 52
Onsrud Machine Works Inc.—Semiautomatic shaper (T).....Aug. 8 21
Oster, John Mfg. Co.—Hair clipper (PD) Aug. 8 35
Outboard Marine Corp.—Hobby-Gardener (PD) .....Nov. 14 67
Owens-Corning Fiberglas Corp.
Fiberglass flake coating (SP)..Aug. 29 95
Glass reinforces metal for reactor use (D) .....Dec. 19 6
Stronger glass fiber products for Space Age (D) .....Nov. 28 8
Packard-Bell Electronics Corp. Technical Products Div.—Photocell banishes fog in planes (PD).....Nov. 21 96
Pall Corporation Micro Metallic Div.—Evaluating the fluid filtering media. C. H. Hacker.....Nov. 28 29
Palma-Knapp Assoc. — Semiautomatic shaper (T) .....Aug. 8 21
Palmini Engineering Corp.—Kart component (PD) .....Dec. 19 40
Peerless Photo Products Inc.—Copy camera rolls to the job (PD) July 11 72
Pennsalt Chemicals Corp.—Process color-coats metals (SP).....Nov. 14 82
Pennsylvania State U Ordnance Lab—Transducer materials call for new design approach (N).....Aug. 1 11
Perkin-Elmer Corp.—Periscope will guide man in space (PD).....Aug. 1 38
Petro-Electronics Corp. of Denver—Radar may free oil reserves (N) Aug. 1 18
Pfaudler Permutit Inc. Pfaudler Div.—Nucerite—ceramic-coated metal resists high-temperature corrosion (N) Sept. 26 16
Phalo Plastic Corp.—Strain relief is molded (SP) .....Aug. 29 95
Philco Appliance Div.—Thermoelectric cooling coming—but not yet (D) July 25 8
Philips Electronic Instruments—10 X-ray methods. V. W. Palen (DD) Mid-Sept. I432
Pic Design Corp.—Belt drive for instruments features standard gearing (D) Aug. 15 6
Picatinny Arsenal—Simplified equations find moments in circular plates. R. I. Isakower.....Oct. 3 45
Planer, G. V. Ltd.—Responsive mercury switch designed in Britain (D) July 4 6
Plasmadync Corp.
Plasma spray gun permits wide temperature range (N).....Oct. 3 21
Sprayed-on crucibles (N).....Aug. 29 9
Plastics Institute—Seeking industry go ahead (N) .....Aug. 8 19
Platon, G. A. Ltd.—Midget flow-controller uses fluid's power (D) Sept. 26 6
Polymer Corp. Halex Corp. Sub.—Oil-filled porous nylon parts (SP) Aug. 15 66
Pope Machinery Corp.—Boring machine Sept. 26 43
Porcelain Enamel Institute—Quick facts about porcelain enamel (DD) Mid-Sept. C112
Porter Cable Machine Co.—Mower, rider on (T) .....July 11 25
Porter, H. K. Co. Inc. Disston Div.—Electrical tools (T).....Nov. 14 25
Powertron Ultrasonics Corp.—Ultrasonic liquid-level control (SP)....Nov. 14 82
Pratt & Whitney—Aircraft jet engine to pump natural gas (N).....Dec. 5 21
Precision Gears and Products, Inc.—For a stronger metal surface. A. J. Schwarzkoff .....Nov. 14 70
Precision Mecanique Labinal—Paris auto show features new diesel injection pump. Art Erikson (N).....Nov. 7 21
Precision Molding Inc.—When plastic cams are better. M. A. Sanders Aug. 8 44
Pressed Steel Co. of Cowley—British designing new commercial aircraft (N) Nov. 21 20
Purdue—New resin family coming up (N) .....Nov. 28 12
Radiation Applications Inc.—High-temperature adhesives (SP)....Nov. 14 82
Radio Corporation of America
Electronic gaging. D. R. Houck (DD) Mid-Sept. I540
Superconductive metals at room temperature? (N) .....Aug. 8 11
RCA Communications and Control Div.—Scientific instruments can now be rented (N) .....Aug. 15 16
RCA Semiconductor & Materials Div.—Organic batteries (N).....Oct. 10 9
RCA West Coast Missile and Surface Radar Div.—How to write standard operating procedures. D. P. Simonton Aug. 1 46
Rathmann, Jim Enterprises, Inc.—Kart component (PD) .....Dec. 19 39
Raytheon Co.—Handles for printed circuits. I. N. Schuster (DF) Pt. 1 Oct. 10-77, Pt. 2 Oct. 24 59
Raytheon Commercial Apparatus and Systems Div.—Radar may free oil reserves (N) .....Aug. 1 18
Raytheon Co. Industrial Components Div.—Electro-optical potentiometer (SP) Dec. 5 92
Raytheon Co. Marine Products Operations—Marine radio-telephone (T) Dec. 26 20
Raytheon Co. Metals Laboratory Airborne Operations Equipment Div.—Lightweight castings. H. R. Bullock July 4 39
Raytheon Co. Missiles Systems Div.
Beams: how much torsion for off-center loads. S. W. Kaye (DF)..Oct. 17 81
K factor for impact loading. S. Warren Kaye (DFF) .....Aug. 22 53
A survey of encapsulating systems. E. A. Schatz.....Sept. 19 68
Redifon Ltd.—General-purpose computing and data-handling unit (RA) July 25 12
Redifon Ltd. Industrial Electronics Div.—Embossing attachment for plastics welding machines (D).....Oct. 31 8
Redmond Co. Inc.—Fhp-motor brushes (SP) .....Sept. 5 66
Reeves Instrument Corporation—Moment of inertia of cylinders (DD) Mid-Sept. F285
Rensselaer Polytechnic Institute—To accept more woman students (N) Oct. 31 21
Republic Aviation Corp.—When cracks become dangerous. Malcolm Newman Aug. 29 56
Rheem Mfg. Co. Rheem Electronics—Non-contact heads sense shaft rotation magnetically (SP).....Dec. 12 87
Ridge Tool Co.—Pipe tools (T)..Nov. 14 24
Riggs Nucleonics—Lent, Robert B. (PV) Oct. 10 24
Riv—Comparators, multiple gaging and sorting equipment (N).....Dec. 5 16
Rogers Corp.
Lightweight sandwich shields against heat (N) .....July 25 20
The newest molded printed circuits. H. L. Greenman.....Nov. 21 88
Thermoplastic sheet of controlled porosity (SP) .....Dec. 19 55
Rohr Aircraft—Anodic coats to aid titanium (D) .....Dec. 12 8
Roller Bearing Co.—German-designed 'tolerance ring' .....Sept. 26 46
Rollins Research Industries—Ceramic core converts auto exhaust (N) July 11 20
Rosaen Co.—Filter has magnet positioned downstream (SP)....Dec. 26 60
Roto-Tork Mfg. Co.—Pneumatic and hydraulic oscillating motor (SP) Aug. 8 54
Royal Aircraft Establishment
British report on titanium brazes (N) Sept. 26 9
Silicones enhance bearing life (N) Oct. 31 9
Rueger of Lausanne (Switzerland)—Simplified hydrometer (N)..Aug. 15 9
Saginaw Steering Div.—Subminiature ballscrew .....Sept. 26 47
Saimp of Padua—Electrohydraulic copying lathe (N).....Dec. 5 15
San Rocco of Monza—Electronic numerical programer (N).....Dec. 5 15
SASS of Turin—Radial drill (N)...Dec. 5 16
Scalco Controls Inc.—Miniature temperature control (SP).....Aug. 29 95
Scott, James & Co.—Improved position transducer (D) .....Aug. 22 9
Scripps Institute of Oceanography
Developing RUM (N).....Dec. 26 15
Thermistors measure ultralow frequencies (N) .....Oct. 3 9
Sela Electronics Co.—Electrolytic timer (SP) .....Nov. 28 52

Sorensen & Co.—Electronic safety device guards electrical equipment (N) Nov. 21 8
Sostman, H. E. & Co.—Flow transducer (SP) .....Aug. 29 95
South Australia Weapons Research Establishment—One-shot camera (D) July 18 6
South Chester Corp. Southco Div.
Miniature pawl fastener (SP)..Sept. 12 78
Riveting of unsupported sheets (SP) Nov. 28 52
Southern Instruments Ltd.—New tachometer, transducer (D)....Dec. 5 6
Specialties Inc.—Control machine Sept. 26 38

Spencer Chemical
Nylon fuel systems (D).....July 18 8
Oriented nylon to double life of belts Nov. 28 8
Sperry Gyroscope—Engineers vote to decertify union (N).....Sept. 26 19
Sperry Gyroscope Co. Surface Armament Div.—5 clutches for servomechanisms. K. W. Kohlmeyer (DD) Mid-Sept. H396

Sperry Gyroscope of Canada
Electrohydraulic positioner....Sept. 26 43
Pneumatic block reader.....Sept. 26 37
Sperry Rand Corp. Ford Instrument Co.—When helical gears get you out of tight spots. Sigmund Rappaport Oct. 17 61

Sperry Rand Corp. Remington Rand Div.
Automatic microfilm developer avoids complexity (PD) .....Aug. 29 38
Four-bar linkage proportions. P. W. Jensen .....Sept. 19 76
Sperry Rand Corp. Vickers Div.—Less leakage with new shaft seals (N) Dec. 19 15
Square-D Co.—Linear resolver has inch-by-inch scale .....Sept. 26 38
Standard Controls Inc—Servovalve monitor system (SP).....Sept. 26 63
Standard Elektrik Lorenz AG.—Portable phone (T) .....Oct. 3 24
Stanford Research Institute—New test will find flaws in rocket casings. Don Winston (N).....Nov. 7 21
Stavid Engineering, Inc.—How information is presented on cathode-ray display tubes. R. A. Barker (DD) Mid-Sept. I434
Stearns Electric Corp.—Stationary magnet clutch (SP).....Dec. 12 87
Stelzner & Co.—Fine-particle filter features dual action (D).....Sept. 26 8
Stevens-Chase—New applications redesigned this typewriter (T)..Nov. 28 20
Stevens Institute—Seeks thermonuclear key (N) .....Aug. 22 12
Steward, D. M. Mfg. Co.—Ceramic magnet features high residual induction (D) .....Nov. 28 9

Stewart-Warner Corp.
Balancer for in-place or vibration analysis .....Sept. 26 47
Electronic vibration monitor (SP) Nov. 21 117
Low-cost vibration monitor designed for machine installations (D) Aug. 8 6
Studebaker-Packard Corp.— Lark — 1961 model (N) .....Sept. 26 18
Sun Chemical Corp. Rutherford Machinery Co. Div.—Can-printer has plug-in colors (PD).....July 18 68
Sundberg-Ferar—The product engineer, the industrial designer—and the problem of materials selection. Montgomery Ferar .....Oct. 3 25
Swift Levick & Sons—Rubber magnets (D) .....Sept. 19 8
Sylvania Electric Products Inc.—Space communications system by 1970; new laws required (N).....Aug. 1 17
Synthane Corp.—Stronger glass fiber products for Space Age (D)..Nov. 28 8
System Development Corp.—Carter, Launor F., PhD (PV).....Dec. 5 24
Taurus Corp.—Punched-card switching system (SP) .....Dec. 12 87
Taylor, Taylor and Hobson—Electronic-level indicator (N).....Nov. 21 17
Teco Inc.—Airliner seat (T).....Dec. 26 20
TelAutograph Corp.—Handwriting by phone: the two rivals, Wallace & Cross (N) .....Sept. 19 20
Telecomputer Corp. Whittaker Controls Div.—Valve fills tanks precisely—without floats (PD).....Dec. 12 60
Telefunken
Drive with coarse-fine gearing (D) July 4 8
Fully transistorized desk computer (N) .....Nov. 21 16
Telegraph Condenser Co.—New capacitors for —65 F to 400 F (D)..Aug. 1 6
Tempo Instrument Inc.—Solid-state ac time delay (SP).....Aug. 29 95
Tennessee Eastman—Sodium cellulose acetate sulfate, new compound to improve paints and papers (D) Sept. 5 6
Telma of Paris—Brake-saver (N) Nov. 14 20
Texas Engineering Experiment Station—Ternary alloys for new magnets (N) .....Dec. 26 12
Textron Inc. Homelite Div.—Kart component (PD) .....Dec. 19 41
Therm-O-Stats Inc.—Sealed temperature control (SP) .....July 4 54
Thompson Ramo Wooldridge
Columbium alloy shows resistance to heat, corrosion (D).....July 11 8
Power source for space: mercury turbine + nuclear reactor.....Sept. 5 57
Winding machine forms pressure vessel of plastic fibers (N).....Sept. 12 20
Thompson Ramo Wooldridge, Inc. Ramo-Wooldridge Div.—Potter, Dr. Richard C. (PV).....Nov. 21 25
Thompson Ramo Wooldridge Inc. Tapco Group — High-temperature electrical equipment. Griffith & Ross..Sept. 26 56
Thunderbird Industrial Equipment Co.—Tube-support brackets (SP)..July 18 82
Timken Roller Bearing—Tractor design—fatigue life data needed (N)..Oct. 3 9
Titan Industrial Products—Ten ways to prevent piston rod rotation. Dan Rowan .....Aug. 1 48
Titanium Metals Corp.
Anodic coats to aid titanium (D) Dec. 12 8
Titanium alloy aims for 900 F (D) Nov. 28 9
Tjeders Industri Aktiebolag—Intercom (T) .....Sept. 5 25
Tokyo Shibaura Electric Co. Ltd. Export Div.—Hagio, Naoshi (PV)....Dec. 19
Tokyo University—New device reduces drag effect of waves on ships (N) Dec. 12 16
Toro Mfg. Corp.—Benson, Don O. (PV) Sept. 19 25
Toronto University's Computation Center—High-speed printer for high-quality reproduction (D).....Dec. 5 8
Townson & Mercer, Ltd.—Alloy-detector (D) .....July 18 8
Toyo Kogyo Co.
Mazda—small car (N).....Nov. 14 15
Rotary engine manufacture contract (N) .....Nov. 21 17
Toyota Motor Co.
Expands R&D programs (N)...Sept. 5 21
Exporting car with unitized frame (N) July 25 20
Toyota "people's car" (N).....Nov. 14 15
Trabon Engineering Corp.
Indicator .....Sept. 26 47
Indicator spots breaks in hydraulic systems (SP) .....Dec. 19 55
Transval Electronics Corp.—Hagopian, Berj (PV) .....Oct. 10 25
Truesdail Laboratories Inc.—Truesdail, Dr. Roger W. (PV).....July 4 21
Tungmum Ltd.—Speed-change mechanism provides wide operating range (D) .....Aug. 29 6
Tung-Sol Electric Semiconductor Div.—Redundancy to play bigger role in system design (D).....July 25 6

Tyce Engineering Corp.
Brazed engine—raised performance (PD) .....July 4 35
Brazed engine nears debut (N) Nov. 14 21
Twin Disc Clutch Co. Hydraulic Div.—Integrated power-transmission components (SP) .....Oct. 24 63

Udylite Corp.
Metal electroplating improved (N) Nov. 28 16
Nickel plating (SP).....Dec. 5 92
Radio waves cure plastic (N)..Dec. 12 20
Union Carbide Corp. Chemicals Co.—Epoxide building blocks (N) July 11 17
Union Carbide Corp. Linde Co. Div.
Crystal-growing process (SP)..July 4 52
Noble gases solve design problems (D) July 4 8

Union Carbide Metals Co.
Chart shows alloy's hi-temp creep-rupture behavior .....Oct. 10 75
Low corrosion rate of Ti-Pd alloy confirmed (N) .....Aug. 15 21
Union Carbide Plastics Co.—9 plastic foams. C. R. Davall (DD)..Mid-Sept. C113
Union Tank Car Co.—Quick calculations for corrugation stiffness. E. A. Phillips (DF) .....Sept. 12 75
UK Atomic Energy Authority—Sealed drive (D) .....July 25 8
United Shoe Machinery Corp.
Flexible gears for high ratios (PD) Dec. 12 62
How to design for blind riveting. C. E. Heilig Jr. (DD).....Mid-Sept. G338

U.S. Air Force
B-70 bomber program (W)....July 18 12
B-70 development program may be reinstated (W) .....Sept. 12 12
Cargo plane—design competition (W) July 4 12
Discoverer catch-plane retrieval capability to double (W).....Sept. 19 12
Manned-aircraft contracts to be let (W) .....Oct. 17 12
Pinpoints who's working where and why (N) .....Aug. 8 17
Plans to do it's supply shopping electronically (N) .....Oct. 24 15
Rotating ball simulates satellite flight (N) .....Oct. 24 17
Samos a specialized spy satellite (W) Nov. 7 12
To use "value engineering" to cut costs (W) .....Nov. 14 12
U.S. Air Force's Arnold Engineering Development Center—Simulated space chamber speeds component tests (W) .....Dec. 26 13
U.S. Air Force Electronics Research Directorate—Testing lags behind equipment design (N).....Dec. 26 12
U.S. Air Force Wright Air Development Div.—Improved aluminizing process (D) .....Nov. 7 8

U.S. Army
Camp Century, an arctic ice city, to test equipment (W).....Aug. 1 12
Pershing missile shown to NATO (W) Sept. 12 12
U.S. Army Detroit Arsenal—Transmissionless engine sought by Army engineers (D) .....July 11 6
U.S. Army QMC R & E Center—Zone refining—new route to high-purity resins (N) .....Sept. 19 9
U.S. Army's Rocket Guided Missile Agency—Aperture cards for space-age drawings (N).....Aug. 1 15
U.S. Army Signal Research & Development Laboratory Special Purpose Battery Branch—Electrolytes may signal battery improvement (D) July 25 8
US Automatic Corp.—When expandable bushings are the answer. Eric Nord Sept. 5 41

U.S. Bureau of Mines
Antimony and cobalt strengthen titanium (N) .....July 11 9
Indium to improve magnesium (N) Sept. 12 9
Zirconium increases strength of titanium (N) .....Sept. 19 9
U.S. Defense Dept.
30,000 World War II R & D reports to be declassified (N).....Aug. 29 21
U.S. Dept. of Defense Advanced Research Projects Agency
ARPA spends for materials research (N) .....July 18 21
Energy conversion research (W) Sept. 5 12
U.S. Dept. of Agriculture—Baby pinch valve featured in conveyor system (D) .....Aug. 1 6

U.S. Dept. of Commerce
Methods to compute flat-plate stresses (W) .....July 4 12
Patent Office says the lone inventor still counts (N).....July 18 15
U.S. Industries Inc. Robodyne Div.—Machine uses reflexes to condition workers (N) .....Oct. 31 17
U.S. Industries Inc. Western Design and Electronics Div.—Mark II, automated teaching device (N)..Nov. 28 18

(A) Abstract. (D) Developments. (DD) Design Digest. (DF) Design File. (Ed) Editorials.
(N) Technical News. (PD) Product Design. (PV) Points of View. (RA) Reports from Abroad.
(SP) Significant Parts. (T) Trends in Appearance Design. (W) From Washington.

U.S. Naval Ordnance Lab.
Internal diameter gage (N)...Oct. 31 9
Magnetic core material improved (D) Sept. 26 8
Optical elements from semiconductor research (D) .....Nov. 14 8

U.S. Naval Research Lab.
Glass for vacuum systems (N) July 11 9
Hi-temp strain test developed (N) Nov. 21 9
Silicone lubes head for the 700-F level (D) .....July 25 6
Silicone lubes readied for 600-F service (D) .....Sept. 26 6
Titanium alloy fails extrusion tests (N) Nov. 7 20
Vacuum effect on alloys (N)..Sept. 26 18

U.S. Naval Research Lab. Chemistry Div.—More-stable lubricants (D) July 11 8

U.S. Naval Research Lab. Metallurgy Div.—Protective analysis may sap metal strength (N).....July 4 10

U.S. Navy
Advocates say sea-launched satellites best (W) .....Dec. 5 13
Bacterial action to assist battery output (D) .....Nov. 14 8
Changing design engineers for giant radiotelescope (W) .....Dec. 5 13
Controlled-radiation paints (D) Oct. 24 6
Ground equipment becomes key to satellite success (W).....Oct. 24 12
Hydrofoil boats (W).....July 11 12
Hydroskimmer built on the "water-wall" principle (N).....Aug. 15 16
Plans deep-sea locker for its oil supplies (W) .....Nov. 7 12
Polaris missile outgrows its original carriers (W) .....Dec. 5 13
Polaris shots timed to motion of sea waves (W) .....Aug. 15 12
Polaris to be launched from trucks too (W) .....Aug. 8 12
Radiotelescope—22½ tons of bearing alignment (N) .....Aug. 15 17
Radiotelescope 2 years behind schedule (W) .....Nov. 7 12
Raven to replace Corvus missile? (W) Aug. 1 12
Rebuffs proposed Defense reorganization (W) .....Dec. 26 13
Shipboard equipment for satellites in offing (W) .....July 11 12
Studies jet-propulsion for subs (W) Aug. 1 12
Thermocouples to replace gears in sub refrigeration systems (W)...Sept. 5 12

U.S. Navy Bureau of Ships
Corrosion blamed on sealing too well (D) .....Sept. 12 6
World's fastest microwave facsimile reported (W) .....Nov. 28 13

U.S. Steel Corp.
Car weight and cost go down with new steels (N).....Nov. 14 21
Earthmover with self-contained power source (N) .....Nov. 21 21

US Weather Bureau—Engineers to use computer in design (W).....Dec. 19 12

Universal Diamond Match Corp. Armament Div.—Amplified muscle gives control (PD) .....July 4 34

Universal Match Co.—6 applications for the capstan-type power amplifier. L. A. Zahorsky (DD).....Mid-Sept. E213

University of California — Hydrogen fused for split second (N)...Nov. 21 17

University of Michigan—New concepts on safety factors. Charles Lipson (DD) .....Mid-Sept. F275

University of Nebraska—Registration by mail brings better engineering education (N) .....Dec. 5 21

University of Toledo—Springs: how to design for variable rate. J. F. Machen (DF) .....July 11 81

Uzbek Academy of Sciences—Insulating magnets in paste form (D)..Dec. 26 8

Vare Industries — Mermat — underwater vehicle (N) .....Dec. 26 16

Vibro-Meter Corp. — Brushless rotary pickup (D) .....Sept. 19 6

Vickers-Armstrong — Britain's first atomic submarine (N).....Oct. 31 21

Vickers Inc.
Servo system ..... Sept. 26 42
Vane pumps improved for hydraulic circuits (N) .....Nov. 21 17

Vitro Chemical Co.—Scandium oxide ready for evaluation (D).....Oct. 10 8

Volkswagen
Detroit goes after bus-type market (N) Oct. 10 21
Volkswagen re-engineered (N) Aug. 22 19

Wacker-Chemie GmbH—Asbestos insulation improved (D).....Oct. 3 6

Wagner—Tractor, "Go Devil", swims and climbs too (N).....Dec. 5 17

Waldes Kohinoor, Inc. Truare Retaining Rings Div.—How rings aid component design. Howard Roberts (DD) Mid-Sept. G343

Walker, O. S. Co. Inc.—Demagnetizes before assembly. J. N. Engelsted .....July 4 27

Wang Laboratories, Inc.—Block reader and control .....Sept. 26 37

Ward-Riddle Co.—Rotating electrical connector (SP) .....Nov. 14 82

Warner & Swasey Co.
Curtis, Myron S. (PV).....Aug. 29 25
Product planning is a rarity in machine tools. R. S. Latham (T) Sept. 26 21

Warner & Swasey Co. Textile Machinery Div.—Sliding pins are heart of mechanical memory (PD)...Sept. 5 47

Washington Steel Corp.—Color-coated stainless steel (SP).....Aug. 1 55

Waste King Corp.—Given, Bertram (PV) Sept. 19 25

Watertown Arsenal—Supercooled titanium shows superstrength (N) Oct. 10 9

Wayne Iron Works — Power-operated folding column (SP).....Sept. 26 63

Weatherhead Co. Special Products Div.—Miniature check valves (SP) Aug. 22 54

Weizmann Institute — Chemicals that change color may collect data (D) Sept. 5 8

Wells Survey Inc.—Design nomographs the easier way. C. R. Glanville Oct. 10 66

West Point Products Corp.—Battery powered lawn mower (PD)..Nov. 14 67

Western Electric Co.—"Seeding" process produces cheaper quartz for electronics (N) .....Dec. 19 18

Western Gear Corp.—Formed-in-place lubricants for up to 1000-F service (D) .....Aug. 1 10

Western Union—Automatic communications system to be used by Air Force (N) .....Oct. 24 15

Westinghouse Electric Corp.
Fillers help plastics resist electrical failure (N) .....July 25 9
Hi-temp brazing alloys show improved performance (D) .....Nov. 21 6
Measuring of ultralow pressures streamlined (N) .....Nov. 14 16
Operating principles of 12 timing devices. J. C. Ponstingl (DD) Mid-Sept. H393

Westinghouse Electric Corp.'s Aircraft Equipment Department
Ceramic-metal combination transforms heat to power (N)....Dec. 19 18
Linear motion in sealed systems. J. P. Thorel .....Nov. 21 100

Westinghouse Materials Research Lab.—Cobalt-iron combinations for better magnets (N) .....Nov. 21 9

Westinghouse Research Laboratories
Iron rust blamed on subversive protons (N) .....Aug. 8 16
Phenolic laminates promise better circuit components (D).....Sept. 5 6

Weston Hydraulics Ltd.
Shortcut to designing torsion bars. D. A. Derse (DF).....Aug. 8 51
Torsion-bar design—another shortcut. D. A. Derse (DF).....Aug. 22 51

Wheelabrator Corp.—Shot peening in gear design. J. C. Straub (DD) Mid-Sept. E210

White Motor Co. Reo Div.—Trucks—variables don't daunt new truck (N) Sept. 19 16

Wiesner-Rapp Co. Inc. Farnham Div.—Bidirectional step motor (SP) July 18 82

Wood's, T. B. Sons Co.—Spacer couplings (SP) .....Aug. 29 95

Wright Air Development Div.
ASTM seeks improved tests for acoustic fatigue (N).....Aug. 29 9
Organic coatings for outer space (D) Dec. 19 8

Yuba Consolidated Industries Yuba-Dalmotor Div.—Brushless motor nears commercial introduction (D) Sept. 12 8

Zeiss, Carl, Oberkochen, W. Germany—Star design projector redesigned (PD) .....Oct. 17 70

Zurn Industries Inc. Mechanical Power Transmission Div. — Self-lubricating flexible coupling (SP).....Dec. 12 87

Zuse K G—Perforated-tape controlled plotting table (N).....Nov. 21 16

AUTHORS' INDEX

ADAMS, C. R.—Oil-mist lubrication for air bearings .....Aug. 29 54
ADLER, Cyrus—Point of view....July 4 21
ASHBURN, Anderson—Point of view Aug. 29 24
ATKINSON, James T. N.—Plating nickel on aluminum alloys.....Mid-Sept. C118
BARKER, Richard A.—How information is presented on cathode-ray display tubes .....Mid-Sept. I434
BENSON, Don O.—Point of view Sept. 19 25
BERMAN, Baruch—Speed control for DC motors .....Aug. 15 41
BIRKENSTOCK, J. W.—Point of view Oct. 10 24
BLAND, Jay—Welding or brazing dissimilar metals .....Dec. 19 46
BORST, Ray—Point of view.....July 18 24
BREWER, Allen F.—Surveyed: 10 lubrication methods .....Mid-Sept. E205
BRONSON, K. R. & C. C. Faroni—Vibration resistance of thread locking devices .....Oct. 10 58
BROOKS, G. R.—Correcting motor power-factor .....Mid-Sept. H392
BROWN, Dr. Gordon S.—Point of view Sept. 12 24
BRULIN, Laurence W.—Props for operators .....Aug. 29 40
BRYANT, R. C. & D. W. Dudley—Which right-angle gear system?.....Nov. 7 55
BULLOCK, Hemenway R.—How to design lightweight castings.....July 4 39
BURNS, John S.—Hydrostatic drive gives tractor more power....Aug. 29 37
BURTON, Charles J.—Point of view Nov. 21 25
CAPLAN, F.—Gas nomograph for converting to standard cubic feet Mid-Sept. J497
CARTER, Launor F. PhD—Point of view Dec. 5 24
CHAPIN, Roy D., Jr.—Point of view Sept. 19 24
CHIRONIS, Nicholas P.—55% thread depth will make beryllium bolts practical .....Nov. 14 75
Today's ball bearings.....Dec. 12 63
What's new in bearings and lubrication Nov. 28 46
CLARK, J. A. & others—High-temperature electrical equipment...Sept. 26 56
COHEN, Robert J.—Better accelerometers off the shelf.....Sept. 5 54
COLEMAN, E. H.—When plastics burn Mid-Sept. A40
CRANE, T. H.—Electron beam welds in vacuum .....July 18 70
CRONQUIST, Donald H.—Determining focal length of a thick lens..July 4 49
CURTIS, Myron S.—Point of view Aug. 29 25
DAS GUPTA, A. K.—Reversal of electric motors .....Dec. 5 84
DAVALL, C. R.—9 plastic foams Mid-Sept. C113
DAY, William M.—Point of view Aug.1 21
DE HART, Arnold O.—Which bearing and why? .....Mid-Sept. F279
DE MONGE, Louis—Section modulus charts find beam dimensions faster Nov. 7 77
DERSE, D. A.—Shortcut to designing torsion bars .....Aug. 8 51
Torsion-bar design—another shortcut Aug. 22 51
DI SAPIO, Alfred—Bonded coatings lubricate metal parts.....Sept. 5 48
DOANE, Norman H.—Styling an electrical-discharge machine tool Aug. 22 20
DONKLE, L. B.—How to avoid metal-hose failure .....July 25 43
DUDLEY, D. W. & R. C. Bryant—Which right-angle gear system?.....Nov. 7 55
ELBAUM, J. K.—Choosing a metal to resist wear .....Aug. 20 43
ELY, Claire—Point of view.....Aug. 1 20
ENGELSTED, John N.—Demagnetize before assembly .....July 4 27
ESKEN, Robert L.—Designing products for automatic assembly...Mid-Sept. F288
FARONI, C. C. & K. R. Bronson—Vibration resistance of thread locking devices .....Oct. 10 58
FENDRICH, O. R.—Belt friction and shaft load .....Mid-Sept. E208
FERAR, Montgomery—The product engineer, the industrial designer—and the problem of materials selection Oct. 3 25
FERENCE, Dr. Michael Jr.—Point of view .....Nov. 21 25
FILIPPI, F. J. & Boris Levenetz—18 ways to join honeycomb panels Mid-Sept. G348
FREISMUTH, J. S. & J. K. Gould—High-force thermostatic actuators..July 11 74
GARDNER, Annesta R.—How to select miniature lamps .....July 18 57
These fluids for 500 F and above Oct. 24 45
GAVIN, James M.—Point of view Oct. 10 25
GIORDANO, Felix—Today's chrome plate finishes .....July 4 36
GIVEN, Bertram—Point of view Sept. 19 25
